# Our Founder & Our Inspiration

Padmabhushan  
**(Late) Pujya Shri Karamshibhai J Somaiya**  
(16.05.1902 – 09.05.1999)

*“Neither do I long for Kingdom, nor for heaven,  
nor do I desire to be free from rebirth, I only  
wish to remove the sufferings of all being afflicted  
by pain”*

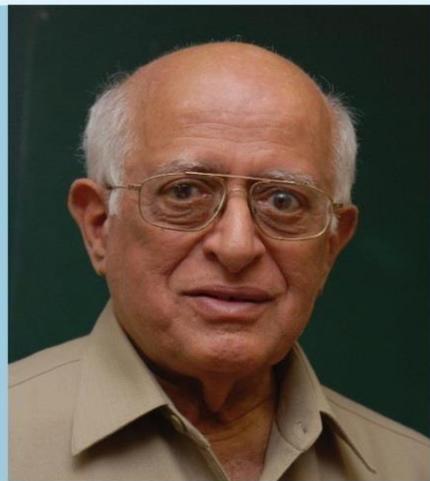

## Our Founder

Padma Bhushan Pujya (Late) Shri Karamshi J Somaiya, an entrepreneur, philanthropist and a great visionary, by the dint of hard work and singular devotion, totally dedicated himself to the services of humanity.

Endowed with a sharp business prowess, a balanced perspective and a social bent of mind, Karamshibhai set up the K J Somaiya Trust in 1951. Later, he laid the foundation for Somaiya Vidyavihar in 1959. This has grown into large educational complex with 37 institutions catering to diverse fields of education in Science and Humanities, Engineering, Education, Medicine, Management, Mass Communication etc. with more than 38000 students, 1700 teaching faculty and more than 1300 non-teaching supporting staff.

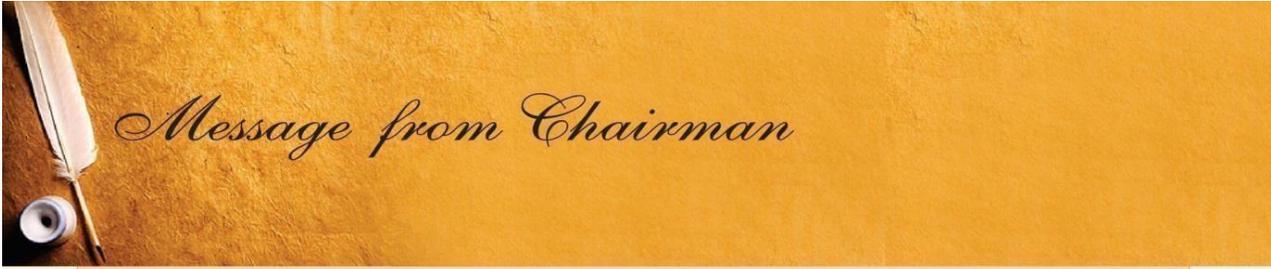

## Our Inspiration

(Late) Dr. Shantilal K. Somaiya was a leading industrialist and businessman who received various awards including prestigious 'Luminosa' and 'Sanskrit Mitra' titles strongly upheld the peaceful co-existence of religions. He travelled extensively across the globe to spread the message of Indian Culture and Philosophy. He also made a remarkable contribution to education and upliftment of 'adivasis'.

**Late Dr. Shantilal K. Somaiya**  
29.12.1927 to 01.01.2010

*The great visionary and  
Transformational Leader*

**Shri. Samir Somaiya**  
*President, Somaiya Vidyavihar*  
*Chairman, Somaiya Trust*

I welcome you to Somaiya Vidyavihar Institutions. Somaiya Vidyavihar was founded over 60 years ago, as an institution dedicated to foster learning, innovation and character building.

The institution helps cultivate a climate of enquiry, questioning, and freedom to explore and contribute answers to problems, small and large, local or global.

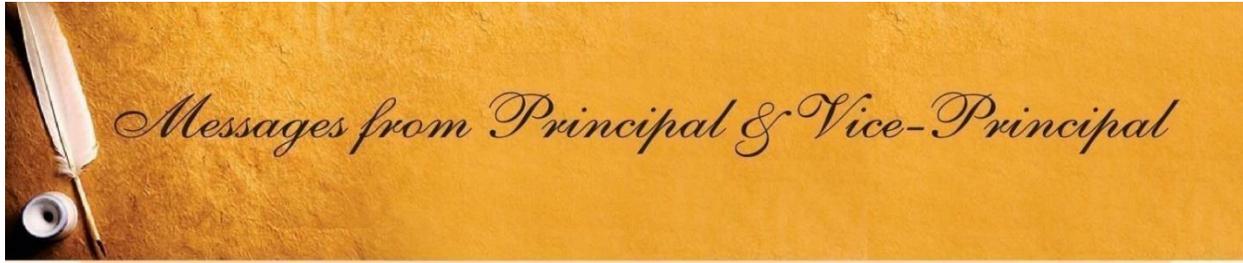

Our campus has a large diversity of academic programs, and houses students from various disciplines, who come from different parts of India, and the world. The institution aims to develop young men and women who dedicate their learning to improve themselves, and the common good.

Once again, I welcome you to our institution, and hope that you achieve great heights, and find out more about your own self.

K J Somaiya Institute of Engineering and Information Technology (KJSIEIT), the second Engineering College established by the Somaiya Trust in the year 2001, at Ayurvihar campus, Sion was set up primarily in response to the need for imparting quality education in the modern field of Information Technology and the allied branches of Engineering and Technology. KJSIEIT as a well-established name in the Engineering Education has been creating engineering professionals to shoulder growing responsibilities and pursue emerging opportunities with a career progression..

The Institute intends to impart quality education and holistic personality development of the students under 4 streams of Engineering i.e. Electronics & Telecommunication engineering, Electronics engineering, Computer Engineering & Information & Technology with total 378 intake capacity and around 1528 students in all. Keeping in view, the Institute's commitment towards quality education, the three elements which make this possible are physical infrastructure, technological infrastructure, and organizational infrastructure. It has always been the major emphasis to make the Institute a vibrant place for learning.

KJSIEIT extends over sprawling 7 acres of land and is located at the heart of Mumbai city, in the spacious campus of Somaiya Ayurvihar. It is housed in an eight storied building having ground plus eight floors with airy classrooms, hi-tech laboratories, auditorium, canteen, common rooms etc. It provides state-of-the-art amenities with a special emphasis on the holistic development of students for the skilled and social development through various professional international and national bodies. To achieve dynamic progress in related domains, the Institute strives for a tremendous parallel improvement in facilities and infrastructure to keep it on par with the best institutions in the field of Engineering and Information Technology. Overall, the facilities provided foster creativity, innovativeness and capabilities for a self-directed lifelong learning in students for a constructivist learning.

## Message from Principal

Dr. Suresh Ukarande  
*Principal*

It gives me immense pleasure to endorse the activities of National Service Scheme (NSS) Unit of KJSIEIT through this e-booklet.

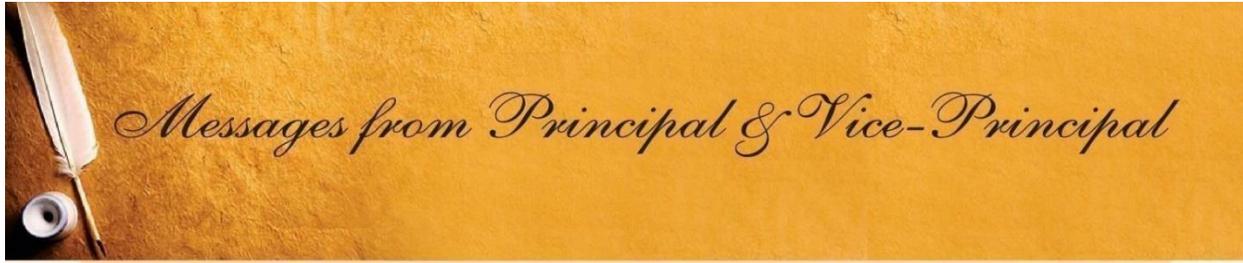

NSS is an initiative of Government of India and is conducted by Department of Youth Affairs & Sports since its launch on 24th September, 1969. The herald of digital technology and its varied applications in more or less every field of life has provided solutions but has equivalently created a divide in the society among those with the said facilities and those who are totally oblivious of such advancements -the reason being their unending struggle for addressing their basic amenities. Hence, with 'connectivity' comes 'disconnectivity' in the social setup. The youth of a country is capable to bring about a revolutionary change in the society by creating sustainable solutions through prompt services especially like that of NSS in an academic program at higher secondary level.

Apart from the benefit of 0.1point (added in SGPI in CBCGS); the students come in direct contact with the community thereby providing new dimension and orientation to their personality. In technical Institutes, like KJSIEIT, the student volunteers of different Engineering streams are grouped under this unit to establish meaningful linkages between 'community and campus', 'college and village' and 'knowledge and action'. This is done in various programs ranging from Blood donation camps, green initiatives, village adoption, Swach Bharat Abhiyaan, Road Safety Seminars, Yoga sessions to that of different awareness drives.

Under the able guidance of dedicated faculty and staff, the student volunteers are mobilized to be sensitive towards their surroundings and to utilize these opportunities to develop their competencies within democratic set-up. There is an urgent need to have such an ideological orientation among technical students as they are eligible to address to the common man's problem both in local and global ways. The N.S.S. unit has come up with a unique idea of e-booklet which is the compilation of various 'days' being celebrated across India and the world. The information and the day's specification are in sync with the respective objectives to seek the reader's attention. I wish all the best to the entire N.S.S. Unit of KJSIEIT, which has stood by the firm belief of our Founder Padmabhushan (Late) Pujya Shri K.J.Somaiya ----'What you receive from the society, give back in multifold.'

I am hopeful that this Unit would continue with its mission and contribute its valuable services in Nation building for making an impact on the bond between nature and humans for better co-existence---- the crux of being conscious and compassionate towards life itself.

I wish KJSIEIT N.S.S Unit success in all their future assignments.

## Message from Vice Principal

Dr. Sunita R. Patil  
*Vice Principal*

National Service Scheme (NSS) India was introduced in 1969 with the primary objective of developing the personality and character of the student youth through voluntary community services. "Education through Service" is the purpose of the NSS. Very appropriately the motto of NSS is "NOT ME, BUT YOU".

In today's technically growing world, we all get into fast and furious thinking without any concern about the poor or underprivileged people. The NSS platform makes all aware about the needs around.

K J Somaiya Institute of Engineering and Information Technology, Sion, Mumbai - NSS units, take up all social activities that has relevance to the community through the use of technology. KJSIEITs -NSS unit create many opportunities in the technical world, leading to inculcate values, ethics and social responsibility in our student's.

I cherish the feeling that we all as a human share with each other through a channel as KJSIEITs NSS unit. It helps in acquiring leadership qualities and democratic attitude. It provides diversified opportunities to student's in colleges and universities to develop their personality through community service. It help's in developing positive attitude, self-confidence, courage and patience. It serves a platform for all the student's to identify the needs and problems of the community and involve student's to solve it.

I am glad to put forth my voice as the kind of hard work and efforts that our students of NSS has taken. There are end numbers of activities that our student's have observed and experienced. They have proved themselves that they are not just students who are chasing their bright future but also they have nailed it as having a human quality of achieving their goals by enacting the attribute of its motto that is "NOT ME BUT YOU". And to extract this motto in reality, our action packed youngsters analyzed various types of events which are concoction of humanity and humbleness like adopted a village, cleaned beaches, cleaned and colored railway stations, organized blood donation camps, conducted awareness sessions about importance of education, personal, societal, regional hygiene, organized many more street plays, tree plantation drives and many more.

We at KJSIEIT want to appreciate the efforts and want to represent the valuable proficiency of our NSS young minds, the volunteers, the entire faculty and staff team and for the the same all their initiatives and work done by them are presented in a yearly e- booklet form titled "YES to NSS". I wish to extend my generous appreciation to all KJSIEITians and extend my support to continue the legacy that we all have followed till date and wish all the best to continue the celebration day keeping in mind the aim and importance of KJSIEITs National Service Scheme (NSS).

## FOREWORD

**Pankaj .vdeshmukh**  
**B. E., M.E. Electronics**

**Asst. Professor, Programme officer of NSS-Unit**  
**K. J. Somaiya Institute of Engineering & Information Technology**

National Service Scheme—the NSS Unit of KJSIEIT has been true to its motto of “*Not Me but You*” with array of social activities epitomizing the essence of a self-less service. The NSS Unit has been dedicated to the student’s development & and also has strived towards other living beings’ upliftment. The several initiatives in offline & online modes involved concerns for humanity with self-driven faculties with teamwork synergy. True to its dedicated spirit, the social endeavours have been pivotal to provide equal growth avenues to each inspired team member to create a national impact.

NSS as an active unit has been on forefront in imbibing the social responsibility among students through activities viz. *Blood Donation Camps, Training Rural Children, Swachh Bharat Abhiyan, Road Safety Seminars, Adopting Villages, Green Initiatives, and Helping Hand Scheme for Financially Weak Students, Voter’s Awareness Drive, and Yoga Sessions* etc. As a holistic goal, the social unit aspires to imbibe multi-skill sets for industry-ready engineers with cohesive values—integrity, ethics, with community engagement activities.

The new social initiatives in various dimensions continue to educate the future leaders of the world of tomorrow to shoulder social responsibilities, resonating our *Founder Padmabhushan (Late) Pujya Shri K J Somaiya’s* motto “*What you receive from the society give back multifold*”. To witness transformational education while balancing the need to contribute in our environment, our students are trained to be receptive, sensitive and socially supportive. I am extremely pleased to present to you the E-booklet that captures glimpses of NSS as a community-committed social unit.

We welcome you to the “NSS-social Unit” –our youth who will make this world a better place!

*Vision*  
*Mission*  
*Quality Policy*  
*Objectives of the Institute*

### Vision

To emerge as a synonym of quality, excellence, and commitment in the field of engineering education by unlocking potential, nurturing talent and transforming young minds to create future-ready engineers.

### Mission

- To provide students with a thorough knowledge of engineering to refine their professional skills.
- To nurture creativity and innovation while encouraging multidisciplinary interaction.
- To train students to be industry ready and capable of working effectively as an individual and in teams.
- To inculcate ethical behaviour, responsibility, and commitment among students.

### Quality Policy

- To conform to the requirements of regulatory authorities viz; All India Council for Technical Education (AICTE), Directorate of Technical Education (DTE) and UoM.
- To maintain transparency and fair practices in admission and recruitment processes.
- To ensure continuous evaluation and examination process.
- To ensure best academic ambience by providing high-end equipments in the laboratories, computers, learning resources and smart classrooms.
- To ensure a safe and secure environment for all stakeholders.
- To promote industry Institute interaction, research and development, placements, technical, co-curricular and extracurricular activities.

### Objectives of the Institute

- To focus on persistent improvement in processes related to teaching, learning, and evaluation and to promote a culture of research and development among staff and students.
- To develop technical and interpersonal skills so that the students translate knowledge into action contributing to the benefit of the society.
- To enhance the learning experience of students by honing versatility through diverse activities.

## **NSS Unit of KJSIEIT**

The Motto of NSS "Not Me But You", reflects the essence of democratic living and upholds the need for self-less service. NSS helps the student's development & appreciation to other person's point of view and also show consideration towards other living beings.

The philosophy of the NSS is a good doctrine in this motto, which underlines on the belief that the welfare of an individual is ultimately dependent on the welfare of the society as a whole and therefore,  
the NSS volunteers shall strive for the well-being of the society.

There are currently 41,422 units in India and they all work on various different causes. They work on spreading awareness of the schemes made by the government, on organizing free health checkups, and also on adopting a village and making it better.

## World Blood Donor Day

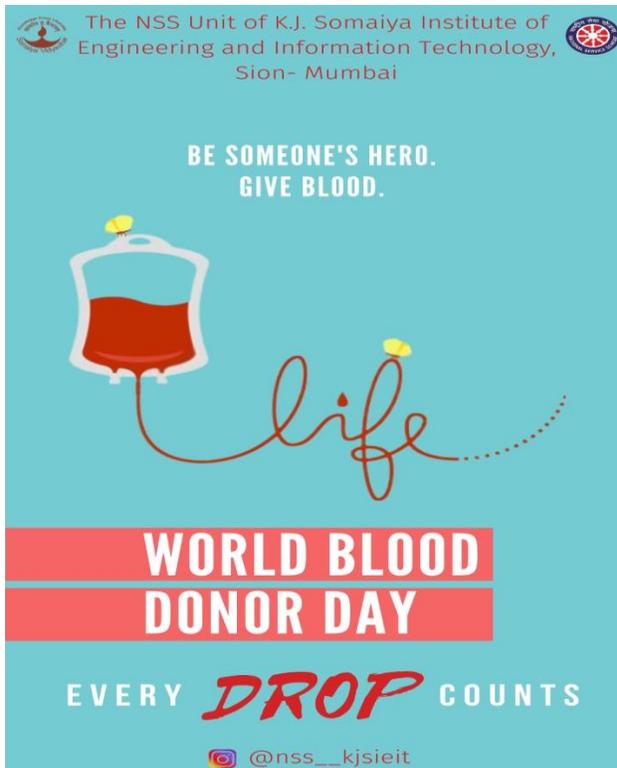

Greetings,

**"Excuses never save a life, blood donation does."**

World Blood Donor Day takes place on 14 June each year. The aim is to raise global awareness of the need for safe blood and blood products for transfusion and of the critical contribution voluntary, unpaid blood donors make to national health systems. The day also provides an opportunity to call to action to governments and national health authorities to provide adequate resources and put into place systems and infrastructures to increase the collection of blood from voluntary, non-remunerated blood donors.

Safe blood and blood products and their transfusion are a critical aspect of care and public health. They save millions of lives and improve the health and quality of life of many patients every day. The need for blood is universal, but access to blood for all those who need it is not. Blood shortages are particularly acute in developing countries.

To ensure that everyone who needs safe blood has access to it, all countries need voluntary, unpaid donors who give blood regularly. Throughout the COVID-19 pandemic, despite limited mobility and other challenges, blood donors in many countries have continued to donate blood and plasma to patients who need transfusion. This extraordinary effort during a time of unprecedented crisis highlights the crucial role of well-organized, committed voluntary, non-remunerated blood donors in ensuring a safe and sufficient blood supply during normal and emergency times.

### Focus of 2021 campaign

For 2021, the World Blood Donor Day slogan will be **“Give blood and keep the world beating”**. The message highlights the essential contribution blood donors make to keeping the world pulsating by saving lives and improving others’ health. It reinforces the global call for more people all over the world to donate blood regularly and contribute to better health.

A special focus of this year's campaign will be the role of young people in ensuring a safe blood supply. In many countries, young people have been at the forefront of activities and initiatives aimed at achieving safe blood supplies through voluntary, non-remunerated blood donations. Young people form a large sector of the population in many societies and are generally full of idealism, enthusiasm and creativity.

The specific objectives of this year's campaign are to:

- thank blood donors in the world and create wider public awareness of the need for regular, unpaid blood donation;
- promote the community values of blood donation in enhancing community solidarity and social cohesion;
- encourage youth to embrace the humanitarian call to donate blood and inspire others to do the same;
- celebrate the potential of youth as partners in promoting health.

Your involvement and support will help to ensure greater impact for World Blood Donor Day 2021, increasing recognition worldwide that giving blood is a life saving act of solidarity and that services providing safe blood and blood products are an essential element of every health care system during this pandemic.

