V7546256	Dr. M U Nemade
V7546255	Dr. Sunita Patil
V7546254	Dr. S. K. Ukarande
V7548012	Mr. Ghanshyam Phadke

Mr. Ishwar Bandil introduced us to the company and its environment he showed us Innovation Lab of Reliance Jio where we have seen most affordable mobile of Reliance which cost Rs. 1500/- he demonstrated all features and working of this mobile. He also explained us about Jio OBD a device which we can use in cars to access WiFi and Jio media cable to interconnect mobile with TV system at home. Then we all proceed to meet Dr. Munir Sayyad (Asst. Vice President), he welcomed us. Dr.

Munir Sayyad explained the innovations carried out by Reliance Jio and he also explained about FTTH (Fibre to the Home broadband service). The orientation of company was given by heads of individual department regarding launching and practicing of new technology. Dr. Munir Sayyad discussed with us institute requirements for collaboration. He suggested faculty should get trained on latest technology, further he suggested to plan for 3months course for faculty. He also agreed to visit KJSIEIT for expert talk, creating awareness among faculty about upgradation of knowledge in telecom sector and placement of students.

After lunch Dr. Munir Sayyad taken us to Digital Smart Home project developed by him. It is the best innovation built inside the company itself. It works on LTE principles which are integrated with home appliances which can be operated with mobile phone. They also explained technicalities, development and future of their new technologies.

I along with Principal, Vice Principal and my colleagues would like to extend our gratitude to Reliance Jio, Dr. Munir Sayyad (Asst. Vice President) and his team for permission and support they gave to make our visit a memorable and success with accomplishment of objective. I would also like to thank our Principal, Dr. S. K. Ukarande for arranging such visit for our faculty.

Future plan:

1. Sign MoU with Reliance Jio
2. Identify faculty for training at Reliance Jio Ghansoli.
3. Arrange expert talk for faculty on recent trends in 5G Mobile Communication.
4. Provide Placement Assistance to our students.
5. Set up of Reliance Jio training centre in Ayurvihar campus.

Glimpse of Visit

Dr. M. U. Nemade
Dean IIIC
