(Computer Engineering, Electronics & Telecommunication Engineering &

Electronics Engineering)

Permanently Affiliated to University of Mumbai & Approved by AICTE & DTE

Career Guidance, Training, Placement

- **Availability of career guidance facilities**: Career guidance responsibility is shared by all HoDs, placement committee and various professional bodies. Seminars/ workshops are arranged at departmental as well as at institute level. The alumni also visit and interact with present students to mentor them on individual basis, and in informal manner. The Library is stocked with ample number of books on the subject.

- **Counselling for Higher Studies**: Higher education guidance responsibility is also shared by all HoDs, placement committee and various professional bodies. Guidance sessions are conducted at departmental level by departmental faculties under guidance of respective Head of Department. The proctors play a major role in individual counselling of students. At institute level, various professional bodies as well as the placements committee regularly organize seminars and workshops to spread awareness amongst the students about higher studies.

- **Pre-Placement Training**:- This year the institute has implemented concept of finishing school. Under the finishing school training is carried out in two phases for around 100 hours and provided online practice tests for the students are conducted to get them better practice for Mock, aptitude, interview skills for placement purpose.

- **T & P sessions** are planned in the time table for SE,TE & BE students and grooming sessions are conducted every week to prepare the students for placements.

- **GATE practice software** is also installed in institutes 'LAN to prepare students for GATE Examination. Students are also guided for studies in India/abroad   through expert seminars and alumni based at foreign countries.

- **Language lab** with audio visual software is available to boost language skills of students who need the same.

Class-teachers, Mentors, HODs and all other faculty members counsel and guide students continuously about their career, placements, training, requirements if industries worldwide, latest evolutionary technologies, value addition knowledge etc.