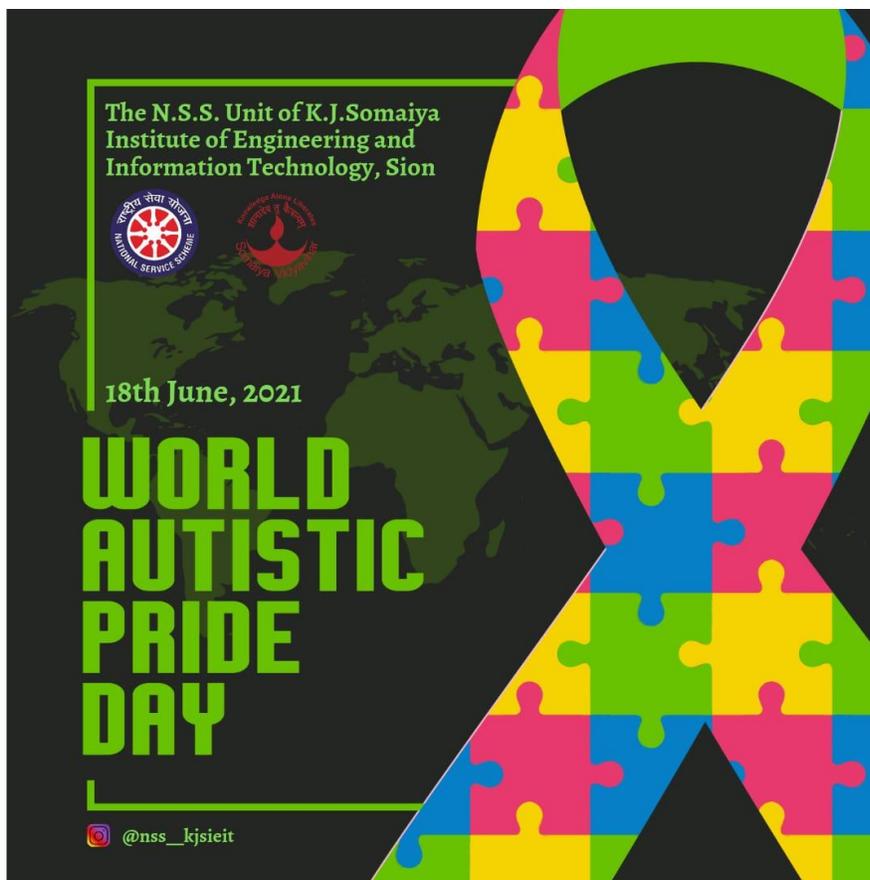

The NSS Unit of KJSIEIT wishes everyone a very happy World Blood Donor Day .

## Autistic Pride Day

Greetings,

**"It is a day to be proud of who you are. Let's celebrate neurodiversity"**

Every year, organizations from across the globe celebrate Autistic Pride Day on June 18 with a variety of events. The aim of this day is to raise awareness amongst those who are not on the autistic spectrum disorder so they do not see autistic people as requiring treatment, but as unique individuals. This annual event was first celebrated by Aspies for Freedom in 2005 and they modelled Autistic Pride Day on the gay pride movement. One of the most significant aspects of the day is that it is not run by charities; it is run by autistic people themselves. Since its beginnings, Autistic Pride Day has been a community event and not a day for other organizations to promote themselves by stifling autistic people. It is now a global celebration that takes place predominantly online.

Autistic Pride Day is represented by the rainbow infinity symbol. This symbol is intended to represent the diversity of autistic people and the infinite possibilities and variations within the autistic community. According to representatives of Autistic Pride Day, people with autism have unique characteristics that provide them with both rewards and challenges. Although many of the difficulties they face are because of their neurodiversity, another factor is issues in society. For example, society's attitude towards autism is often one of pity or a belief that it is a condition requiring treatment. We should try to shift our attitudes away from this and towards acceptance and the realization that autism is a difference rather than a disability.

## AUTISTIC PRIDE

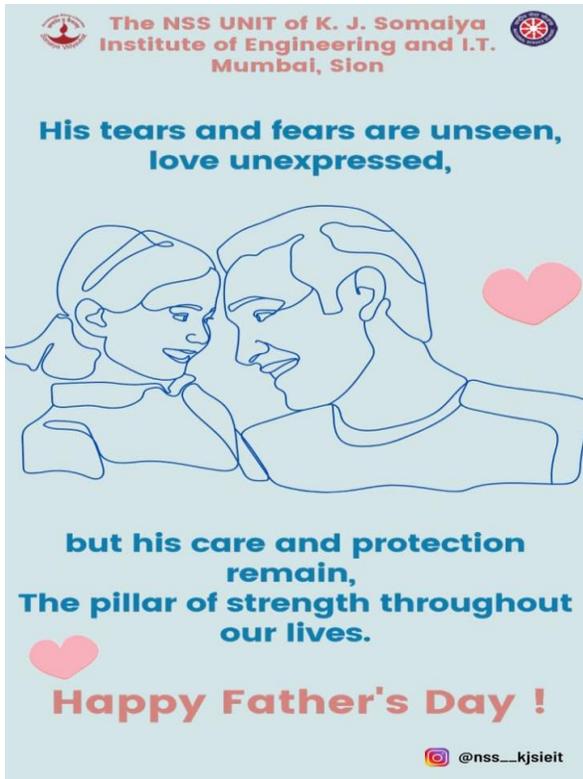

The NSS Unit of KJSIEIT wishes everyone a very happy Autistic Pride Day .

## Father's Day

Greetings,

"No man stands taller than when he stoops to help a child." ~ Abraham Lincoln

**Father's Day** celebrates and honors the men who have embraced the essential role of fatherhood. On **June 20**, we thank fathers and father figures for the sacrifices they make, for embracing the responsibility of nurturing and raising children, and for devotion to their family.

A father is a role model, guide, superhero, friend, and protector who stands by their children at all moments. They are the one who teaches us the right value of life and picks us up when we fall and give us the strength to fight again. A father's sacrifice for us can never be expressed in words. Hence, to acknowledge this precious and unconditional bond, every year Father's Day is celebrated.

Facts about Father's Day:

- The idea of Father's Day was first proposed by Sonora Smart Dodd of the United States whose father, William Jackson Smart, was an American Civil War veteran.
- He raised her and her five siblings after her mother died. Thus, Sonora Dodd became an admirer and the idea of Fathers' Day was proposed.
- The first Father's Day was celebrated on June 19, 1910, in America.
- Later in 1966, President Lyndon B. Johnson issued the first presidential proclamation honouring fathers and declared the **third Sunday of June** as Father's Day.

Father's Day is celebrated with a lot of love in India. Children give cards, gifts, and flowers to their fathers. Some go out to dine and spend the day with their fathers as well. You can decorate your father's room, bake a cake for him, cook their favourite meals, and make him feel special like he is the best dad in the world. Show some love, have a heart-to-heart conversation, and thank him for all the sacrifices he has made for you.

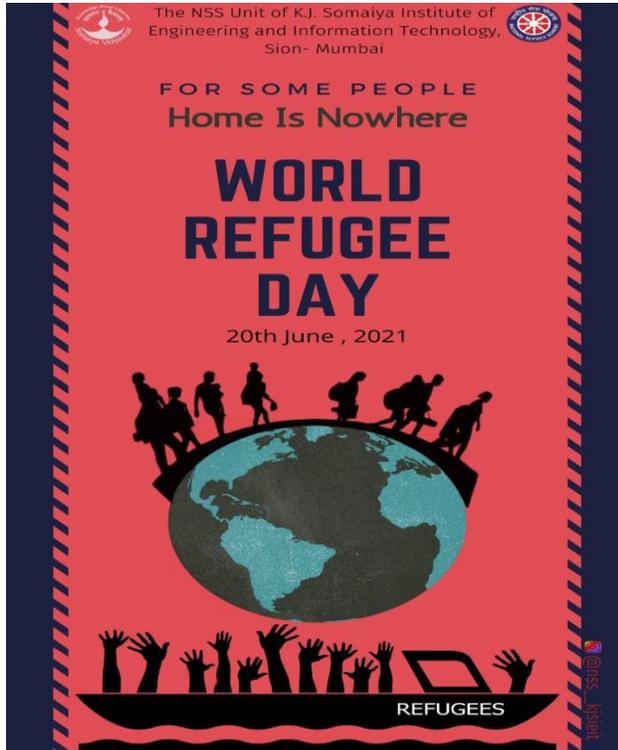

The NSS Unit of KJSIEIT wishes everyone a very happy Father's Day.

## World Refugee Day

Greetings,

**"To be called a refugee is the opposite of an insult; it is a badge of strength, courage, and victory."**

The year 2001 marked the 50th anniversary of the 1951 Convention relating to the Status of Refugees. The UN General Assembly therefore decided that 20 June would be celebrated as World Refugee Day from 2001 onwards .

World Refugee Day honors the strength and courage of refugees and encourages public awareness and support of the refugees, people who have had to flee their home lands because of conflict or natural disaster.

The COVID-19 pandemic and the recent anti-racism protests have shown us how desperately we need to fight for a more inclusive and equal world: a world where no one is left behind. It has never been clearer that all of us have a role to play in order to bring about change. Everyone can make a difference. This is at the heart of UNHCR's World Refugee Day campaign.

World Refugee Day shines a light on the rights, needs and dreams of refugees, helping to mobilize political will and resources so refugees can not only survive but also thrive. While it is important to protect and improve the lives of refugees every single day, international days like World Refugee Day help to focus global attention on the plight of those fleeing conflict or persecution. Many activities held on World Refugee Day create opportunities to support refugees.

The theme for World Refugee Day, 2021 is 'Together we heal, learn and shine' . It celebrates the strength and courage of people who have been forced to flee their home country to escape conflict or persecution. World Refugee Day is an occasion to build empathy and understanding for their plight and to recognize their resilience in rebuilding their lives.

The NSS Unit of KJSIEIT wishes everyone a very happy World Refugee Day.

## World Music Day

Greetings,

***"Music gives a soul to the universe, wings to the mind, flight to the imagination and life to everything." -Plato***

**World Music Day** is celebrated on **June 21** every year to honour the musicians and singers for the gift of music, which gives flight to the imagination and life to everything. A world without music would have no meaning to many and World Music Day is observed to celebrate the power of this art.

Also known as Fête de la Musique, it is celebrated for motivating budding, young and professional musicians to perform. More than 120 countries celebrate World Music Day and organise free public concerts in parks, stadiums and public places. Music lovers organise different musical concerts and events on this special day.

### History of Music Day:

World Music Day was first celebrated in the year 1982 on Solstice in France. The then French Minister of Art and Culture, Jack Lange and Maurice Fleuret, started Fête de la Musique in Paris. Fleuret, who played a crucial role in initiating a day for celebrating music, was a French composer, music journalist, festival organiser and radio producer. And since then, music has become very popular in various countries across the globe.

### **Significance of Music Day:**

The primary aim of celebrating World Music Day is to provide free music to everyone, and also to encourage amateur musicians to showcase their work to the world. Music is beneficial to us, as studies and experts have found that it helps lower stress, helps people sleep better, music therapy is known to do wonders on people with mental health issues, helps one workout and exercise better and with the right kind of music people can even concentrate and focus better.

While World Music Day is all about outdoor and public performances, however this year on account of the coronavirus pandemic, global lockdowns and social distancing, the chances of any public gathering seem highly unlikely. However, several organisations and companies are organising virtual concerts, dances classes and competitions to celebrate World Music Day.

The NSS unit of KJSIEIT wishes everyone a very happy World Music Day.

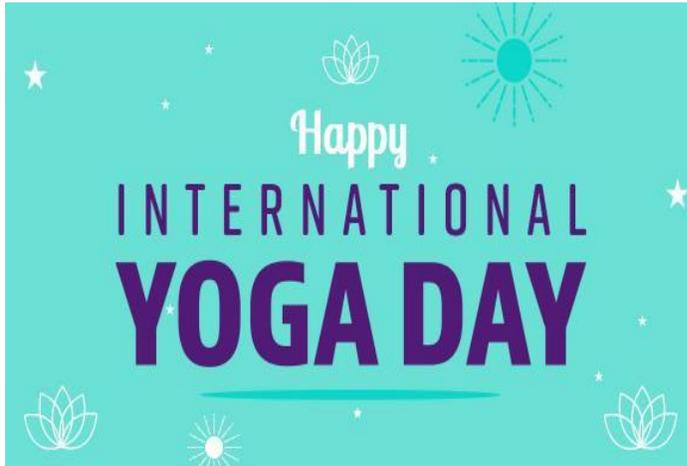

## International Yoga Day

Greetings,

*"Yoga is a light, which once lit, will never dim. The better your practice, the brighter the flame." — B.K.S. Iyengar*

**International Yoga Day** 2021 will be observed on **June 21** this year to highlight the importance of Yoga and the pivotal role it plays in rejuvenating our mind and the body, leading to a healthier lifestyle.

Yoga not only provides physical and mental relaxation but also develops strength and resilience. The numerous benefits of Yoga make it a popular practice for people across the globe, especially in times of a pandemic when mental and physical health is under stress.

### History of International Yoga Day:

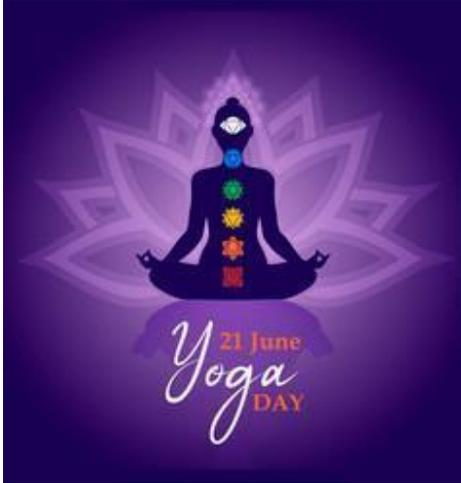

Yoga is believed to have originated in India thousands of years ago and also finds mention in ancient mythological books like the Rig Veda. On 27 September 2014, Prime Minister Narendra Modi, during his speech at the United Nations (UN) General Assembly, proposed the idea of practicing 'Yoga Day'.

In his speech, Modi termed Yoga as an 'invaluable gift of India's ancient tradition' and highlighted the importance of yoga for maintaining 'harmony between man and nature'. The draft resolution passed by India was backed by 177 nations and the first International Yoga Day was celebrated on June 21, 2015.

### Theme for International Yoga Day 2021:

According to the UN website, the theme for International Yoga Day 2021 is 'Yoga for well-being', i.e., how the practice of Yoga can promote the holistic health of every individual. With the COVID-19 pandemic exacerbating psychological suffering and mental health problems, many people have been embracing Yoga to stay healthy and to fight isolation and depression.

Yoga plays an important role in the psycho-social care and rehabilitation of COVID-19 patients in quarantine and isolation. As per the website, the message of Yoga in promoting both the physical and mental well-being of humanity has never been more relevant. The World Health Organization (WHO) has also asked its member states to practice Yoga and has included it in its Global Action Plan for physical activity 2018-30.

### **Significance of Yoga Day:**

Yoga Day is celebrated across the globe to highlight the importance of Yoga and how it has been beneficial in keeping the body and mind in sound health. Considered as a holistic approach and targeting the different systems of the body and the mind, Yoga renews the mind with confidence. It calms the mind and improves concentration and patience. Practicing asanas and pranayama regulates the purification of the internal system of the organs. The energy generated in the body through these physical exercises is then channelled into meditation for peace, stability and calm.

### **Yoga in the times of pandemic:**

During the COVID-19 pandemic, the mental and physical beings of individuals came under dire stress and Yoga came to their rescue. Various media reports suggest that many people after recovering from COVID-19 were left in psychological suffering, depression, and anxiety. Yoga has proved beneficial to those dealing with such mental crises and has been useful in allaying fears.

The NSS unit of KJSIEIT wishes everyone a very happy International Yoga Day.

## United Nations Public Service Day

Greetings,

"The best way to find yourself is to lose yourself in the service of others." -Mahatma Gandhi

On 20 December 2002, the General Assembly designated 23 June as UN Public Service Day by adopting resolution 57/277.

UN Public Service Day celebrates the value and virtue of public service to the community; highlights the contribution of public service in the development process; recognizes the work of public servants, and encourages young people to pursue careers in the public sector.

23rd June, 2021

## United Nations Public Service Day

To bolster recognition of the Day and the value of public service, the United Nations established the UN Public Service Awards (UNPSA) programme in 2003, which was reviewed in 2016 to align with the 2030 Agenda for Sustainable Development. The UNPSA aims to promote and reward innovation and excellence in public services by recognizing the creative achievements and contributions of public institutions that lead to a more effective and responsive public administration in countries worldwide in support of sustainable development.

Technology and data driven innovations have increased the pace of our daily life, opened up information and elevated civil society voices and changed how we solve problems, design policy and deliver services. The 2020 Covid-19 pandemic was a force multiplier to these trends, introducing remote work in government, digital service delivery, virtual service teams, and even new portfolios.

Today, every country in the world needs to re-think the structure and operating model of its civil service. The future public service needs to be more agile, tech-savvy, data-driven, and human-centric. These are core elements to build future readiness, ensure inclusive policies and responsive services, to reduce inequalities and to raise trust in government.

To celebrate the 2021 United Nations Public Service Day, the Division of Public Institutions and Digital Government of the United Nations Department of Economic and Social Affairs, in collaboration with the government of the United Arab Emirates will host a 1.5-hour virtual event on the 23 June under the theme of “Innovating the Future Public Service: New Government Models for a New Era to Reach the SDGs”. The event will bring together key stakeholders, public servants and UN officials to honor the work of public servants.

The NSS unit of KJSIEIT wishes everyone happy United Nations Public Service Day.

## International Olympic Day

Greetings,

**International Olympics Day** is observed on **June 23** every year to celebrate sports and health. The occasion marks the day when the International Olympic Committee was founded in 1894. The day aims at promoting sports and spreads the message of making sports an integral part of life. The creation of the modern-day Olympic Games is inspired by the ancient Olympic Games held in Olympia, Greece, from the 8th century BC to the 4th century AD. Baron Pierre de Coubertin founded the International Olympic Committee (IOC) in 1894 and laid the foundation of the Olympic Games.

# International Olympic Day

### International Olympic Day 2021: History

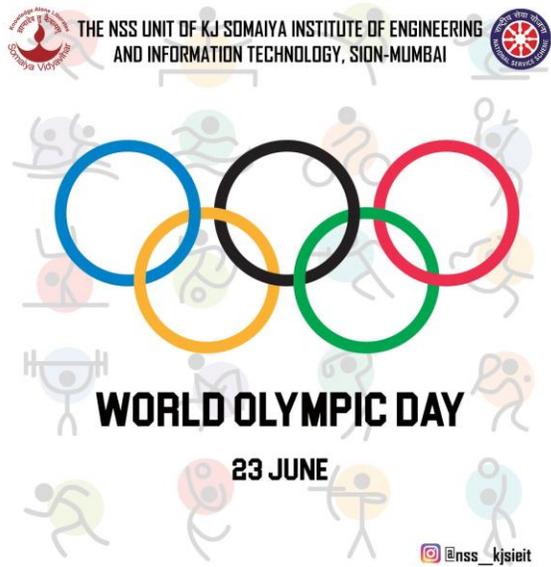

In 1947, Doctor Gruss, an International Olympic Committee member in Czechoslovakia, presented a report in the 41st Session of the International Olympic Committee in Stockholm and proposed to observe a day to celebrate Olympic Day. One year later in 1948, the organizing committee finally decided June 23 as the International Olympic Day to honour the International Olympic Committee's foundation at the Sorbonne, Paris.

The first Olympic Day was celebrated in 1948. The day was proposed to promote the Olympic idea and encourage more and more participation in the games.

### World Olympic Day 2021: Significance & Theme

The day is celebrated to encourage more people to participate in the Olympic Games and spread awareness about the event and promote the Olympic Movement. Based on the three pillars – “move”, “learn” and “discover” – the National Olympic Committees are deploying sports, cultural and educational activities to encourage participation regardless of age, gender, social background, or sporting ability. In some countries, the event is incorporated into the school curriculum, while many NOCs have included concerts and exhibitions as a part of the Olympic day in recent years. Recent NOC activities also

included meetings for children and young people with top athletes making it easier for people to become part of Olympic Day. The theme for this year is Stay healthy, stay strong, stay active with the #OlympicDay workout on 23 June.

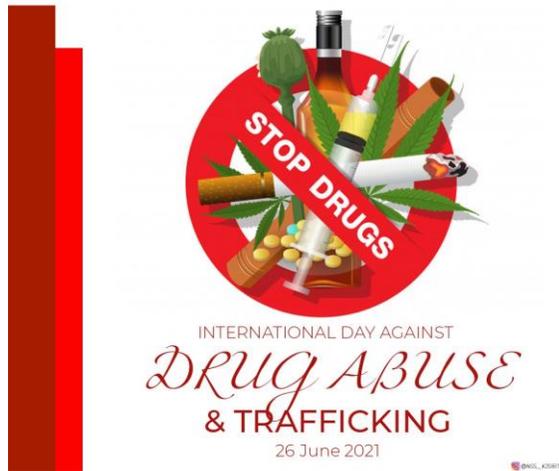

The NSS unit of KJSIEIT wishes everyone to celebrate International Olympic Day.

## International Day Against Drug Abuse and Illicit Trafficking

Greetings,  
“The world breaks everyone and afterward many are strong at the broken places.” ~ Ernest Hemingway

By resolution 42/112 of 7 December 1987, the General Assembly decided to observe 26 June as the International Day against Drug Abuse and Illicit Trafficking as an expression of its determination to strengthen action and cooperation to achieve the goal of an international society free of drug abuse. Supported each year by individuals, communities, and various organizations all over the world, this global observance aims to raise awareness of the major problem that illicit drugs represent to society.

The campaign highlights key statistics and data drawn from UNODC’s yearly World Drug Report. Thus, providing facts and practical solutions to the current world drug problem, to attain a vision of health for all based on science.

COVID-19 has brought unprecedented public awareness on health, protective measures for staying healthy, and most importantly, on protecting each other. A growing sense of global community and solidarity continues to emerge, as does the need to ensure health care for all.

World Drug Day is a day to share research findings, evidence-based data and life-saving facts, to continue tapping into a shared spirit of solidarity. The campaign invites everyone to do their part, by taking a firm stance against misinformation and unreliable sources; while committing to sharing only the real science-backed data on drugs and saving lives.

THE NSS UNIT OF KJ SOMAIYA INSTITUTE OF  
ENGINEERING AND INFORMATION TECHNOLOGY,  
SION-MUMBAI

## INTERNATIONAL DAY AGAINST DRUG ABUSE AND ILLICIT TRAFFICKING

26<sup>th</sup> June 2021

### Theme for 2021 : “Share Facts On Drugs, Save Lives”

The International Day against Drug Abuse and Illicit Trafficking, or World Drug Day, is marked on 26 June every year, to strengthen action and cooperation in achieving the goal of a world free of drug abuse. And each year, individuals like ourselves, entire communities, and various organizations all over the world join in on this global observance, to raise awareness of the major problem that illicit drugs represent for society. Together, we can tackle the world drug problem!

The NSS unit of KJSIEIT wishes everyone a very happy International Day against Drug Abuse and Illicit Trafficking.

## World Asteroid Day

Greetings,

**“The idea is to raise awareness of not only the dangers of asteroids, but also the fact that we have solutions in hand to find dangerous asteroids and do something....” -Tom Jones**

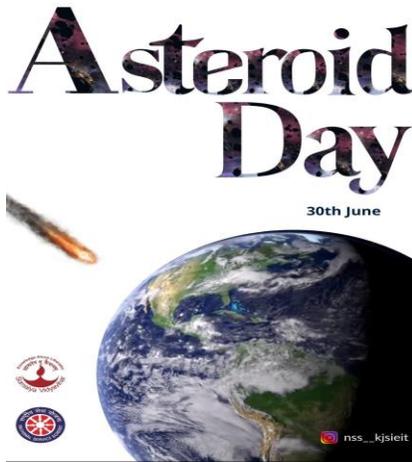

**Asteroid Day** (also known as International Asteroid Day) is an annual global event which is held on the anniversary of the Siberian Tunguska event that took place on **June 30, 1908**, the most harmful known asteroid-related event on Earth in recent history. The United Nations has proclaimed it to be observed globally on **June 30** every year in its resolution. Asteroid Day aims to raise awareness about asteroids and what can be done to protect the Earth, its families, communities, and future generations from a catastrophic event.

The workgroup of Asteroid Day created a declaration called "100X Declaration", which appeals to all scientists and technologists who are supporting the idea of saving the earth from asteroids, but not only specialists are asked to sign, everyone can sign this declaration. Today, the 100X Declaration has been signed by more than 22,000 private citizens.

More than 1M asteroids have the potential to impact Earth and through all the available telescopes worldwide, we have discovered only about one percent. The 100X Declaration calls for increasing the asteroid discovery rate to 100,000 (or 100x) per year within the next 10 years. “The more we learn about asteroid impacts, the clearer it becomes that the human race has been living on borrowed time,” remarked Brian May. “Asteroid Day and the 100X Declaration are ways for the public to contribute to an awareness of the Earth’s vulnerability and the realization that Asteroids hit Earth all the time.” Asteroid Day is a vehicle to garner public support to increase our knowledge of when asteroids might strike and how we can protect ourselves.”

The NSS UNIT of K. J. Somaiya Institute  
of Engineering and I.T. Mumbai – Sion

International Asteroid Day aims to raise public awareness about the asteroid impact hazard and to inform the public about the crisis communication actions to be taken at the global level in case of a credible near-Earth object threat.

The NSS unit of KJSIEIT wishes a very Happy World Asteroid Day to everyone. Let us celebrate this day by making everyone aware of the threats of asteroids our planet faces.

Astrophysics and Space Science Proceedings, vol 46. Springer, Cham

National Doctor's Day has been celebrated for years by the government and non-government healthcare organizations. In order to get familiar with the doctor's contributions, consultation workshops, free medical checkup camps, and general screening test camps are organised across the country. Activities are also organised at the school and college level so as to encourage young students to take up medical profession. Patients greet their doctors by distributing greeting cards, gifts, bouquets, etc. Doctors are among the Covid-19 warriors who fight at the forefront to curb the pandemic situation and we all should appreciate their efforts and dedicate this day to the fallen Covid-19 medical personnel who risked their lives for their country.

The NSS unit of KJSIEIT wishes everyone a very Happy National Doctors' Day.

## International Plastic Bag Free Day

Greetings,

**"Nature is for everyone's needs but not for anyone's greed. So discard plastics from the environment."**

Every year on **3rd July** we observe **International Plastic Bag Free Day** which is dedicated to raising awareness about the very real and pressing issues of plastic pollution. Every day, we learn more about how plastic is affecting this planet and how conglomerates are cutting down on plastic. But as an individual, you need to do your part too. We need to think it through when using plastic bags in regard to what it does to our environment and how it will wreak havoc in the coming years. Plastic bags remain in the world for anywhere from 100-500 years before finally decaying completely. It is imperative that we collectively take action.

### International Plastic bag Free Day

3rd July, 2021

 @nss\_kjsieit

Plastic pollution is a global catastrophe and sadly it is a man-made one. Did you know that approximately 500 billion plastic bags are used on a global scale? Just think about how many of these bags will end up littered all over the planet. This is having an extremely detrimental effect on the environment, wildlife and indeed human health.

Most of us use them every day, the thin plastic bags used by almost every retailer we visit. Whether we're shopping for groceries or the newest Prada, you can almost guarantee that you'll be leaving the store with a plastic bag stuffed full of your new goodies.

The marine ecosystem in particular is suffering immensely as a result of plastic pollution. 31 species of marine mammals are known to have ingested marine plastic whilst over 100 species of sea birds have ingested plastic artefacts. Over 250 species have become entangled in plastic, whilst entanglement rates of approximately eight percent have been discovered in some sea lion and seal species.

#### **International Plastic Bag Free Day's Significance:**

There are a lot of good ways to celebrate, and the easiest requires a simple resolution on your part. The simplest thing you can do is choose paper or cloth over plastic, or even better bring your own bags to retailers to pick up goods. If you own a business yourself, initiate a program to encourage your customers to bring in their own reusable bags, and stop offering plastic bags.

There are other steps you can take to honor this important date. This includes going one step further and recycling all of the plastic you have in your home and office. Don't only focus on plastic bags. You can also volunteer your money or your time at an environmental organization or charity that is focused on cleaning landmasses and water of plastic bags. There are a lot of great groups out there that are doing amazing work, but they need help, and we are sure they would greatly appreciate any type of assistance that you can give them.

The NSS unit of KJSIEIT wishes everyone on No Plastic Day and hopes that we can make the world a better place by taking a step towards reducing the use of plastic in our day to day life.

# World Population Day

Greetings,

**"To save the world, to protect tomorrow, we have to control the population today."**

World Population Day is an annual event, observed on July 11 every year, which seeks to raise awareness of global population issues. The event was established by the Governing Council of the United Nations Development Programme in 1989. It was inspired by the public interest in Five Billion Day on July 11, 1987, the approximate date on which the world's population reached five billion people. World Population Day aims to increase people's awareness on various population issues such as the importance of family planning, gender equality, poverty, maternal health and human rights.

This year, the theme of World Population Day 2021 is **'the impact of the COVID-19 pandemic on fertility'**. It will be observed to draw focus on the importance of sexual and reproductive health, which is deeply affected by the Covid-19 pandemic.

The pandemic has compromised health care systems particularly in the area of sexual and reproductive health. It also exposed and exacerbated gender-based inequities: gender-based violence increased under lockdown, as did the risk of child marriage and female genital mutilation as programmes to abolish the harmful practices were disrupted. Significant numbers of women left the labour force – their often low-paying jobs were eliminated or caregiving responsibilities for children learning remotely or for homebound older people increased – destabilizing their finances, not just for now but in the long run.

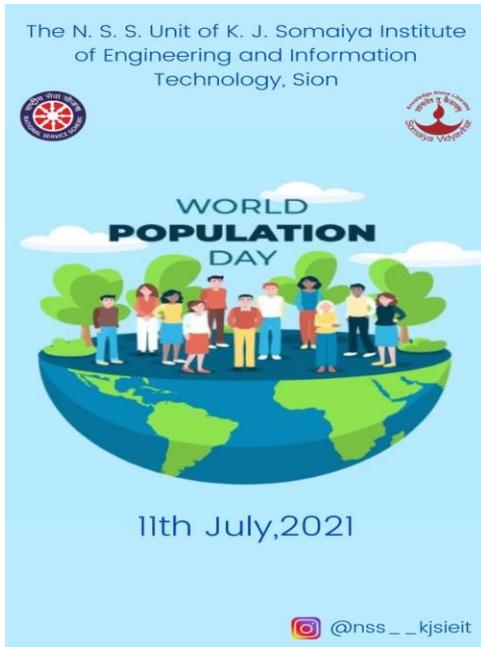

Against this backdrop, many countries are expressing growing concern over changing fertility rates. Historically, alarmism over fertility rates has led to abrogations of human rights.

## World Population Day significance:

It took hundreds of thousands of years for the world population to grow to 1 billion – then in just another 200 years or so, it grew sevenfold. In 2011, the global population reached the 7 billion mark, and today, it stands at about 7.7 billion, and it's expected to grow to around 8.5 billion in 2030, 9.7 billion in 2050, and 10.9 billion in 2100. This dramatic growth has been driven largely by increasing numbers of people surviving to reproductive age, and has been accompanied by major changes in fertility rates, increasing

urbanization and accelerating migration. These trends will have far-reaching implications for generations to come.

The recent past has seen enormous changes in fertility rates and life expectancy. In the early 1970s, women had on average 4.5 children each; by 2015, total fertility for the world had fallen to below 2.5 children per woman. Meanwhile, average global life spans have risen, from 64.6 years in the early 1990s to 72.6 years in 2019. In addition, the world is seeing high levels of urbanization and accelerating migration. 2007 was the first year in which more people lived in urban areas than in rural areas, and by 2050 about 66 per cent of the world population will be living in cities.

These megatrends have far-reaching implications. They affect economic development, employment, income distribution, poverty and social protections. They also affect efforts to ensure universal access to health care, education, housing, sanitation, water, food and energy. To more sustainably address the needs of individuals, policymakers must understand how many people are living on the planet, where they are, how old they are, and how many people will come after them.

It is really important to spread awareness about population issues. The NSS unit of KJSIEIT wishes everyone happy World Population Day and hope that we can make the world a better place by taking a step towards controlling the population.

## International Justice Day

Greetings,

**"Truth never damages a cause that is just" - Mahatma Gandhi**

World Day for International Justice, also referred to as Day of International Criminal Justice or International Justice Day, is an international day celebrated throughout the world on July 17 as part of an effort to recognize the emerging system of international criminal justice. July 17 is the date of the adoption of the treaty that created the International Criminal Court. On 1 June 2010, at the Review Conference of the Rome Statute held in Kampala (Uganda), the Assembly of State Parties decided to celebrate 17 July as the Day of International Criminal Justice, which seeks to protect people from genocide, crimes against humanity, war crimes and the crime of aggression.

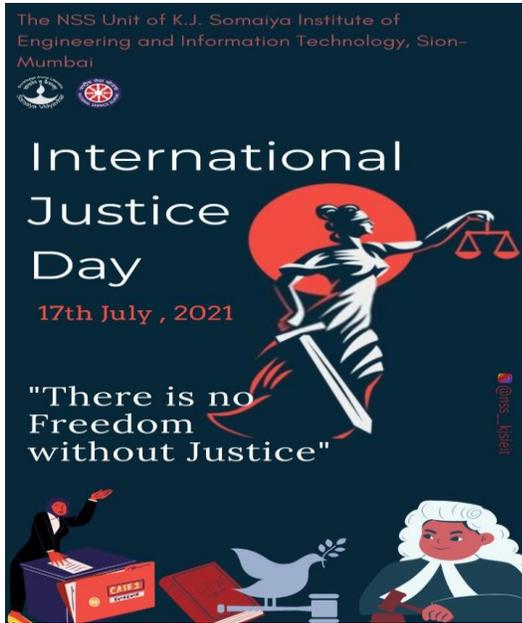

It unites all those who wish to support justice, promote victims' rights, and help prevent crimes that threaten the peace, security and well-being of the world.

The day is a reminder of the urgency for all states committed to justice around the world to ensure continued support for the international justice system. It demonstrates the crucial role of civil society members in ensuring that ICC member states live up to their obligations.

Coalition members all over the world hold celebrations to embrace this day in solidarity with victims of grave crimes everywhere.

The establishment of International Criminal Court (ICC) is viewed as a historic moment for peace and the rule of law. It is the first permanent and independent international judicial institution capable of trying individuals accused of serious violations of international humanitarian and human rights. The ICC does not replace national courts, but it is available when a country can't or won't carry out investigations or prosecute perpetrators.

Over 139 countries have signed the Court's treaty. Nearly 80 states, representative of every region of the world, have ratified it.

The day reminds us to highlight the importance of the International Criminal Court and the work it does to bring about justice for victims. It calls on all countries to join the fight against impunity, so that perpetrators of crimes are punished, and to help prevent future occurrences. This day also attracts people around the world to pay attention to serious issues and warn those people who affect peace, security, and well-being of nations at risk.

Every year, on July 17, various events around the world are organized to promote and support the ICC. The NSS unit of KJSIEIT wishes everyone on International Justice Day and hopes that we can bring peace, security and well-being in the society.

## Nelson Mandela Day

Greetings,

**“It is easy to break down and destroy. The heroes are those who make peace and build.” ~ Nelson Mandela**

Nelson Rolihlahla Mandela was a South African anti-apartheid revolutionary, statesman and philanthropist who served as President of South Africa from 1994 to 1999 who was also awarded The Nobel Peace Prize in (1993). He was the country's first black head of state and the first elected in a fully representative democratic election. His government focused on dismantling the legacy of apartheid by tackling institutionalised racism and fostering racial reconciliation.

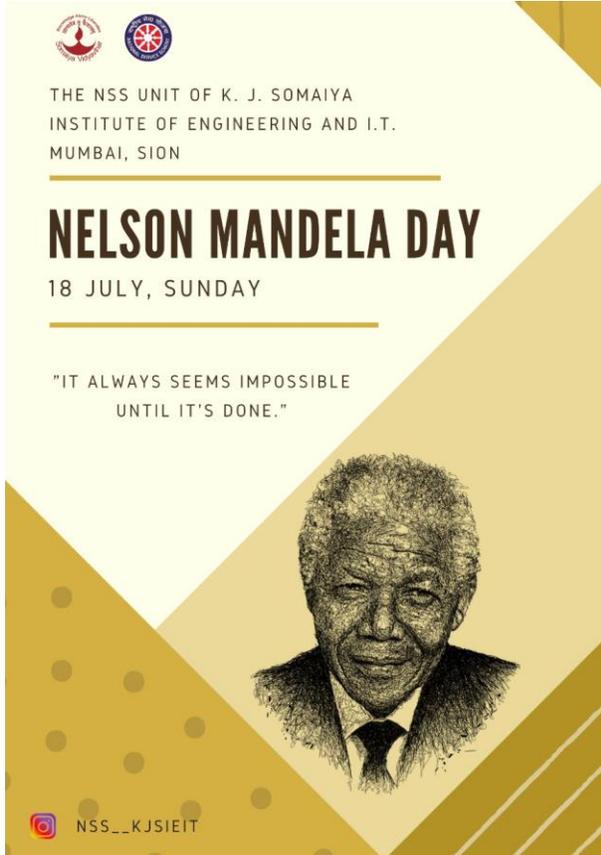

## NELSON MANDELA DAY

18 JULY, SUNDAY

**Nelson Mandela International Day** (or Mandela Day) is an annual international day in honour of Nelson Mandela, celebrated each year on **18 July**, Mandela's birthday. The day was officially declared by the United Nations in November 2009, with the first UN Mandela Day held on 18 July 2010. However, other groups began celebrating Mandela Day on 18 July 2009. Mandela Day is not meant as a public holiday, but as a day to honour the legacy of Nelson Mandela, South Africa's former President, and his values, through volunteering and community service.

Mandela Day is a global call to action that celebrates the idea that each individual has the power to transform the world, the ability to make an impact. In November 2009, the United Nations General Assembly formally declared 18 July to be "International Nelson Mandela Day".

In 2014, the UN General Assembly established the Nelson Mandela Prize, a quinquennial award recognizing the achievements of those who dedicated their lives to the service of humanity.

The NSS unit of KJSIEIT wishes everyone happy International Nelson Mandela day.

# International Chess Day

Greetings,

Chess is a game of strategy and wits. It has long been considered to be the thinking game. It is a wonderful game to play anytime, anywhere, and with almost everyone. **International Chess Day** is celebrated on **20 July** annually.

Chess is one of the ancient games with a combination of sport, scientific thinking, and elements of arts. As we know that sports have helped humanity to survive in times of crisis by improving mental health and reducing anxieties.

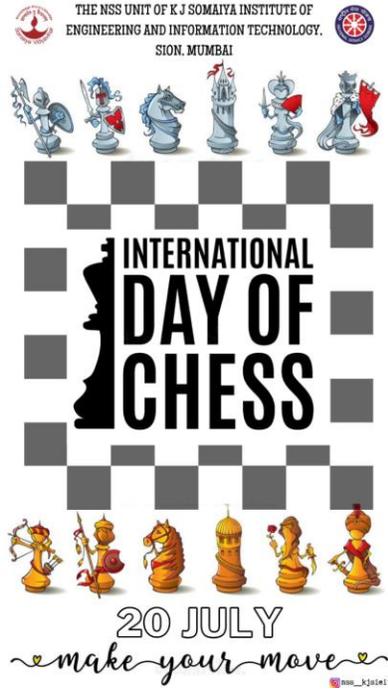

@nss\_kjsiet

## International Chess Day: History

Chess was invented in the Northern Indian Subcontinent during the Gupta period (319 – 543 CE). At that time it was named "Chaturanga". No doubt this is one of the oldest games of the era. Then this game spread to Persia. When Persia was conquered by the Arabs, Chess became an important part of the life of the Muslim population and from there it spread to Southern Europe. In Europe, Chess evolved in its current form. And later on, it takes the shape of the modern game

Now the game has become more popular. Various Chess tournaments are held with exciting new variations. Further, the timing mechanism was also introduced in the game in 1861 with effective rules and charismatic players. In the eighth Summer Olympic Games in Paris, France on 20 July, 1924, FIDE the World Chess Foundation, was established. And from 20 July, 1966, International Chess Day started to honour the founding of FIDE. To celebrate International Chess Day on 20 July was proposed by UNESCO. All over the World now Chess tournaments are held. In 1851 in London, the first modern chess tournament was held and it was won by German Adolf Anderssen.

The General Assembly proclaimed 20 July as World Chess Day on 12 December 2019, to mark the date of the establishment of the International Chess Federation (FIDE) in Paris in 1924. Under the initiative of FIDE, 20 July has been observed as International Chess Day by chess players around the world since 1966.

No doubt, this day celebrates the long history of chess and the role it played in societies. Chess has broken several barriers whether class, language and culture. It is just simply two people sitting down to play one of the most mentally challenging games in the world. Today, almost every city has one or more chess clubs, to boost the game, fans, and admirers of this peaceful sport.

The NSS unit of KJSIEIT wishes everyone Happy International Chess Day.

# National Broadcasting Day

Greetings,

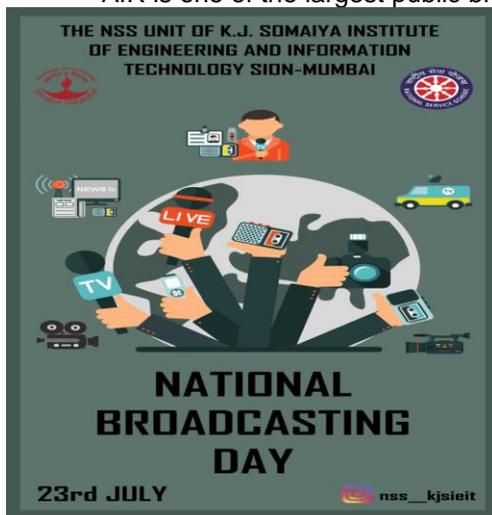

Every year **July 23** is observed as **National Broadcasting day**. On this day in 1927, Indian Broadcasting Company (IBC) began organized radio broadcasting from Bombay station.

To mark the occasion, All India Radio (AIR) had organized a symposium on the subject *Creation of New India and Broadcasting Medium* in New Delhi.

## History of National Broadcasting Day:

- The first radio broadcast was made on July 23, 1927, from Bombay Station. The station was then owned by a private company called the Indian Broadcasting Company.
- The Government took over the broadcasting on April 1, 1930, and renamed it as Indian State Broadcasting Service (ISBS).
- It was initially on an experimental basis. Later it permanently came under government control in 1932.
- On 8th of June, 1936, the Indian State Broadcasting Service became All India Radio. Currently, AIR is one of the largest public broadcasting organisations in the world.

The day is celebrated every year to commemorate the first and last visit of the Father of the Nation, Mahatma Gandhi to the studio of All India Radio, Delhi in 1947. The Father of the Nation addressed the displaced people, who had temporarily settled at Kurukshetra in Haryana after partition.

The NSS unit of KJSIEIT wishes everyone Happy National Broadcasting Day.

## Guru Purnima

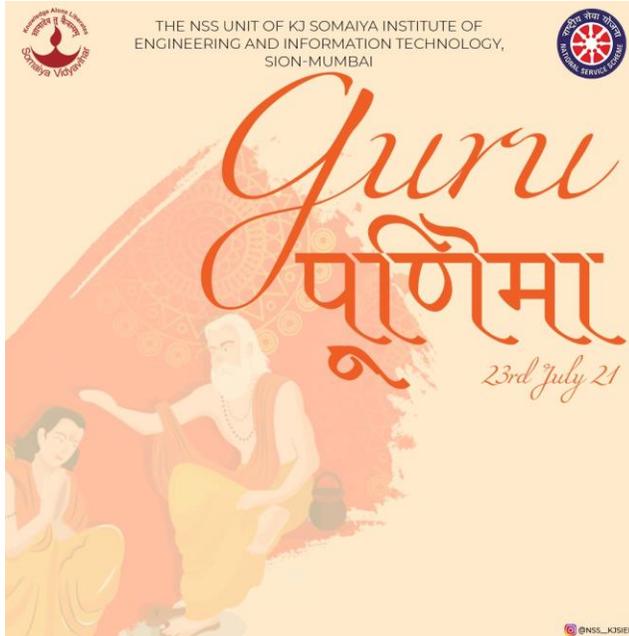

Greetings,

The celebration of **Guru Purnima** is marked by spiritual activities and may include a ritualistic event in honor of the Guru; that is, the teachers which is called *Guru Pooja*.

The word Guru is derived from two words, *gu* and *ru*. The Sanskrit root *gu* means darkness or ignorance, and *ru* denotes the remover of that darkness. Therefore, a Guru is one who removes the darkness of our ignorance. Gurus are believed by many to be the most necessary part of life. On this day, disciples offer pooja (worship) or pay respect to their Guru (spiritual guide). In addition to having religious importance, this festival has great importance for Indian academics and scholars. Indian academics celebrate this day by thanking their teachers as well as remembering past teachers and scholars.

This was the day when Krishna-Dwaipayana Vyasa – author of the Mahabharata – was born to sage Parashara and a fisherman's daughter Satyawati; thus this day is also celebrated as *Vyasa Purnima*. Veda Vyasa did yeoman service to the cause of Vedic studies by gathering all the Vedic hymns extant during his times, dividing them into four parts based on their use in the rites, characteristics and teaching them to his four chief disciples – Paila, Vaisampayana, Jaimini and Sumantu. It was this dividing and editing that earned him the honorific "Vyasa" (vyas = to edit, to divide). "He divided the Holy Veda into four, namely Rig, Yajur, Sama and Atharva. The histories and the Puranas are said to be the fifth Veda."

Irrespective of their religions, Indian academics celebrate this day by thanking their teachers. Many schools, colleges and universities have events in which students thank their teachers and remember past scholars. Alumni visit their teachers and present gifts as a gesture of gratitude. Students may arrange different art-competitions accordingly. The main tradition among guru-shishya is blessings (i.e. student greet his/her guru) by reciting a poetry or quote and the guru gives blessings for the success and happiness of an individual. In India, Hindu disciples often worship their spiritual teacher (or his idol) on the day of Guru Purnima.

The NSS unit of KJSIEIT wishes everyone a happy Guru Purnima.

## Kargil Vijay Diwas

Greetings,

**"TOUGH TIMES DON'T LAST, TOUGH MEN DO"**

The Kargil War is also known as the Kargil conflict. It was fought between May-July of 1999 in the Kargil district of Jammu and Kashmir along the Line of Control (LoC) in which India got the victory. Therefore, the day is dedicated to the martyred soldiers of the Kargil war.

This is the day to pay homage to the Kargil martyrs and to remember the supreme sacrifice made by our brave soldiers, to uphold and safeguard the integrity of the nation.

Kargil war took place in the Kargil District of Jammu and Kashmir, along the Line of Control (LoC). Pakistan's army sent its soldiers in the name of intruders in the winters to take over the area. Their main objective was to cut the connections between Ladakh and Kashmir and to create tensions at the Indian border. Let us tell you that the intruders at that time were on the top whereas the Indians were on the downhill and so it was easy for them to attack. Finally, the war broke out between the two sides. Pakistani soldiers crossed the Line of Control that is LOC and entered the India-controlled area.

On **3rd May 1999** Pakistan started this war when it had infiltrated into the high altitudes in the rocky mountainous region of Kargil with around **5000** soldiers and captured it. When the Indian Government got the information about it '**Operation Vijay**' was launched by the Indian army to throw back the intruders who had treacherously occupied Indian Territory.

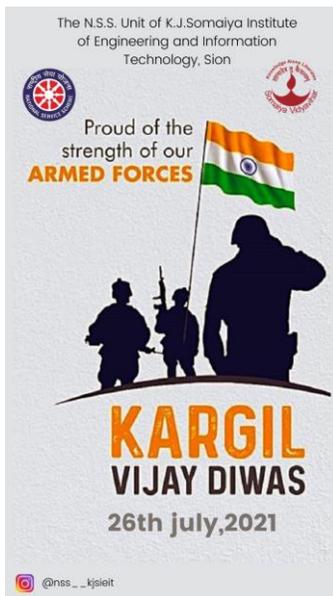

**Do you know the scenario before the Kargil War?** In 1998-1999 during the winters, the Pakistani Army secretly started training and sending troops near Kargil to dominate the region with the goal of claiming Siachen Glacier. Further, the Pakistan Army exclaimed that they were not the Pakistani soldiers but the Mujahideen. Actually, Pakistan wanted international attention on the dispute so that pressure could be generated on the Indian army to withdraw its army from the Siachen Glacier region and force India to negotiate for the Kashmir dispute.

**The story behind the war:** After the Indo-Pak war of 1971 there have been many military conflicts. Both the countries conducted nuclear tests in 1998 which had further escalated tensions. To calm the situation in February 1999, the two countries signed The Lahore Declaration, promising to provide a peaceful and bilateral solution to the Kashmir conflict.

But what happened was that Pakistani Armed Forces started sending its soldiers and paramilitary forces across the Line of Control into the territory on the Indian side and the infiltration was code-named "Operation Badr." Its main objective was to break the link between Kashmir and Ladakh and to withdraw the Indian Army from the Siachen Glacier. At the same time, Pakistan believed that creating any kind of tension in this area would help in making the Kashmir issue an international issue, helping it to secure a speedy resolution.

The IAF, for ground attack, used planes MiG-21s, MiG-23s, MiG-27s, Jaguars, and the Mirage-2000. Mainly, for air interception with a secondary role of ground attack, MiG-21 was built. To attack the targets on the ground, MiG-23s and 27s were optimised. Several targets of Pakistan were attacked. Therefore, IAF's MiG-21s and Mirage 2000 were extensively used in **Operation Safed Sagar** during this war.

A large number of rockets and bombs were used in this war. About two lakh fifty thousand shells, bombs, and rockets were fired. Approximately 5,000 artillery shells, mortar bombs, and rockets were fired daily from 300 guns, mortars, and MBRLs while 9,000 shells were fired the day Tiger Hill was regained. It is said that this was the only war after World War II in which such a large number of bombardments were carried out on the enemy army. Finally, India won a determined victory.

It would not be wrong to say that the War was never good. This causes a major loss on both sides, thousands of soldiers get martyred. India is a peace-loving country that does not believe in war. Indian army always safeguards the nation from alien forces, sacrifices for the Motherland, and makes us proud.

*"Quartered in snow, silent to remain. When the bugle calls, they shall rise and march again."* – The scroll of honour at the Siachen base camp

The NSS Unit of KJSIEIT wishes everyone a happy and proud Kargil Vijay Diwas.

## World Hepatitis Day

Greetings,

**July 28 is World Hepatitis Day**, marking a day where community organisations, clinicians, researchers, and governments raise awareness to the global burden of viral hepatitis.

## World Hepatitis Day

28th July, 2021

 @NSS\_KJSIEIT

This year's theme is **"Hepatitis Can't Wait"**. With a person dying every 30 seconds from a hepatitis related illness – even in the current COVID-19 crisis – we can't wait to act on viral hepatitis. There are five main strains of the hepatitis virus – A, B, C, D and E. Together, hepatitis B and C are the most common which result in 1.1 million deaths and 3 million new infections per year.

World Hepatitis Day is recognized annually on July 28th, the birthday of Dr. Baruch Blumberg (1925–2011). Dr. Blumberg discovered the hepatitis B virus in 1967, and 2 years later he developed the first hepatitis B vaccine. These achievements culminated in Dr. Blumberg winning the Nobel Prize in Physiology or Medicine in 1976.

Globally, most people who need treatment have not been treated, largely due to a lack of awareness, and access to hepatitis treatment services. Over 90% of people with hepatitis C can be completely cured of the virus within 3–6 months. Appropriate treatment of hepatitis B and C can prevent the development of the major life-threatening complications of chronic liver disease: cirrhosis and liver cancer.

The NSS unit of KJSIEIT wishes everyone a safe World Hepatitis Day.

# International Friendship Day

Greetings,

**"A true friend is someone who gives you all the freedom to be yourself. It's hard to find true friendship in life but it's the sweetest thing that can ever happen in your life."**

Friendship is one of the most blissful relationships a person shares with another person; the association works as a strength developer in an individual's life. The thing about friendship that sets it apart from all other relationships is that it is pure and divine, and surpasses barriers of race, color, caste and creed.

Friendship plays a vital role, as the remarkable bond brings delight and sustenance in life, in the form of hope, happiness, and abundance. Though friendships cannot be summarized or celebrated by a day's observance, it is impetus enough to reach out to a pal with whom you may not have spoken in a long time, only to relive and rekindle the love and attachment.

The day is celebrated by friends exchanging greeting cards and gifts, spending quality time with their best friends, some even make friendship bands and tie it on their friends' wrists on this day as an act of

affirmation and simply put in extra efforts to make their friends feel special or take extra care of their friends in their love languages.

The NSS unit of KJSIEIT wishes everyone a Happy International Friendship Day.

# Hiroshima Day

Greetings,

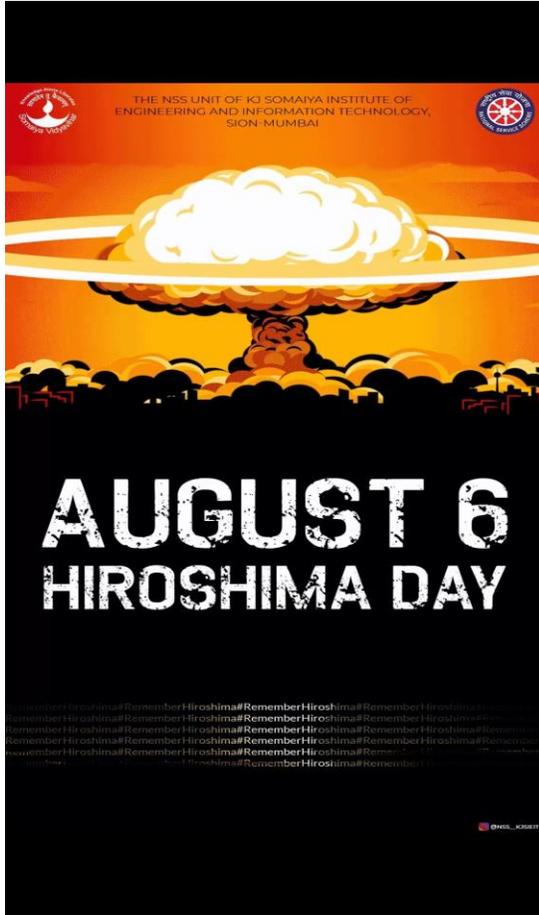

**“You are only given One life, So cherish this moment, Cherish this day, Be kind to others, Be kind to yourself.” ~Yasujiro Tanaka(Atomic Bomb Survivor).**

On 6 August, a Little Boy was dropped on Hiroshima, to which Prime Minister Suzuki reiterated the Japanese government's commitment to ignore the Allies' demands and fight on. Over the next two to four months, the effects of the atomic bombings killed between 90,000 and 146,000 people in Hiroshima.

## Hiroshima Day: Significance

Hiroshima Day 2021 will commemorate, like every year, the 1945 tragedy which completely destroyed the two cities and left the country to deal with a dreadful fate even in its aftermath. It reminds the world that all wars are terrible, and nuclear warfare even more so. It reminds thousands of politicians, diplomats, and envoys around the world that diplomacy is the only option while navigating geopolitics in the 21st century because only nine countries in the entire world currently possess more than 13,000 nuclear weapons.

The NSS unit of KJSIEIT makes a heartfelt affection towards the family who lost their loved ones to the unfortunate incident.

# National Handloom Day

Greetings,

***“The handloom weaving is in a dying condition. Everyone admits that whatever may be the future of the mill industry, the handlooms ought not to be allowed to perish.” - Mahatma Gandhi***

Prime Minister Narendra Modi inaugurated the first **National Handloom Day** at the University of Madras' Centenary Hall in Chennai, on **7 August** 2015. August 7 was selected as the National Handloom Day to commemorate the Swadeshi Movement that was launched in Calcutta Town Hall on this day in 1905 to protest against the British Government's partition of Bengal. The movement aimed at reviving the production processes and domestic goods.

Most importantly, handlooms are environmentally friendly, and a viable way to make a living. The handloom sector provides 4.33 million people with jobs and is the second-largest source of employment in rural India. Around 95% of the world's handwoven fabric comes from India.

On National Handloom Day, we salute all those associated with our vibrant handloom and handicrafts sector. They have made commendable efforts to preserve the indigenous crafts of our nation. Let us all be #Vocal4Handmade and strengthen efforts towards an AtmaNirbhar Bharat.

The NSS unit of KJSIEIT wishes everyone a warm and fluffy National Handloom Day.

# Quit India Movement

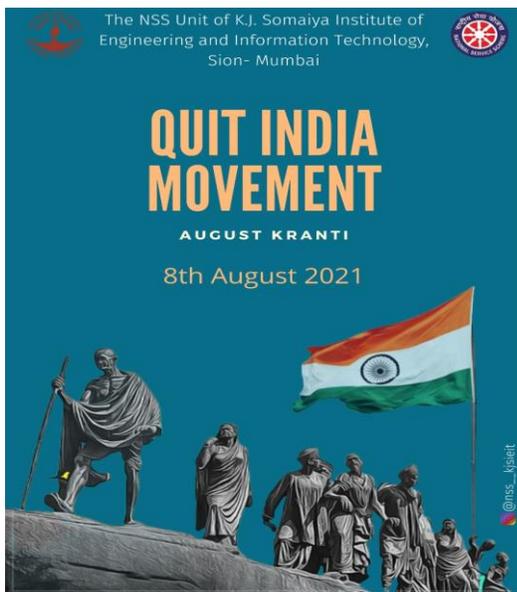

Greetings,

**“Freedom is not worth having if it does not include the freedom to make mistakes.” - Mahatma Gandhi.**

On **8 August 1942** at the All-India Congress Committee session in Bombay, Mohandas Karamchand Gandhi launched the **'Quit India'** movement. The next day, Gandhi, Nehru and many other leaders of the Indian National Congress were arrested by the British Government. Disorderly and non-violent demonstrations took place throughout the country in the following days.

The 'Quit India' movement, more than anything, united the Indian people against British rule. Although most demonstrations had been suppressed by 1944, upon his release in 1944 Gandhi continued his resistance and went on a 21-day fast. By the end of the Second World War, Britain's place in the world had changed dramatically and the demand for independence could no longer be ignored.

The NSS Unit of KJSIEIT wishes everyone a delighted sense of patriotism on the 79th anniversary of the Quit India Movement.

# International Day of the World's Indigenous People

Greetings,

The **International Day of the World's Indigenous People** is observed on **9 August** each year to raise awareness and protect the rights of the world's indigenous population. This event also recognizes the achievements and contributions that indigenous people make to improve world issues such as environmental protection.

The International Day of the World's Indigenous Peoples was first pronounced by the General Assembly of the United Nations in December 1994, to be celebrated every year during the first International Decade of the World's Indigenous Peoples (1995–2004). In 2004, the Assembly proclaimed a Second International Decade, from 2005–2015, with the theme of "A Decade for Action and Dignity". People from different nations are encouraged to participate in observing the day to spread the UN's message on indigenous peoples. Activities may include educational forums and classroom activities to gain an appreciation and a better understanding of indigenous peoples.

The date marks the day of the first meeting, in 1982, of the UN Working Group on Indigenous Populations of the Sub-Commission on the Promotion and Protection of Human Rights.

The NSS unit of KJSIEIT wishes everyone a happy International Day of the World's Indigenous Peoples.

## International Youth Day

Greetings,

**“Dream, Dream, Dream. Dreams transform into thoughts and thoughts result in action”** - APJ Abdul Kalam.

International Youth Day is commemorated every year on 12 August. The Focal Point on Youth selects a theme for the day often with input from youth organizations and members of the UN Inter-Agency Network in Youth development. It also organizes a virtual commemoration of the Day. The Programme encourages youth around the world to organize activities to raise awareness about the situation of youth in their country.

The theme of International Youth Day 2021 is, “Transforming Food Systems: Youth Innovation for Human and Planetary Health”, with the aim of highlighting that the success of such a global effort will not be achieved without the meaningful participation of young people.

It has been acknowledged that there is a need for inclusive support mechanisms that ensure youth continue to amplify efforts collectively and individually to restore the planet and protect life, while integrating biodiversity in the transformation of food systems. With the world’s population expected to increase by 2 billion people in the next 30 years, it has become recognized by numerous stakeholders that simply producing a larger volume of healthier food more sustainably will not ensure human and planetary wellbeing. Other crucial challenges must also be addressed, such as the interlinkages embodied by the 2030 Agenda including poverty reduction; social inclusion; health care; biodiversity conservation; and climate change mitigation.

*THIS IS YOUR DAY!*

Think about what you can do in your community and how you can effectively spread the message. Make it fun and relatable and use all your channels to spread the message.

1. Organize a (virtual) public meeting or debate to discuss young people's contributions to global issues.
2. Initiate round table discussions among adults and young people to promote intergenerational understanding.
3. Organize a youth forum to exchange ideas and discuss cultural backgrounds in order to help young people accept others and popularize a culture of non-violence.

The NSS Unit of KJSIEIT wishes everyone a happy International Youth Day.

## World Organ Donation Day

Greetings,

**“After I die, if I am buried, I will rot. If I am burnt, I will become ash but if my body is donated, I will live to give life and happiness to many.” - Amit Abraham**

Every year on **August 13, World Organ Donation Day** is commemorated to promote awareness about the necessity of organ donation and to encourage people to donate organs after death. Donating an organ is extremely valuable because it is both a gift and a life-saving act. One organ donor can save up to eight lives. So, this year, let's encourage ordinary people to take extraordinary actions.

### How to Donate an Organ?

According to the information posted on the AIIMS official website, there are two ways to donate organs:

1. Committing to organ donation while a person is still living
2. Committing to organ donation with the family's consent after death

Here are some basic steps to follow if you want to become a donor:

A person can pledge for organ donation at any time during their life by filling out a donor form, which can be received from ORBO either in person or by mail:

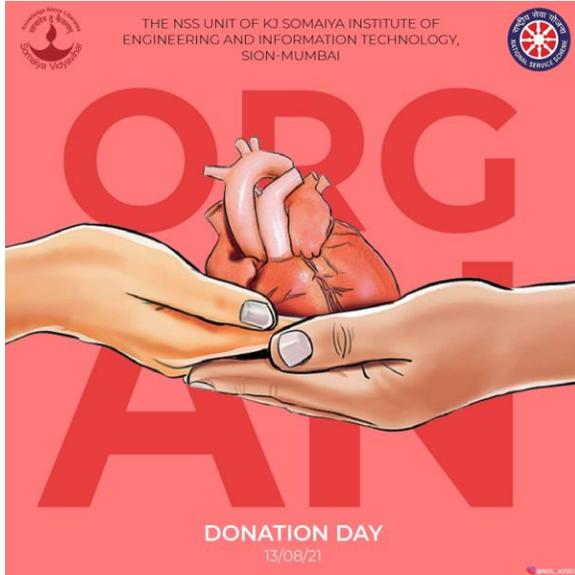

Step 1: Get the donor form from the official website.

Step 2: Fill out the “Organ/Body Donation” form after downloading it.

Step 3: On the donor form, you'll need two witnesses' signatures, one of whom must be a close family.

Step 4: If your request is approved, you will receive a “Donor Card” with a registration number.

Step 5: If you decide to become a donor, you must inform your loved ones.

Donating an organ is a noble and altruistic act. By donating, you are giving another person a few years of life and happiness to them and their family and loved ones. Anyone can volunteer to be an organ donor by filling out an authorized organ and tissue donation form. This Organ Donation Day, try to register yourself as a donor and motivate others to help spread awareness about this divine gesture.

The NSS Unit of KJSIEIT wishes everyone a happy World Organ Donation Day.

## Independence Day

Greetings,

***“Forget not that the grossest crime is to compromise with injustice and wrong. Remember the eternal law: you must give if you want to get.” – Netaji Subhash Chandra Bose***

**Independence Day** is celebrated on **August 15** every year to commemorate India’s freedom from British rule in 1947. After independence, India became the world’s largest democracy after the UK Parliament passed the Indian Independence Act, 1947, transferring legislative sovereignty to the Indian Constituent Assembly.

The Independence Day also marks the anniversary of undivided India’s partition into India and Pakistan.

On the eve of India’s independence, Jawaharlal Nehru, the then Prime minister, had said in his ‘Tryst with destiny’ speech: “At the stroke of the midnight hour, when the world sleeps, India will awake to life and freedom.”

 @NSS\_KJSIET

### What happens on Independence Day?

Every year, the Prime Minister of India hoists the national flag at Delhi’s Red Fort and makes an address to the nation, which is followed by a military parade. The President of India also delivers the ‘address to the nation’ speech. In honour of the occasion, twenty-one gun shots are fired.

This day is observed as a national holiday across India, with offices, banks and post offices remaining closed. Independence Day is observed with flag-hoisting ceremonies, parades and cultural events in all Indian states and Union Territories.

Preparations for Independence Day start a month in advance. Schools and colleges organise cultural events, competitions, debates, speeches, and quiz competitions.

## Background of the Independence Day

India's struggle for independence started in 1857 with the Sepoy Mutiny in Meerut and it gained momentum after the First World War. In the 20th century, under the leadership of Mahatma Gandhi, the Indian National Congress (INC) and other political organisations launched a countrywide independence movement and revolt against the oppressive British rule.

During the Second World War in 1942, the Indian Congress launched the Quit India Movement demanding an end to the British rule which prompted colonial rulers detaining many campaigners, nationalists, and ministers including Gandhi.

During the partition of India in 1947, violent riots, mass casualties, and displacement of nearly 15 million people took place amid religious violence.

India's Independence Day is significant as it stands as a reminder of the sacrifices that many freedom fighters made to get independence from British rule.

The NSS Unit of KJSIEIT wishes everyone a happy and proud 75th Independence Day.

**Satyameva Jayate**

**JAI HIND!**

## World Humanitarian Day

Greetings,

**"Life's most persistent question is what are you doing for others...."**

On 19 August 2003, a bomb attack on the Canal Hotel in Baghdad, Iraq, killed 22 humanitarian aid workers, including the UN Special Representative of the Secretary-General for Iraq, Sergio Vieira de Mello. Five years later, the General Assembly adopted a resolution designating **19 August** as **World Humanitarian Day**.

@NSS\_KJSIET

Each year, World Humanitarian Day focuses on a theme, bringing together partners from across the humanitarian system to advocate for the survival, well-being and dignity of people affected by crises, and for the safety and security of aid workers.

This year, we highlight the immediate human cost of the climate crisis by pressuring world leaders to take meaningful climate action for the world's most vulnerable people.

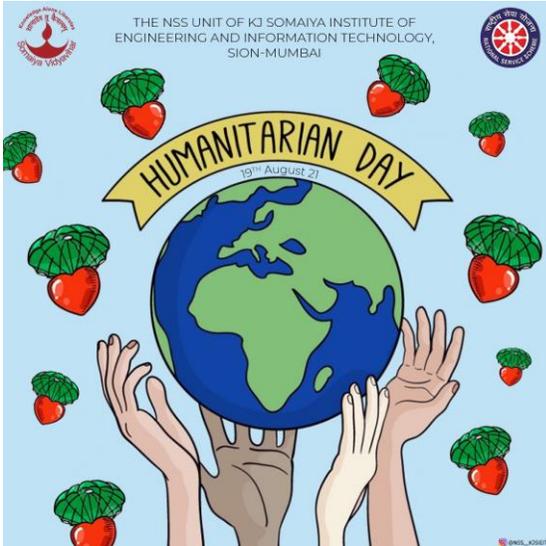

### **#TheHumanRace**

***A global challenge for climate action in solidarity with people who need it the most.***

The climate emergency is wreaking havoc across the world at a scale that the humanitarian community and people at the front lines cannot manage.

Time is already running out for millions of the world's most vulnerable people – those who have contributed least to the global climate emergency but are hit the hardest. Millions of people are already losing their homes, their livelihoods and their lives.

With most climate campaigns focused on slowing climate change and securing the planet's future, World Humanitarian Day 2021 will highlight the immediate human cost of the climate crisis and pressure world leaders to take meaningful climate action for the world's most vulnerable people.

In the week of World Humanitarian Day, August 19, to get the world racing against the climate crisis clock, the UN will stage a global race challenge like no other.

The challenge will be hosted on Strava, the world's leading exercise platform. Whether participants run, roll, ride, walk, swim, kick or hit a ball, each action will count towards helping us carry our message to world leaders when they meet at the UN Climate Change Conference (COP26) in November.

The NSS unit of KJSIEIT wishes everyone happy World Humanitarian Day.

## Raksha Bandhan

Greetings,

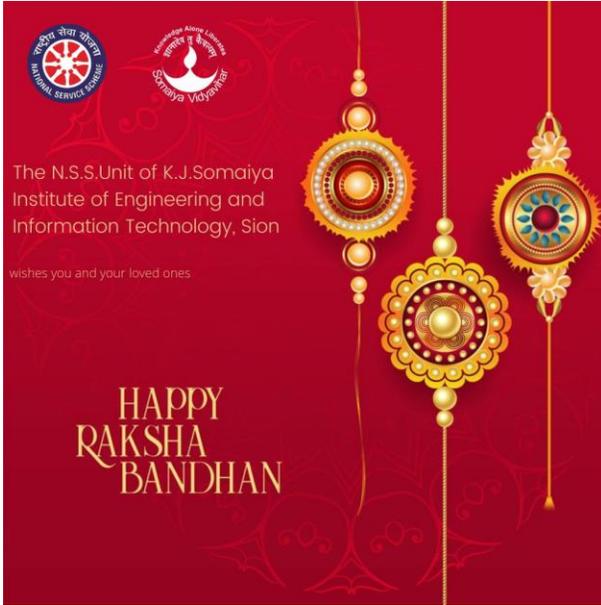

**“The bond between a sister and a brother is uniquely beautiful”**

Raksha Bandhan, also commonly known as Rakhi, is one of the oldest festivals in India. It celebrates the bond and love between siblings. Siblings share a unique bond, filled with love, fun and also, ups and downs. The love, care, silliness, laughter and annoyingness siblings share is pure joy. There is no relationship closer than them. The support a sister provides to her brother paves for the protection a brother looks out for his sister.

The festival marks this special bond. The words 'Raksha Bandhan mean 'the bond of safety and security'. On this day, a sister ties a sacred thread around her brother's wrist. In return, the brother promises to protect her from all evils.

This year, **Raksha Bandhan** falls on **August 22**. To celebrate the special day, gifts are exchanged and people indulge in sweet and special delicacies. While the Covid-19 pandemic will restrict the celebrations to some extent, you can still revel in the festive spirits from the comforts of your home.

The NSS Unit of KJSIEIT wishes everyone happy Raksha Bandhan.

## World Sanskrit Day

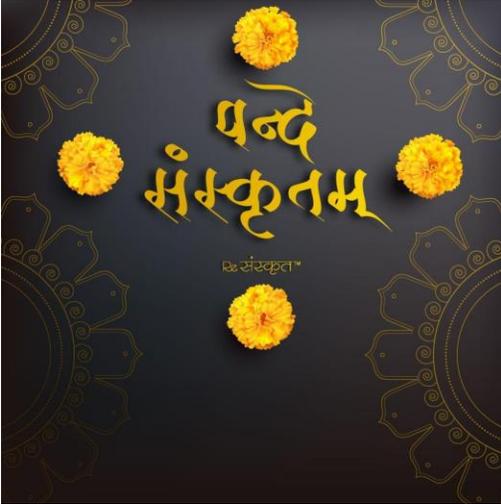

Greetings,

स्वस्तिप्रजाभ्यः परिपालयन्तां न्यायेन मार्गेण महीं महीशाः।  
गोब्राह्मणेभ्यः शुभमस्तु नित्यं लोकाः समस्ताः सुखिनो भवन्तु॥

Translation:

**May the well-being of all people be protected By the powerful and mighty leaders  
be with law and justice.**

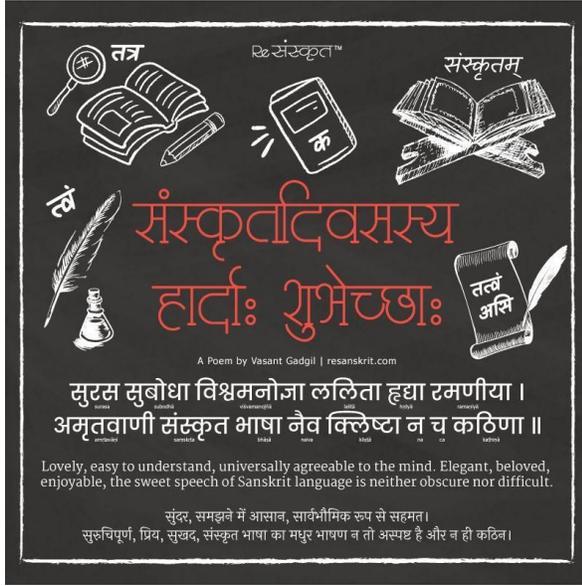

**May the success be with all divinity and scholars, May all (samastāḥ) the worlds  
(lokāḥ) become (bhavantu) happy (sukhino).**

**World Sanskrit Day**, also known as Vishvasamskritadinam (Sanskrit: विश्वसंस्कृतदिनम्, *Viśvasamskṛtadinam*), is an annual event focused around the ancient Indian language of Sanskrit that incorporates lectures about the language and is aimed to promote its revival and maintenance. It is celebrated on Shraavanapoornima, which is the Poornima day of the Shraavana month in the Hindu calendar.

The Sanskrit language is believed to have originated in India around 3,500 years ago. The term Sanskrit is derived from the conjoining of the prefix 'Sam' meaning 'Samyak' which indicates 'entirely' and 'krit' indicates 'done'. In terms of communication, reading and hearing Sanskrit terms indicates perfectly or entirely done. Sanskrit, in literary terms, is classified into two different periods, the Vedic and Classical. In the Vedas sacred texts,

Vedic Sanskrit is found mainly in the Rig Veda, the Puranas and the Upanishads. The Vedas were composed in the period 1,000 to 500 BC.

Sanskrit Diwas is celebrated to spread awareness, promote and revive the ancient India Language. The day essentially speaks of the importance of learning and knowing it. Sanskrit is the mother of all Indian languages and the first among the ancient languages spoken in India.

The NSS unit of KJSIEIT wishes you a peaceful and divine World Sanskrit Day.

## International Day for the Remembrance of the Slave Trade and its Abolition

Greetings,

The night of 22 to 23 August 1791, in Santo Domingo (today Haiti and the Dominican Republic) saw the beginning of the uprising that would play a crucial role in the abolition of the transatlantic slave trade. It is against this background that the **International Day for the Remembrance of the Slave Trade and its Abolition** is commemorated on **23 August** each year.

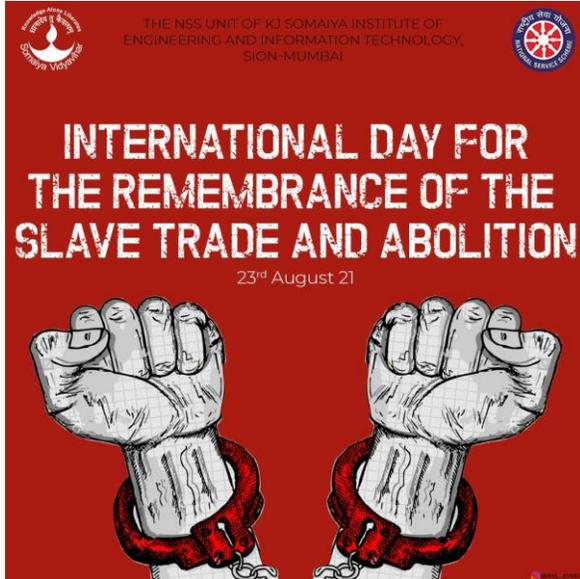

INTERNATIONAL DAY FOR THE  
REMEMBRANCE OF THE  
SLAVE TRADE AND ABOLITION

23<sup>rd</sup> Aug 21

 @NSS\_KJSIEIT

This International Day is intended to inscribe the tragedy of the slave trade in the memory of all peoples. In accordance with the goals of the intercultural project "The Slave Route", it should offer an opportunity for collective consideration of the historic causes, the methods and the consequences of this tragedy, and for an analysis of the interactions to which it has given rise between Africa, Europe, the Americas and the Caribbean.

The Director-General of UNESCO invites the Ministers of Culture of all Member States to organize events every year on that date, involving the entire population of their country and in particular young people, educators, artists and intellectuals.

International Day for the Remembrance of the Slave Trade and its Abolition was first celebrated in a number of countries, in particular in Haiti (23 August 1998) and Goree in Senegal (23 August 1999). Cultural events and debates too were organized. The year 2001 saw the participation of the Mulhouse Textile Museum in France in the form of a workshop for fabrics called "Indiennes de Traite" (a type of calico) which served as currency for the exchange of slaves in the seventeenth and eighteenth centuries. Circular CL/3494 of 29 July 1998 from the Director-General to Ministers of Culture invites all the Member States to organize events to mark 23 August each year. The UNESCO Executive Board adopted Resolution 29 C/40 at its 29th session.

The NSS unit of KJSIEIT wishes everyone happy International Day for the remembrance of the slave trade and abolition.

## World Water Week

Greetings,

**“Thousands have lived without love, not one without water.”–W. H. Auden**

Hosted and organized by SIWI, World Water Week is the leading annual global event for concretely addressing the planet’s major water issues. In 2021, **World Water Week 2021** will be held entirely online, **23-27 August**, with the theme **Building Resilience Faster**.

World Water Week is the leading annual event on global water issues, organized by Stockholm International Water Institute since 1991. The Week attracts participants from more than 130 countries and consists of a broad array of parallel activities convened by leading international organizations on a broad array of water-related topics, ranging from food security and health to agriculture, technology, biodiversity, and the climate crisis.

In 2021, World Water Week will be held in a new digital format so that people across the world can join, regardless of the circumstances. This will make World Water Week broader and more inclusive at a time when international cooperation is needed more than ever. The digital format makes it easier to welcome new stakeholders, who may not have a background in water. Another benefit is that the content produced can be revisited and reused also after the conference. In short, it takes us closer to our aim of being a year-round movement rather than a moment.

The NSS unit of KJSIEIT wishes everyone a happy World Water Week.

## National Sports Day

Greetings,

***"Do you know what my favorite part of the game is? The opportunity to play." - Mike Singletary***

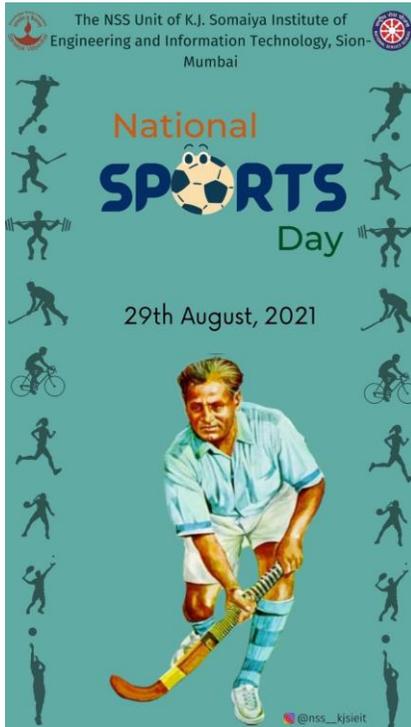

The **National Sports Day** in India is celebrated on **29 August**, on the birth anniversary of hockey player Major Dhyan Chand, one of the best sportsmen ever to have graced the game of hockey. Hockey always has a special place among Indians. Our generation sometimes looks back with a sense of disbelief about the golden era of Indian hockey, when India won three Olympic gold medals in field hockey in 1928, 1932 and 1936. That era was led by none other than Dhyan Chand who scored 33 goals in 12 matches. Dhyan Chand was born in Allahabad to Sameshwar Dutt Singh. Dhyan Chand joined the Indian Army at the age of 16 and never played hockey during his childhood. Slowly he was attracted to the game and progressed quickly to represent India. He scored 570 goals in his career, from 1926 to 1949 (according to his autobiography, Goals).

In the 1936 Olympics, Dhyan Chand displayed such unbelievable skills with his hockey stick that a German newspaper carried a banner headline, "The Olympic complex now has a magic show too." The next day, posters were displayed all over Berlin which showed "Visit the hockey stadium to watch the Indian magician Dhyan Chand in action." There is also a legendary story saying that his skills were so good and godly that at one instance his opponents went on to physically check his hockey stick to see if there was a special glue which stuck the ball to his stick.

After putting his stamp on the international hockey arena, and having served his country to reach its pinnacles of glory multiple times, Dhyan Chand passed away on 3 December 1979. He remains a legendary figure in Indian and world hockey. The most noted memorials for

him is the Major Dyanchand Awards ,the highest award for lifetime achievement in sports and games in India , and the National Sport day celebrations on his birthday.

A sport is a very important activity for students. It's one activity which can help us to develop multiple qualities like a sense of togetherness, leadership skills, stamina, physical strength, planning and strategy, patriotism and team work-the qualities which helps us to excel in life. National Sports day is not only a tribute to one of the greatest in the game; it also reminds us the importance of sports in our life.

The NSS unit of KJSIEIT wishes everyone happy National Sports Day.

## Janmashtami

Greetings,

**"Today is a special day as someone special was born,  
To fight against inhumanity,  
To save the trust in God,  
Happy Krishna Janmashtami! "**

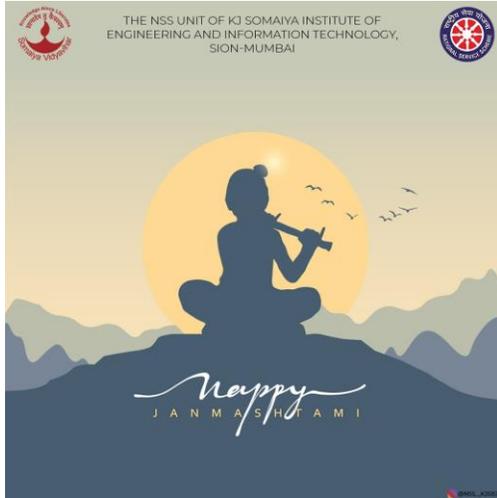

**Janmashtami** is a Hindu festival to celebrate the birth of Lord Krishna. It is celebrated in August every year. The Ashtami date of Krishna Paksha is the date for celebrating Janmashtami. Lord Krishna is considered to be the most powerful of all the ten incarnations of Lord Vishnu. Hindus celebrate Janmashtami with pomp and glory. Let us speak a bit about Lord Krishna.

### Life Story of Lord Krishna

Lord Krishna is one of the incarnations of Lord Vishnu. He was born about 5200 years ago on the 8th day of the dark fortnight in the Bhadon month of the Hindu calendar. He is considered as an extremely powerful god. He was born on the Earth with a special purpose of freeing it from the evil clasps. He had a profound influence in the epic, Mahabharata, where he took Pandavas's side and guided them to victory in the battle of Kurukshetra. Throughout his life, he preached the concept of Bhakti and Karma. Lord Krishna was born in jail since his parents were kept in prison by his uncle Kansha. Kansha feared that the eighth child of their parents would kill him. Although Krishna was the eighth child, his father Vasudev saved him from Kansha by giving him his friend Nand. Krishna grew up in the Gokul society by his foster father, Nand, and foster mother, Yashoda. He showed several magical performances by killing several asuras throughout his childhood and youth, and he grew up to be a strong person. Finally, he and his brother Balaram went to Kansha's palace for a fighting tournament, where Krishna killed Kansha. Several shows on Lord Krishna broadcast on television daily basis. I loved to watch them when I was a child, and also now. I love the fact that Krishna loves to eat Makhan, which he used to steal from his mother's kitchen. For this reason, Lord Krishna is also known as 'Natkhat Nand Lal.' He was called Natkhat because he was very naughty when he was a child. He played with friends and cows, and therefore, he is also called Govind.

Lord Krishna was dark-skinned, as dark as rain-filled clouds. Lord Krishna's best friend is his aunt Radha. Radha is very important in the life of Lord Krishna. Lord Krishna loves to spend time with her. He also loves to spend time with other friends like Sudama.

### **Celebration of Janmashtami**

Since Lord Krishna was born at night, people celebrate Janmashtami at midnight. People follow a special means of celebrating Janmashtami. Since Lord Krishna loved to eat Makhan, people played sports with Makhan. They put the makhan in an earthen pot called a matki. The judge ties the makhan-filled matki very high above the ground. People play this game in groups. These people make a pyramid so tall that they can reach the matki tied above. Other teams try to stop them from reaching the matki. Every team has a definite time to reach matki. If any team fails to reach the matki before the time, then other teams are given a chance to reach the matki. This game is so interesting that many people come to see the sport.

Janmashtami is also celebrated in houses in different ways. People decorate both the inside and outside of the house with lights. They perform pujas and offerings at different temples. On the eve of Janmashtami, we all hear the sound of mantras and bells for the entire day. Many people also love to sing and dance to religious songs. Janmashtami is considered as one of the most pompous and joyous festivals in Hinduism.

The NSS unit of KJSIEIT wishes everyone a happy Janmashtami.

## National Nutrition Week

Greetings,

**"The only way to keep your health is to eat what you don't want, drink what you don't like, and do what you'd rather not...." -Mark Twain**

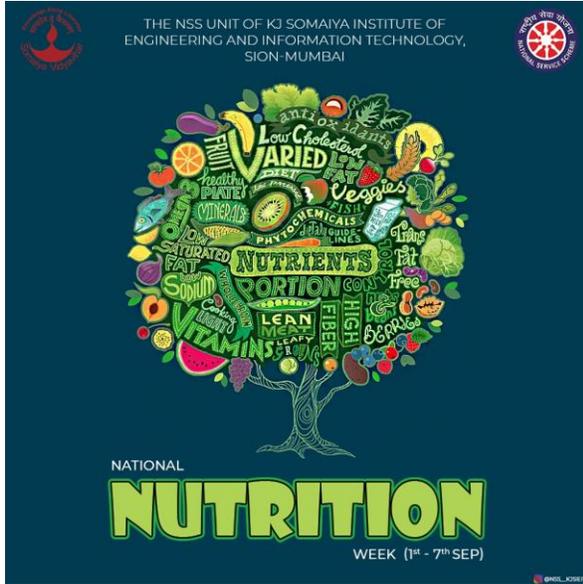

The right nutrition is the most important factor that determines the well being of a person. Hence, in order to make the common people aware of the importance of nutrition, we celebrate the **National Nutrition Week** every year starting from **1st of September** through **7th of September**.

National Nutrition Week is aimed at creating awareness about health and nutrition. In this week, initiatives taken up by the government are focused on nutrition and good food, healthy body, mind and lifestyle. Nutrition plays an important role in the overall development of an individual. As a healthy mind resides in a healthy body, it is necessary to have nutrition like salts, vitamins, proteins etc in our daily diet.

The celebration of National Nutrition Week is based on a theme every year, and the theme for National Nutrition Week 2021 is **"Feeding Smart Right From Start"**, which focuses on consuming the right kind of food to keep yourself fit and healthy.

Nutrition is the science of consuming and using foods. Food provides our body with energy, protein, essential fats, vitamins, and minerals to live, grow and function properly. Therefore a balanced diet is essential for good health and well-being. It is said that an unhealthy diet increases the risk of many diet-related diseases.

Mothers, families and communities should be educated to adopt appropriate nutrition practices. Most nutrition happens at home and we need families to adopt the right nutrition practices. Nutrition sensitive interventions such as women's empowerment and water and sanitation are highly important and should be prioritized.

The NSS unit of KJSIEIT wishes everyone Happy National Nutrition Week.

## Happy Teachers' Day

Greetings,

"Let us remember: **One book, one pen, one child, and one teacher can change the world.**" —  
Malala Yousafzai

From giving us a purpose to setting us up as successful citizens of the world, teachers inspire in us a drive to do well and succeed in life and to recognize this hard work of our mentors and gurus, **Teachers' Day** or **Shikshak Divas** is celebrated in India with great pomp and show on **5th September** every year.

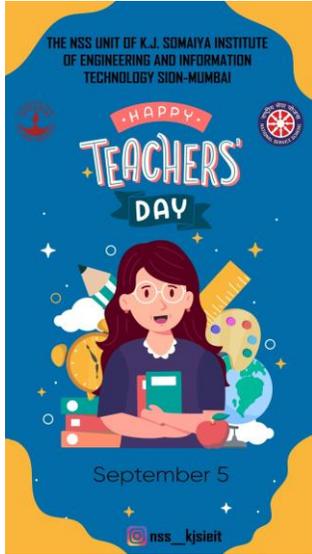

**September 5**

 @NSS\_KJSIEIT

In India, it is marked on the birthday of Dr Sarvapalli Radhakrishnan who was the first Vice President of India (1952–1962) and also a highly-respected teacher, philosopher and prolific statesman. Dr Radhakrishnan went on to become the second President of India (1962-1967) and was of the opinion that “teachers should be the best minds in the country.”

When Dr Radhakrishnan took the office of the second President of India in 1962, his students approached him to seek permission to celebrate September 5 as a special day. Dr Radhakrishnan instead made a request of them to observe September 5 as Teachers' Day, to recognise the contribution of teachers to the society. Ever since then, September 5 is celebrated as Teacher's Day across schools, colleges, universities and educational institutions. Students put on performances, dances and host elaborate shows for their most-loved teachers.

Last year, owing to the Covid-19 pandemic, the schools and colleges were shut and the annual celebrations were replaced with virtual ones.

Hence, virtual wishes and greetings are a perfect way to tell your teachers you love and cherish them, even if you are no longer a college going student. This is because teachers are the bedrock upon which any quality education is built and they are perhaps the few people in our lives who rejoice when we, their students, outdo them.

The NSS Unit of KJSIEIT wishes all the teachers a very Happy Teacher's Day!

## International Literacy Day

Greetings,

"Literacy is a bridge from misery to hope.." -Kofi Annan

On October 26 1996, at the 14th session of UNESCO General Conference, the United Nations Educational, Scientific and Cultural Organization declared **8th September** as **International Literacy Day**. The first international literacy day was celebrated in 1967.

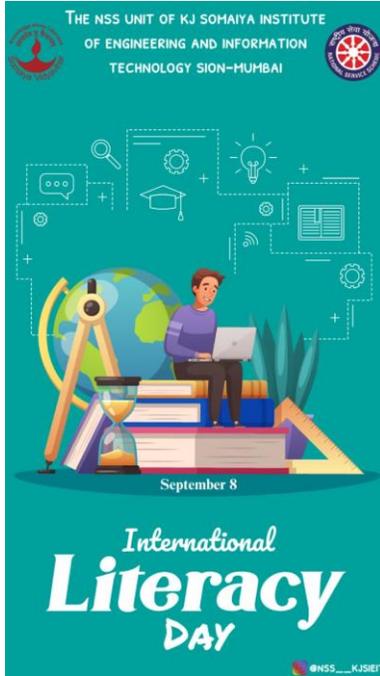

◆ International ◆  
**LITERACY DAY**  
September 8th

 @NSS\_KJSEIT

Literacy means 'the ability to read, write, speak and listen in a way'. Having the skills to communicate, read, and write is vital for social and economic development. It allows individuals to expand their knowledge and understanding of society. Literacy is very important for economic development. A country's economy is enhanced when leaders have higher literacy skills.

Literacy opens up the door for employment and educational opportunities which help people to come out from the condition of extreme poverty and unemployment.

Every year, International Literacy Day is celebrated with a theme, and the theme for 2021 is “**Literacy for a human-centred recovery: Narrowing the digital divide**”.

ILD 2021 will explore how literacy can contribute to building a solid foundation for a human-centred recovery, with a special focus on the interplay of literacy and digital skills required by non-literate youth and adults. It will also explore what makes technology-enabled literacy learning inclusive and meaningful to leave no one behind. By doing so, ILD2021 will be an opportunity to reimagine future literacy teaching and learning, within and beyond the context of the pandemic.

The NSS unit of KJSIEIT wishes everyone happy World Elder Abuse Awareness Day.

## Ganesh Chaturthi

Greetings,

“वक्रतुण्ड महाकाय सूर्यकोटि समप्रभ ।  
टिटवयङ्गं कुं रु मेदेव सवयकायेषु सवयदा ॥”

**Ganesh Chaturthi** is a ten-day Hindu festival celebrated to honour the elephant-headed God Ganesha's birthday. He is the younger son of Lord Shiva and Goddess Parvati.

Ganesha is known by 108 different names and is the Lord of arts and sciences and the deva of wisdom. He is honoured at the start of rituals and ceremonies as he's considered the God of beginnings. He's widely and dearly referred to as Ganapati or Vinayaka.

There are two different versions about Ganesha's birth. The famous one is that Goddess Parvati created Ganesha out of dirt off her body while having a bath and set him to guard her door while she finishes her bath. Shiva who had gone out, returned at that time, but as Ganesha didn't know of him, stopped him from entering. Angry Shiva severed the head of Ganesha after a combat between the two. Parvati was enraged and Shiva promised Ganesha will live again. The devas who went in search of a head facing north of a dead person could manage only the head of an elephant. Shiva fixed the elephant's head on the child and brought him back to life.

Ganesh Chaturthi is one of the most important Hindu festivals and it's dedicated to Lord Ganesh. On this day, Lord Ganesh is worshipped as the god of wisdom, prosperity, and good fortune. It is believed that Lord Ganesh was born during Shukla Paksha of Bhadrapada month.

Lord Ganesh is also known as Vighnaharta (the one who removes obstacles), and hence he is worshipped first before initiating a new venture, work, or auspicious beginning like marriage or Griha Pravesh.

Maharashtra is well-known for its grand scale Ganesh Chaturthi celebration. Well, this wasn't the case many years ago. It was only In 1893, the Indian freedom fighter Lokmanya Tilak praised the celebration of Sarvajanic Ganesh Utsav in his newspaper, Kesari, and dedicated his efforts to launch the annual domestic festival into a large, well-organised public event. The festival has been celebrated as a public event since the time of Chhatrapati Shivaji Maharaj.

There are four main rituals during the festival - Pranapratishttha - the process of infusing the deity into a murti or idol, Shhodashopachara - 16 forms of paying tribute to Ganesha, Uttarpuja - Puja after which the idol could be shifted after it's infusion, Ganpati Visarjan - immersion of the Idol in the river.

There is a strong belief amongst the Hindus that Ganesha, the God of wisdom and prosperity visits their homes. Everyone tries their best to make him comfortable and happy. This festival is the literal meaning of the thought-- "Guest is God". People pray and share their sorrows and accomplishments with the Ganesha. The ambience during this festival is filled with enthusiasm. When it comes to food, Ganesha and Indians are not shy either. Each and every household has heaps of Modaks ready to be served to Ganesha. Even during the visarjan, people say bye to the Ganesha with a loud and thumping Dhol and tasha. By no means is any effort wasted. It's one of the most energetic festivals of India.

Following are the learnings which we must learn and adopt from the Lord Ganesha--

- Duty first
- Parents are omnipotent and respect them.
- Learn to forgive.
- Finish every task you take up with dedication.
- Always stand up for your self-respect.

The NSS unit of KJSIEIT wishes everyone a very happy Ganesh Chaturthi.

## World Suicide Prevention Day

Greetings,

**"You are worthless, you are a disgrace, we are disappointed in you. How does it feel when you hear this? Sad, frustrated, wanting to die; and you believed it....."**

Why do we need to rest? Why do we need to take a step behind? Why do we need to forgive ourselves? These questions have a very simple and a meaningful answer. It's the reason you need to find. It's your life instead of being awesome it's full of negativity. You made many awful mistakes in your life, that is why you need to stop for a while, calm yourself and finally forgive yourself.

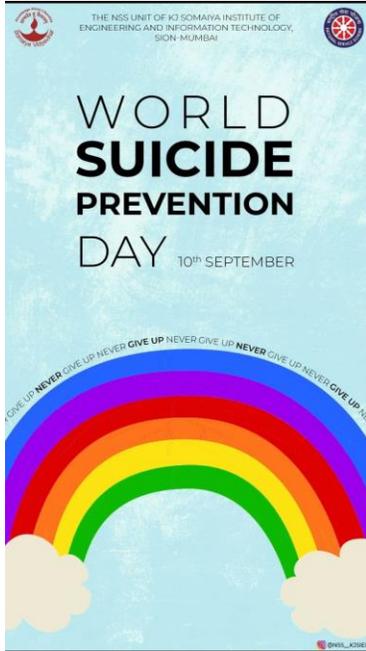

**World Suicide Prevention Day** was organized by International Association of Suicide Prevention (IASP) and co-sponsored by the WHO. This day was implemented in the year 2003 and hence every year on **September 10** this day amplifies the message that **"Suicide is Preventable"**.

If you believe so much in what others say then you should also believe in your family, your friends, what they say. Ignoring is just another dead end which makes you have good times in your life. Sometimes you have to lose to gain something but when it comes to defeats you give away your life. You see nothing but an escape route. Believe me SUICIDE is the shortest and the easiest escape route but at what cost. You might think if you go away nothing will change since you are one in the billions. You are wrong and this kind of thinking will always be wrong. You are not one in those billions you are one in those tens, hundreds and these people are your loved ones. They might scold you and stop talking with you and that's what you only see and make the only unwanted decision. Reality is you mean the whole world to them.

World Suicide Prevention Day is a reminder for people trying to do the wrong that there is hope, there are people depending on you maybe not today but maybe someday you will be their only way. Be their light, be their hero, be their everything.

This day is for people to understand that if they want to cry, they should. It's the best and first step towards the right path. People need each other no matter how much they gain. They will always need a shoulder to cry, and will always have to become someone's shoulder. You might be despaired, you might be broken but suicide is not the way. If you think so less of you then look around and instead of seeing the negativity see the positive life your loved ones are living.

It's ok to be broken but it's not ok to go away. After all you are someone's something and you are here for a reason. So on this day forget everything and start a new life and be free of negative thoughts. Keep asking yourself why you are alive. Till you find the answer never think of suicide because life is more than just dying.

The NSS unit of KJSIEIT wishes everyone a courageous World Suicide Prevention Day.

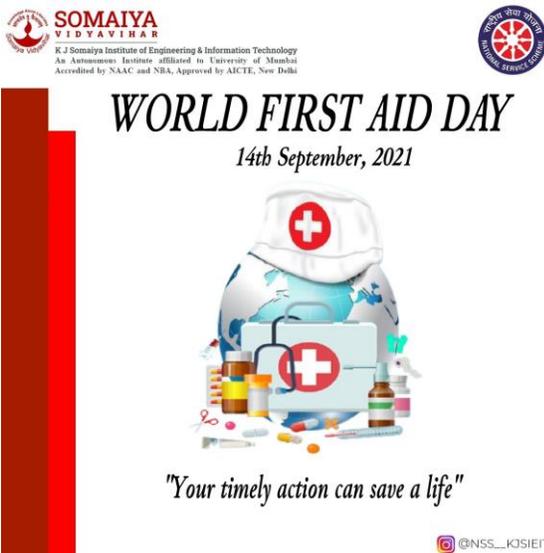

## World First Aid Day

Greetings,

**“Every single person in the world has the capacity to save a life – it is an essential gesture of solidarity. First aid education should be accessible to all without discrimination.”**

**World First Aid Day** is an annual campaign aimed at promoting the importance of first aid training and increasing its accessibility to save more lives in a crisis. When a person suffers from minor or serious injury or illness, the first and immediate assistance given to the patient is termed as 'First Aid'.

The special day is marked to spread awareness on first aid and how it can prevent injuries and save lives in a critical situation and also, to encourage people in first aid training in order to prevent the same.

The theme for World First Aid Day 2021 is **'First aid and road safety'**, according to the International Federation of Red Cross and Red Crescent Societies (IFRC). Last year, the theme was 'First aid saves lives.' You can learn first aid in three to six hours and it is not a very big investment when it comes to saving lives and anyone can train for it, regardless of educational background.

According to reports, almost 27 per cent deaths are due to a want for medical attention. But, if an individual has the knowledge of first aid, then one can save lives while waiting for professional help. The right knowledge of first aid will help reduce injuries and deaths, as well the impact of disasters, calamities and daily emergencies by a great deal.

A few ways in which we could make an impact on the world with this day:

You can start learning the essentials of first aid as early as possible. Teachers can teach first aid to school children as basic medical skills can become a life-saving activity.

You can discuss the importance of first aid, emergency numbers and the essential things one must keep in a first aid kit with your children.

One should be eager to learn first aid and spread information about its importance whenever we can. After all, a life could be saved.

We learn this World First Aid Day that first aid training does more than help save lives. It enables you to increase patient comfort, provides you tools to prevent the situation from becoming worse, the confidence to care and on the whole, it encourages healthy and safe living.

The NSS unit of KJSIEIT wishes everyone a very happy and safe World First Aid Day.

## Hindi Diwas

Greetings,

"हिन्दी हमारे राष्ट्र की अभिव्यक्ति का सरलतम स्रोत है." – सुमित्रानंदन पंत

**Hindi Diwas** is celebrated on the **14th of September**, to commemorate the adoption of Hindi in Devanagari script as one of the official languages in different Hindi speaking states of India. The first Prime Minister of the country, Jawaharlal Nehru, decided to celebrate Hindi Diwas on September 14. Besides Hindi Diwas, World Hindi Day 2020 is celebrated on 10 January. This day in commemoration of the 1st World Hindi Conference was held in Nagpur on 10 January 1975, with the attendance of 122 delegates from 30 countries.

The purpose of the conference is to promote the Hindi language worldwide. World Hindi Day was first celebrated in 2006 by former Prime Minister, Dr Manmohan Singh with the aim of promoting Hindi language worldwide. In 1918, Mahatma Gandhi, widely known as the father of the country, attended a conference on Hindi literature and requested that Hindi be the national language of India. He also called it the language of everyone. Approved by the Constituent Assembly on September 14, 1949 in English, Hindi and the official languages of India. Since 1953, India has commemorated the Hindi Diwas and every September 14th to promote the use of the language.

Basically, the aim is to promote and spread the culture of Hindi Language across the world. After independence, the Government of India set a goal to give an idealized look to the mother tongue of the country and set a target of grammar and orthography using the Devanagari script to bring about standardization in writing. After this, on 14 September, 1949, the Constituent Assembly decided that Hindi will be the official language of India. To propose the importance of this decision and to spread Hindi in every region, on the request of Rashtrabhasha Prachar Samiti, Wardha, from 1953 on 14 September, India is celebrating Hindi Diwas every year. Apart from this, 14 September is also the birthday of Rajendra Singh, who worked tirelessly towards making Hindi the official language of India.

It organizes special gatherings that accompany many leisure activities, where students from almost all schools and universities are held. Highlights of the day include audio reading, essay writing, poetry reading in Hindi, reading Kabir das Ke Dohey, Rahim Ke Dohey, Tulsi Das Ke Dohey, singing, dancing, Hindi general knowledge quiz competitions, plays, etc. On this day, students are especially motivated to give speeches in Hindi, write essays, or do other activities. Even young children at school are given some tasks to write or speak a few lines of Hindi. A very old and famous Hindi song (Ai Malik Tere Bande Hum) is being sung by the students in the group.

Inter-School Competitions are held at various schools to celebrate International Mother Language Day - Hindi Diwas. Students from various schools can participate in various contests, such as Hindi poem recitation (based on the theme of “Hindi Meri Pehchan”)and play contests (based on theme of “Ekta ka Sutra Hindi”), etc. Many of the competitions organized by the school help students to explore their knowledge of Hindi language in different colors and flavors.

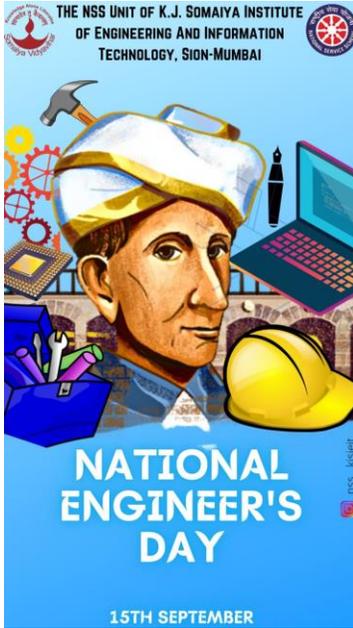

Youth of today must come forward and join hands in promoting the language and take pride in being the caretaker of Hindi Language. When we say so; we don't mean that you do away with other languages, such as English or any other language you are comfortable with. We only appeal to all of you to unite India through one language, one nation.

The NSS Unit of KJSIEIT wishes everyone a very happy Hindi Diwas.

Without a doubt, the legacy left behind by Sir M. Visvesvaraya has had a monumental impact on the talented engineers of the country today. It stands as a reminder about the hard work and effort our engineers put in for the growth of this country. After all, an engineer is in a position to change the world around them, not just study it, making their presence in society a necessity. From the work engineers do as entrepreneurs in startups, to establishing the presence of corporate giants in the country, they have broadened the horizons for India in terms of opportunities.

The diverse career paths an engineer embarks upon, post their graduation, is a symbol of the revolutionary changes they make. Their contributions are crucial to India and its people, which is why on behalf of NSS Unit Of KJSIEIT, we wish every engineer out there a very happy National Engineer's Day. If you too have some engineer friends who have made you proud, you must send them your wishes for the day!

# National Service Scheme Day

Greetings,

**“The best way to find yourself is to lose yourself in the service of others.”—Mahatma Gandhi**

The National Service Scheme is a public service program conducted by the Ministry of Youth Affairs and Sports. Aimed at developing a student's personality through community service. Every year, NSS day is observed on September 24 across India. The National Service Scheme was launched in 1969, the birth centenary year of Mahatma Gandhi in 37 universities involving 40,000 students.

The scheme was kicked off by the then Union Education Minister VKRV Rao at 37 universities across all states on September 24, 1969. It has now been extended to all the states and universities of the country.

## History of National Service Scheme:-

The University Grants Commission (UGC) that was headed by S Radhakrishnan, had recommended the introduction of voluntary national service in academic institutions post-independence. In the year 1952, the government emphasized the requirement of social and labour service by Indian students for a year.

In 1958, Prime Minister Jawaharlal Nehru considered the idea of social service as a prerequisite for graduation in his letter to all chief ministers. He also instructed the Ministry of Education to form a competent scheme.

## Significance of National Service Scheme:-

The National Service Scheme (NSS) is a central sector scheme of the government of India, Ministry of Youth Affairs & Sports. It allows the students of 11th & 12th , Technical Institutions, graduate & post-graduate at colleges and university level of India to be a part of various government-led community service activities & programmes.

It aims to provide hands-on experience to young students in delivering community service. Since the formation of NSS in 1969, the number of students has increased from 40,000 to over 3.8 million up to the end of March 2018.

The symbol for the NSS has been taken from the Rath Wheel of the world-famous Konark Sun temple. The eight strokes in the wheel represent 24 hours of a day which is a reminder to be ready in the service of the nation round the clock.

The red colour indicates youth full of passion, energy. The blue colour indicates NSS as a tiny part of the cosmos, always ready to contribute to the welfare of mankind.

### Types of Activities:-

There are two types of activities: Regular Activities(120 hours) and Annual Special Camp(120 hours). All the NSS Volunteers who have served NSS for at least 2 years and have performed 240 hours of work under NSS are entitled to a certificate from the university under the signature of the Vice-Chancellor and the Programme Coordinator. The Annual camps are known as Special Camps. Camps are held annually, funded by the government of India, and are usually located in a rural village or a city suburb. Volunteers may be involved in such activities as:

1. Cleaning
2. Afforestation
3. Stage shows or a procession creating awareness of such issues as social problems, education and cleanliness
4. Awareness Rallies
5. Inviting doctors for health camps
6. Community Survey

There are no predefined or pre assigned tasks; it is left up to the volunteers to provide service in any way that is feasible. Camps typically last between a week and 10 days are also conducted by NSS.

The NSS unit of KJSIEIT wishes everyone Happy NSS Day!!!

## World Heart Day

Greetings,

**“A Healthy Heartbeat Is a Wonderful Treat”**

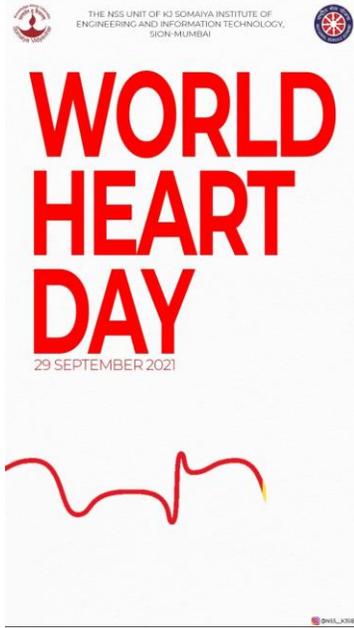

**World Heart Day** is celebrated every year on **29 September**. It is intended to increase public awareness of cardiovascular diseases, including their prevention and their global impact. In 1999 the World Heart Federation (WHF), in conjunction with the World Health Organization (WHO), announced the establishment of World Heart Day. The idea for this annual event was conceived by Antoni Bayés de Luna, president of WHF from 1997–99. World Heart Day was originally (until 2011) observed on the last Sunday in September, with the first celebration taking place on September 24, 2000.

Cardiovascular diseases are the most common cause of death globally. In the early 2000s roughly 17 million people worldwide died from cardiovascular diseases annually. The majority of these deaths were the result of coronary heart disease or stroke. Although cardiovascular diseases are often considered to be afflictions of people living in developed countries, where sedentary lifestyle is common, more than 80 percent of deaths from these diseases occur in low- and middle-income developing countries.

The primary causes of cardiovascular diseases—poor diet, lack of exercise, and smoking—are considered modifiable factors. Thus, even in developing countries, which often lack efficient health care programs, the majority of these diseases can be prevented. Cardiovascular diseases also have a major impact on economic systems within countries, because of the high healthcare costs associated with treatment and lost productivity associated with disability and absenteeism from work.

The primary causes of cardiovascular diseases—poor diet, lack of exercise, and smoking—are considered modifiable factors. Thus, even in developing countries, which often lack efficient health care programs, the majority of these diseases can be prevented. Cardiovascular diseases also have a major impact on economic systems within countries, because of the high healthcare costs associated with treatment and lost productivity associated with disability and absenteeism from work.

The theme given to World Heart Day each year communicates the focus of that year's celebration. The theme of the first event was "Physical Activity." Other themes have included "Women and Heart Disease" in 2003, which was intended to raise awareness of cardiovascular disease in women, and "Know Your Risk!" in 2008, which was aimed at helping individuals identify the factors that place them at risk of cardiovascular disease.

The NSS unit of KJSIEIT wishes everyone a happy World Heart Day.

## Gandhi Jayanti

Greetings,

**“If we could change ourselves, the tendencies in the world would also change. As a man changes his own nature, so does the attitude of the world change towards him. We need not wait to see what others do.”- Mahatma Gandhi**

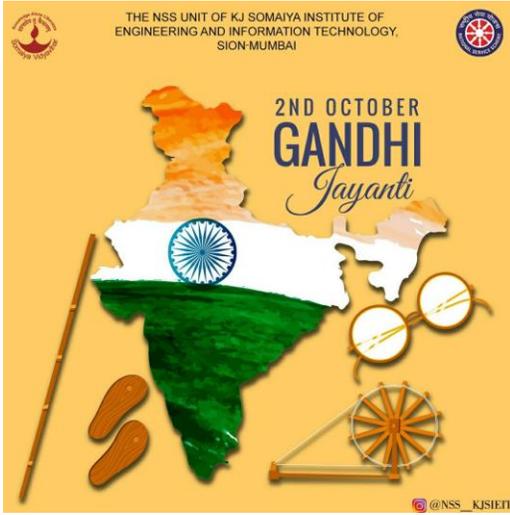

**Gandhi Jayanti** is an event celebrated in India to mark the birthday of Mahatma Gandhi. It is celebrated annually on **2 October**, and it is one of the three national holidays of India. The UN General Assembly announced on 15 June 2007 that it adopted a resolution which declared that 2 October will be celebrated as the **International Day of Non-Violence**. He is also known as the "**Father of The Nation**" and this title was given to him by Netaji Subhash Chandra Bose for his relentless struggles for our independence

Mahatma Gandhi is revered the world over as one of history's most transformative and inspirational figures. Throughout his life in South Africa and India, Gandhi was a fearless campaigner for the rights and dignity of all people, whose constant and unwavering promotion of non-violence as a tool to win over hearts and minds has forever left its mark on the world.

However, the man known today for his calm, courage and compassion in the face of oppression was not always comfortable before the crowds. Born Mohandas Karamchand Gandhi in Porbandar, India in 1869 — he was later nicknamed “Mahatma,” for “great soul” — the spiritual leader and father of Indian independence in fact suffered for much of his life from an acute fear of public speaking. Gandhi's glossophobia, as it's known, was so severe that when he faced a judge for his first court case as a young lawyer, he froze and fled from the courtroom in a panic.

Over time, Gandhi managed not only to overcome his fears, but to turn them to his advantage. His unease at speaking made him an excellent listener, whose humility and empathy allowed him to channel the dreams and aspirations of the masses. His hesitancy with words taught him the power of saying more with less — and today, these words, inflected with the heart and wisdom that have made him an international icon, continue to inspire countless millions across the globe.

The NSS unit of KJSIEIT wishes everyone happy Gandhi Jayanti.

## Indian Air Force Day

Greetings,

“Nabham Sparsham Deeptham”

Meaning “Touch the Sky with Glory” is the motto of the Indian Air Force.

This motto has been taken from the eleventh chapter of the Bhagavad Gita.

The **Indian Air Force Day** is celebrated on **October 8th** every year, to mark the date of establishment of the “**Bharatiya Vayu Sena**”. Today marks the 89th Anniversary of India’s Air Force Day. On this day, the Air Force in India was officially raised as the supporting force of the Royal Air Force of the United Kingdom in 1932.

Every year, Indian Air Force Day is celebrated at Hindon Air Force Station, Ghaziabad, Uttar Pradesh. The celebrations are marked in the presence of the IAF chief and senior officials of the three-armed forces. It comprises a parade by men and women Air Warriors.

Medals are pinned on the uniforms of those who have been declared recipients during the investiture ceremony. These medals are pinned by the Chief of Air Staff (CAS)

### More about the IAF:

The Indian Air Force (IAF) is the air arm and a crucial organ of the Indian armed forces which plays a vital role in the wars fought by the country. Its primary mission is to secure Indian airspace and conduct aerial activities during armed conflicts within nations.

The Indian Air Force has taken part in several wars since independence, including four wars with Pakistan and one with the People's Republic of China.

The Indian Air Force not only safeguards Indian territory and national interests from all threats but also provides support during natural calamities in the country. Hence, the day is celebrated to honour and recognise the selfless efforts of our jawans and the entire force.

India is a golden bird and plays its new wings because of the great services of our Indian Forces.

The NSS unit of KJSIEIT wishes everyone a proud and happy Indian Airforce Day.

## World Mental Health Day

Greetings,

**"Mental illness is nothing to be ashamed of, but stigma and bias shame us all." -Bill Clinton**

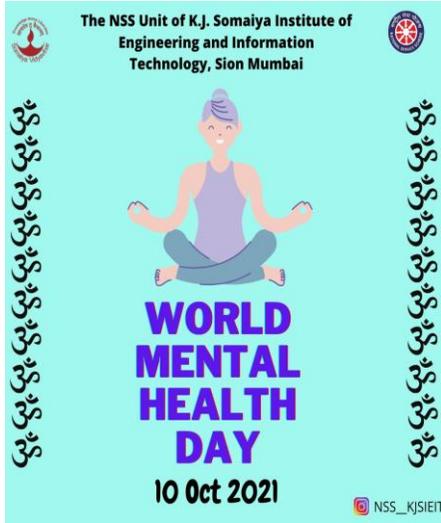

Mental health is one of the most neglected areas of public health. About 1 billion people are living with mental disorders; 3 million people die every year from the harmful use of alcohol, and one person dies every 40 seconds by suicide. Social stigma, discrimination, and human rights abuses of people with mental health conditions further precipitate the situation of mental health disorders.

 @NSS\_KJSEIT

The stigma and discrimination experienced by people who experience mental ill health not only affects that persons physical and mental health, stigma also affects their educational opportunities, current and future earning and job prospects, and also affects their families and loved ones. This inequality needs to be addressed because it should not be allowed to continue. We all have a role to play to address these disparities and ensure that people with lived experience of mental health are fully integrated in all aspects of life.

World Mental Health Day (10 October) is an international day for global mental health education, awareness and advocacy against social stigma. It was first celebrated in 1992 at the initiative of the World Federation for Mental Health, a global mental health organization with members and contacts in more than 150 countries. The WFMH President Dr Ingrid Daniels has announced the theme for World Mental Health Day 2021 which is 'Mental Health in an Unequal World'. It will enable us to focus on the issues that perpetuate mental health inequality locally and globally. We want to support civil societies to play an active role in tackling inequality in their local areas. We want to encourage researchers to share what they know about mental health inequality including practical ideas about how to tackle this.

We are again in the midst of another global crisis that is resulting in widening health, economic and social inequalities. The 2021 World Mental Health Day campaign provides an opportunity for us to come together and act together to highlight how inequality can be addressed to ensure people are able to enjoy good mental health.

The NSS unit of KJSIEIT wishes everyone happy World Mental Health Day.

## International Day of Girl Child

Greetings,

**“You are truly blessed if you have been gifted a girl child because she has the aura to make your heart and home a happy place.”**

Every year on **October 11**, **International Day of the Girl Child** is celebrated to empower girls and amplify their voice. It acknowledges the importance, power and potential of adolescent girls by encouraging the opening up of more opportunities for them.

This day also holds importance as it eliminates the gender-based challenges that little girls face around the world, including child marriages, discrimination, violence and poor learning opportunities. This day also holds importance as it eliminates the gender-based challenges that little girls face around the world, including child marriages, discrimination, violence and poor learning opportunities.

### Theme

The theme, this year, is “Digital generation. Our generation”. Like every year, the United Nations Children's Fund (UNICEF) will celebrate International Day of the Girl Child 2021 reaffirming its pledge to promote the progress of girls and safeguard their rights.

### History Behind the celebration of this day:

International Day of the Girl Child was first achieved by the Beijing Declaration in 1995 at the World Conference on Women in Beijing.

It was the first-ever event to have identified the need for addressing issues faced by adolescent girls around the world.

International Day of the Girl Child began as a part of the non-government, international organization plan. This campaign was designed to nurture girls, especially in developing countries, to promote their rights and bring them out of poverty.

### Significance of the Celebration

Achieving gender equality and women's empowerment is an integral part of the 17 Sustainable Development Goals that UN member nations adopted in 2015. The International Day of the Girl Child holds the key to achieving this as empowering women and girls, who represent half of the world's population, is crucial to accelerating sustainable development. Nations need to pledge to assist young girls to grow into empowered women, who have access to proper healthcare, skill-based learning facilities and equal opportunities in a world free from gender-based violence and discrimination.

### What we can do to celebrate this day:

1. Actively participate in the theme
2. Share a true story on social media

The NSS unit of KJSIEIT wishes everyone Happy International Day of the Girl Child.

## Durga Ashtami

Greetings,

**Durga Ashtami** or **Maha Ashtami** is one of the most auspicious days of the five days long Durga Puja Festival. Traditionally, the festival is observed for 10 days in all Indian households but, the actual puja that takes place in the 'pandals' is held over a period of 5 days (starting from shashthi).

The eighth day of Navratri or Durga Puja celebrations is known as Durgashtami, or Durga Ashtami. It is also known as Mahashtami and is one of the most auspicious days according to Hinduism. It falls on bright lunar fortnight Ashtami tithi of Aswina month according to the Hindu calendar.

It is believed in some regions, the Goddess Chamunda appeared on this day from the forehead of Mother Durga and annihilated Chanda, Munda, and Rakthabija (the demons who were associates of Mahishasura). The 64 Yoginis and Ashta Shakti or matrikas (the eight ferocious form of Goddess Durga) are worshiped during the Durga Puja rituals on Mahashtami. The Ashta Sati, also known as Eight Shaktis, are interpreted differently in different regions of India. But ultimately, all the eight goddesses are incarnations of Shakti. They are the same powerful Divine Feminine, representing different energies.

The Ashta Shakti worshiped during Durga Puja are Brahmani, Maheswari, Kaumari, Vaishnavi, Varahi, Narasinghi, Indrani and Chamunda.

A tradition associated with Durga Ashtami originated in North India is to honor the kanyaka in the home. A group of young, unmarried girls (a group of five to seven) are invited into the home to honor them. The

tradition is based on the belief that each of these young girls (kanyaka), represents the shakti (energy) of Durga on Earth. The group of girls are welcomed by washing their feet (a common ceremony in India to welcome someone), welcoming them into the home, and then the rituals are done as Alati and Puja. After the rituals the girls are fed sweets and foods and honored with small gifts.

The NSS unit of KJSIEIT wishes everyone a Happy Durga Ashtami.

## Dussehra

Greetings,

Known as one of the most prominent festivals of the Hindu community, **Dussehra** marks the victory of Lord Rama over the demonic ruler, Ravana who kidnapped Rama's wife, Sita. Also called **Vijayadashami**, this day is celebrated after the conclusion of the **nine-day-long festival of Navratri**. Dussehra is a Sanskrit word which translates to 'ten (dasha) defeat (hara)' in English as it is known that demon King Ravana had 10 heads. According to the **Hindu calendar**, this day falls on the 10th day of the month of **Ashvina**. This year, Dussehra is observed on **15th October**.

### History and Significance:-

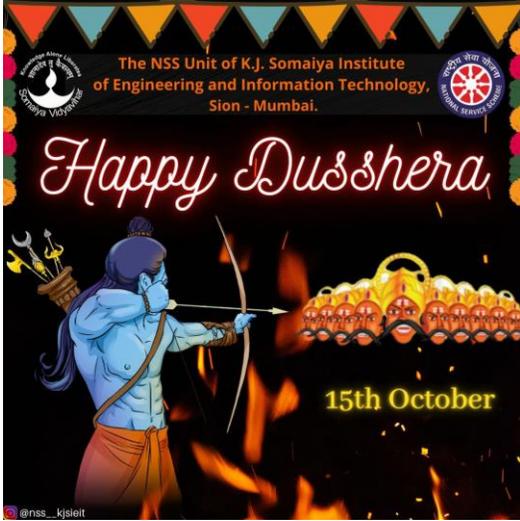

According to legends, Ravana abducted the wife of Lord Rama which led to a deadly war between them. Demonic King Ravana was given a boon of being indestructible by Lord Brahma. After several events, Rama managed to kill Ravana by shooting an arrow through his belly-button. Therefore, the 10th day of Ashvina month of the Hindu calendar is celebrated as Dussehra, every year.

There's one more legend behind this festival. According to Mahabharat, this day commemorates the victory of Arjuna who single-handedly defeated the entire Kaurava Army. Arjuna is also known as Vijaya and hence, the day he destroyed the army is referred to as the 'Vijaya Dashami'.

Many people throughout the nation celebrate this day as an occasion to honour the victory of good over evil. Devotees in the Eastern parts of India observe this day as the end of Durga Puja which begins with the festival of *Navratri*.

### Dussehra Celebrations across India:-

On this day, devotees wear new clothes and organize public festivities commemorating the victory of good over evil in the northern parts of India. Celebrated as the conclusion of the nine-day-long fast of Navratri, Dussehra is observed by organizing a theatrical enactment of Rama's life story which is called **Ram Lila**. Followed by which the effigies of Ravana, his son Meghanada and brother Kumbhakaran are set on fire in open fields throughout the nation. People in the Eastern region of India including West Bengal, Bihar and Odisha observe this day as the end of Durga Puja which is celebrated by wearing a red saree and putting on vermillion. It is observed as an emotional occasion and Bengalis sing folk songs while immersing the idols of Goddess Durga in water bodies.

The underlying spiritual significance of all these traditions behind Dussehra is the victory of good over evil and the resurgence of hope, faith.

The NSS unit of KJSIEIT wishes everyone a happy Dussehra

## World Food Day

Greetings,

**"Laughter is brightest where food is best."**

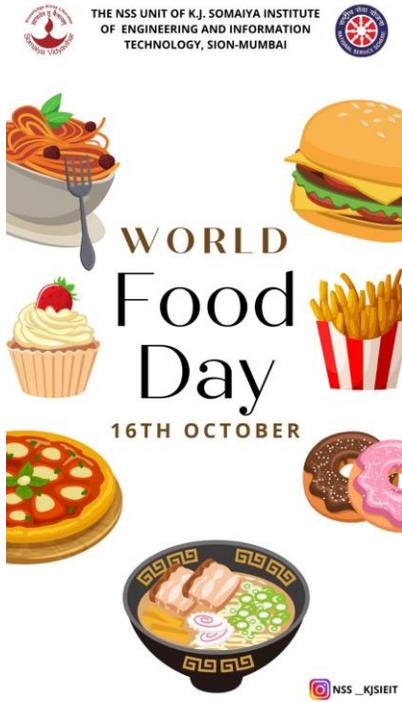

**World Food Day** is an international day celebrated every year worldwide on **16 October** to commemorate the date of the founding of the United Nations FAO. From pizza to pasta, cookies to cakes, and all of the good stuff in between, there are so many amazing dishes and ingredients for us to indulge in today, and World Food Day celebrates them all. This day is not only about celebrating the amazing food that we have the privilege of indulging in, but it is about raising awareness for people who do not have such privilege. There are people all over the world who are suffering from hunger.

World Food Day was first launched in 1945. The reason World Food Day was created was to celebrate the launch of the United Nations Food and Agriculture Organization. The main principle which World Food Day celebrates is the furtherance of food security all over the world, especially in times of crisis. The launch of the Food and Agriculture Organization by the UN has played a huge role in taking this worthy goal forward.

Every year World Food Day is celebrated with a specific theme that draws attention to hunger issues. This year the theme is – **Grow, nourish, sustain, Together**. As the impact of the COVID-19 pandemic has hit countries around the world, World Food Day calls for global solidarity to help the most vulnerable people recover and make food systems more sustainable and shock resilient.

One of the best ways to celebrate World Food Day is by giving food to people who need it the most. If you do a quick search online, you should be able to find the nearest food bank to you. Most food banks are going to accept food or money. The sort of food that is in a typical food parcel includes biscuits, tinned fruit, tea, coffee, tinned vegetables, tinned meat, beans, pasta sauce, rice, pasta, soup, and cereal. You could also volunteer your time; food banks are often looking for willing volunteers. No matter how much time you have to spare, we are sure that it will be appreciated.

The NSS unit of KJSIEIT wishes everyone a happy World Food Day.

## United Nations Day

Greetings,

**“The United Nations is our one great hope for a peaceful and free world.” - Ralph Bunche**

The **United Nations (UN) Day** is observed on **October 24** each year and marks the official establishment of the United Nations in 1945. The United Nations is an intergovernmental organisation whose primary role is to maintain world peace and security. It plays an important role in developing friendly relations among countries, achieving international cooperation and being a centre of coordination for nations.

### About the United Nations:

The UN came into existence on October 24, 1945. The name 'United Nations' was coined by the United States President Franklin D. Roosevelt and was first used in the Declaration of the United Nations on January 1, 1942, during the Second World War.

The UN had 51 members at the time of its establishment. It is currently made up of 193 Member States. Each of the 193 Member States of the United Nations is a member of the General Assembly.

The organisation has different organs: the General Assembly, the Security Council, the Economic and Social Council, the Trusteeship Council, the International Court of Justice and the UN Secretariat.

### History of UN Day:

On this day, the UN Charter was ratified by a majority of signatories, including the five permanent members of the Security Council, which led to the official establishment of the UN.

It was first celebrated on October 24, 1948. Then in 1971, the UN recommended the Member States observe it as a public holiday.

United Nations Day, on 24 October, marks the anniversary of the day in 1945 when the UN Charter entered into force. UN Day, celebrated every year, offers the opportunity to amplify our common agenda and reaffirm the purposes and principles of the UN Charter that have guided us for the past 76 years. Usually held in the General Assembly Hall of the Organization, at Headquarters in New York, a concert is held to mark UN Day. As the world begins to recover gradually from the Covid-19 pandemic, the 2021 Concert represents a call to strengthen international cooperation in the interest of both nations and peoples, for a more peaceful and prosperous future for all.

The NSS Unit of KJSIEIT wishes everyone a happy United Nations Day.

## Infantry Day

Greetings,

“**Only best of friends and worst of enemies visits us**”, the Indian army quote which truly defines itself. In late October 1947 some incident occurred which we can relate with this quote.

On 26<sup>th</sup> October 1947, the then Maharaja of Jammu and Kashmir, signed the Instrument of Accession with the Republic of India. Our neighbor, Islamic Republic of Pakistan, didn't like this act and thus wished to gain Kashmir by hook or by crook. So along with communal bloodshed, started what we call it as the first Indo-Pak war a.k.a. First Kashmir war. **27<sup>th</sup> October** marks the date of landing of an Infantry Company of the First Battalion of the Sikh Regiment airlifted from Delhi to Srinagar to liberate Kashmir from the invading tribes who were supported by Pakistan Army.

General J.J. Singh said, “We fight to win and win with a knock out because there are no runner ups in war”. Victory greeted India with honour, the war ended, but the legendary act remains till date. That era, that courage, that bravery still continues to flow in our blood. Therefore, to praise the absolute sacrifice of our infantry, **27<sup>th</sup> October** is celebrated as **Infantry Day** in India. The day is celebrated by paying tribute and singing praises in the name of our brave hearths.

“खुशनसीबहैंवोजोवतनपेमिटजातेहैं,  
मरकरभीवोलोगअमरहोजातेहैं,  
करताहूँतुम्हेसलामऐवतनपरमितनेवालो,  
तुम्हारीहरसांसमेंबसनातिरंगेकानसीबहै। “

The NSS unit of KJSIEIT wishes everyone a happy Infantry Day.

## National Ayurveda Day

Greetings,

**“The great thing about Ayurveda is that its treatments always yield side benefits, not side effects.”**

National Ayurveda Day is celebrated every year on the day of Dhanteras. Lord Dhanvantari is believed to be the god of Ayurveda and healing and according to beliefs, Lord Dhanvantari originated during Samudra Manthan.

Dhanwantari Jayanti, the birthday of Lord Dhanwantari is celebrated on the 13th lunar day in Aswini Month. It is believed that on this day, Lord Dhanwantari emerged with Amurutha Kalasam. Lord Dhanvantari is an Avatar of Lord Vishnu. He appears in the Vedas and Puranas as the physician of the gods and the god of Ayurvedic medicine. Lord Dhanvantari is considered a divine propagator of Ayurveda. He is conferred with the virtues of granting health and wealth. Therefore, Dhanvantari Jayanti was preferred for the celebration of Ayurveda Day to nationalize this system of medicine.

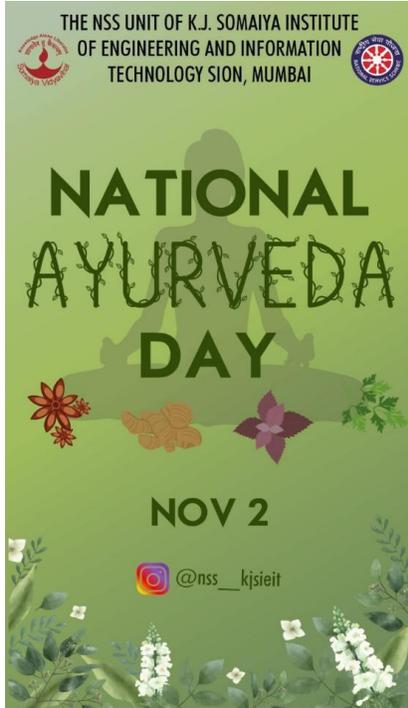

## National Ayurveda Day

Nov 2

[@NSS\\_KJSEIT](#)

Ayurveda is perceived as one of the most ancient and well-documented system of medicine equally relevant in modern times. Its holistic approach whether for healthy individuals or for diseased ones remains unparalleled. Prevention of disease and promotion of health is the main aim of Ayurveda. Lord Dhanvantari is considered the divine propagator of Ayurveda. He is conferred with the virtues of granting health and wealth. Therefore, Dhanvantari Jayanti was preferred for the celebration of Ayurveda Day to nationalize this system of medicine which can prove to be a cornerstone for its ultimate globalization.

Objectives of Ayurveda Day:

- An attempt to further promote Ayurveda into mainstream
- Focus on the strengths of Ayurveda and its unique treatment principles.
- Reduce the burden of disease and related morbidity and mortality by utilizing the potential of Ayurveda.
- Exploring the potential of Ayurveda to contribute towards National health policy & National Health programs.
- Create a sense of awareness in today's generation and promote Ayurvedic principles of healing in society.

The NSS unit of KJSIEIT wishes everyone a happy National Ayurveda Day.

## Diwali

Greetings,

**“Diwali, the festival of light, brings joy and prosperity in our lives. Wish you a very happy Diwali!”**

Diwali, the festival of lights and one of the most important Hindu festivals, is almost here and people have started the preparations for it. A festival that goes beyond cultures and religions, Diwali marks the triumph of good over evil and light over darkness.

The entire country is soaked in the festive spirit and people decorate their houses with rangolis, colourful earthen lamps, candles, lanterns and give wonderful presents to their near and dear ones. What makes Diwali even more special is that this glittering festival continues for five consecutive days- Dhanteras, Naraka Chaturdasi (Choti Diwali), Lakshmi Puja (Diwali), Govardhan Puja and Bhai Dooj. This year, Diwali is celebrated on November 4, 2021, and as per Hindu mythology, it is observed on the day of Amavasya of Krishna Paksha in Kartik month.

### Auspicious Days Of Diwali Festival:-

**Dhanteras:** Dhanteras, also called Dhantrayodashi, is being observed across the country on Tuesday, November 2, 2021. People worship Lord Kubera and Goddess Lakshmi and buy something new on this day. Considered very auspicious, people purchase gold, silver, clothes, gadgets as a sign of good fortune. This day is purely dedicated to the goddess of wealth and it is also believed that Goddess Lakshmi emerged with a pot of gold during 'Amrit-Manthan'.

**Naraka Chaturdasi:** Naraka Chaturdasi, the second day, also known as Choti Diwali, will be celebrated on Wednesday, November 3, 2021, which is also the 14th day of the Kartik month. According to Hindu tradition and mythology, it is believed that Lord Krishna fought the demon Narakasura and killed him. On Choti Diwali, people wake up early in the morning, apply aromatic oils and bathe with ritualistic scrubs. They wear new clothes, light lamps and diyas and offer puja in the evening.

**Lakshmi Puja:** The main festive day is Diwali, when people perform Lakshmi Pujan. The main celebration of Diwali takes place on this day and Lord Rama returns to Ayodhya after killing Ravana. People welcome Goddess Lakshmi, the goddess of wealth, who is believed to bless people with luck and prosperity. Lord Ganesha is also worshipped on this auspicious day and people decorate the entire

house with diyas, candles, lights, earthen lamps. Delicious sweets are prepared and gifts are exchanged and people celebrate the evening with joy, happiness, prayers and laughter.

**Govardhan Puja:** Govardhan Puja is celebrated a day after Diwali and people worship Lord Krishna on this day. People believe that Lord Krishna saved the residents of Mathura from Lord Indra by lifting a mountain named 'Govardhan'. People make miniature clay and cow-dung, symbolising Govardhan and worship them. They also prepare 56 varieties of vegetarian food and drinks for Lord Krishna as a gesture of gratitude.

**Bhai Dooj:** The last and final day is called the Bhai Dooj or Bhau Beej, which celebrates the special bond of brothers and sisters. It is celebrated on the second day of the Shukla Paksha of the lunar calendar and is similar to Rakshabandhan. On Bhai Dooj, sisters put a tilak on their brothers' forehead and pray for their long and happy life. Sisters also prepare a luscious feast for their brothers on this occasion. Siblings get together on this auspicious occasion and exchange presents, sweets and blessings and this marks the end of the five-day long celebration of joy, lights and radiance.

Diwali is the festival of lights which signifies the victory of good over evil and the eradication of dark shadows, negativity, and doubts from our lives. It is a celebration of prosperity in which people give gifts to their loved ones. The festival also sends the message of illuminating our inner selves with clarity and positivity.

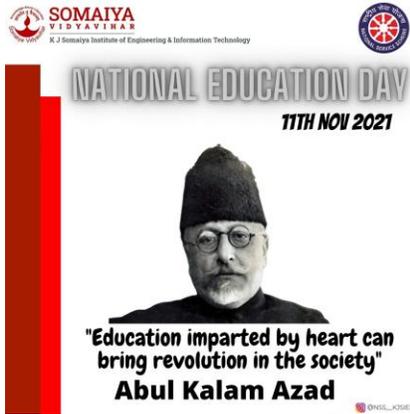

The NSS Unit of KJSIEIT wishes everyone a very happy Diwali!!!

# National Education Day

Greetings,

**"Education is the passport to the future, for tomorrow belongs to those who prepare themselves today."**

**National Education Day** is an annual observance in India to commemorate the birth anniversary of Maulana Abul Kalam Azad, the first education minister of independent India, who served from 15 August 1947 until 2 February 1958. National Education Day of India is celebrated on **11 November** every year.

The Ministry of Human Resource Development announced on 11 September 2008, "The Ministry has decided to commemorate the birthday of this great son of India by recalling his contribution to the cause of education in India. November 11 every year, from 2008 onwards, will be celebrated as the National Education Day, with declaring it as a holiday." All educational institutions in the country mark the day with seminars, symposia, essay-writing, elocution competitions, workshops and rallies with banner cards and slogans on the importance of literacy and the nation's commitment to all aspects of education.

The day is also seen as an occasion to remember Azad's contribution in laying the foundations of the education system in an independent India, and evaluating and improving the country's current performance in the field.

For his contribution – both as an educationist and as a freedom fighter – Maulana Abul Kalam Azad was awarded the Bharat Ratna in 1992.

Azad strongly advocated for the education of women. In 1949, in the Central Assembly, he emphasised the importance of imparting instruction in modern sciences and knowledge. He also said that no programme of national education can be appropriate if it does not give full consideration to the education and advancement of one-half of the society – that is the women.

The NSS unit of KJSIEIT wishes everyone happy National Education Day.

## Children's Day

Greetings,

**“The children of today will make the India of tomorrow. The way we bring them up will determine the future of the country.” – Jawaharlal Nehru**

**Children's Day** is celebrated each year on the birth anniversary of India's first prime minister **Jawaharlal Nehru**, which is on **November 14**. Children's Day is celebrated as a tribute to Nehru. Nehru, fondly called 'Cha-cha Nehru' was born on November 14, 1889. He was known for his affection for kids.

Children's Day is celebrated to increase awareness on the rights and education of children every year. Nehru considered children the real strength of a nation and foundation of society. India has been celebrating Children's Day from 1956 but then it was celebrated on November 20. After the death of the prime minister, his birth anniversary was chosen as the date for Children's Day in India.

The nation usually celebrates Children's Day with educational and motivational programs held across India, by and for children.

The real essence of children's day is to understand the importance of childhood in our lives. The principles and disciplines learned as a child are responsible for what he or she becomes in the future, thus childhood should be celebrated.

On this day, schools and colleges organize various programs like plays, competitions, cultural events etc., and sweets, books, stationary and other gifts are distributed to children. Also, November 20 is celebrated as the Universal Children's Day, as declared by the United Nations.

On this very special day, let us all celebrate the innocence and purity of our kids. Let them feel precious in every way that we can. Because they are our future!

The NSS unit of KJSIEIT wishes everyone a happy Children's Day.

# National Press Day

Greetings,

**“Our liberty depends on the freedom of the press, and that cannot be limited without being lost” - Thomas Jefferson**

The National Press Day on November 16 every year is commemorated in befitting manner by the Council. The Press Council of India was established and the body that was evolved since November 16, 1966 has not belied the objective. November 16 therefore personifies a responsible and free press in the country. All those who cherish it, so commemorate the day.

16 November acts as a reminder to governments of the need to respect their commitment to press freedom and is also a day of reflection among media professionals about issues of press freedom and professional ethics. Just as importantly, National Press Day is a day of support for media which are targets for the restraint, or abolition, of press freedom. It is also a day of remembrance for those journalists who lost their lives in the pursuit of a story.

“Information as a Public Good” serves as a call to affirm the importance of cherishing information as a public good, and exploring what can be done in the production, distribution and reception of content to strengthen journalism, and to advance transparency and empowerment while leaving no one behind

On Account of National press it is an opportunity for us :

- To celebrate the fundamental principles of press freedom;
- To assess the state of press freedom throughout the world;
- To defend the media from attacks on their independence;
- And to pay tribute to journalists who have lost their lives in the line of duty.

The NSS unit of KJSIEIT wishes everyone Happy National Press Day.

## National Cadet Corps Day

Greetings,

The **National Cadet Corps** (NCC) is the youth wing of the Indian Armed Forces with its headquarters in New Delhi, India. It is open to school and college students on voluntary basis as a Tri-Services Organisation, comprising the Army, the Navy and the Air Wing, engaged in grooming the youth of the country into disciplined and patriotic citizens. The soldier youth foundation in India is a voluntary organization which recruits cadets from high schools, higher secondary, colleges and universities all over India. The Cadets are given basic military training in small arms and drill. The officers and cadets have no liability for active military service once they complete their course.

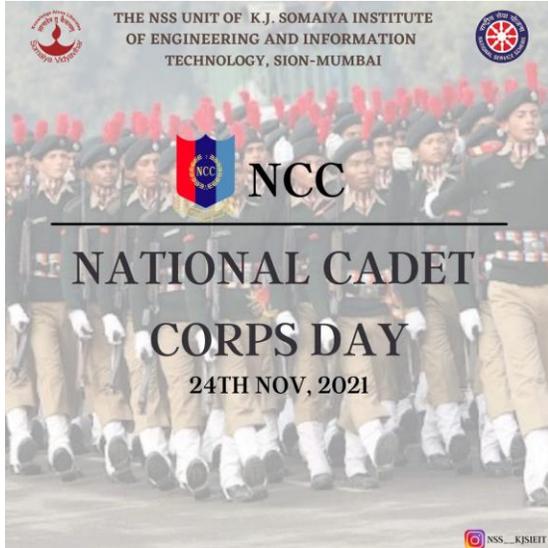

**NATIONAL CADET CORPS DAY**  
24th NOVEMBER, 2021

 @NSSL\_KJSIET

The NCC in India was formed by the Act of 1950 . It can be traced back to the 'University Corps', which was created under the Indian Defence Act 1917, with the objective to make up for the shortage in the Army. In 1920, when the Indian Territorial Act was passed, the 'University Corps' was replaced by the University Training Corps (UTC). The aim was to raise the status of the UTC and make it more attractive to the youth.

During Indo-Pakistani war of 1965 & Bangladesh-Pakistani war of 1971, NCC cadets were the second line of defence. They organized camps to assist ordnance factories, supplying arms and ammunition to the front and also were used as patrol parties to capture enemy paratroopers. The NCC cadets also worked hand in hand with the Civil defense authorities and actively took part in rescue works and traffic control.

The discussion for the motto of NCC was started in the 11th central advisory meeting (CAC) held on 11 August 1978. At that time there were many mottos in mind like "Duty and Discipline"; "Duty, Unity and Discipline"; "Duty and Unity"; "Unity and Discipline". Later, at the 12th CAC meeting on 12 Oct 1980 they selected and declared "Unity and Discipline" as motto for the NCC. In living up to its motto, the NCC strives to be and is one of the greatest cohesive forces of the nation, bringing together the youth hailing from different parts of the country and molding them into united and disciplined citizens of the nation.

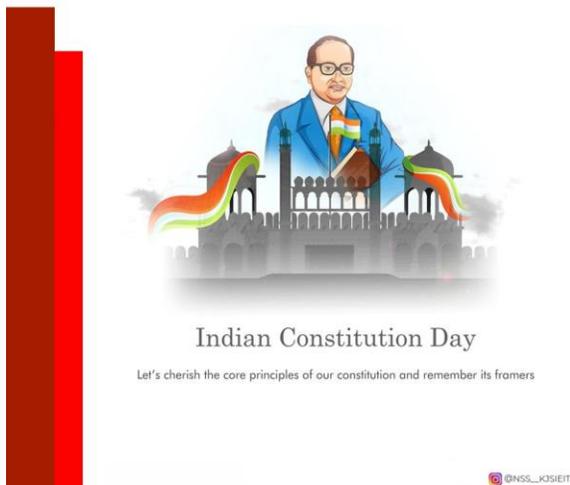

The NSS unit of KJSIET wishes everyone happy National Cadet Corps Day.

## Samvidhan Divas

Greetings,

**Constitution Day** (or **Samvidhan Divas**), also known as **National Law Day**, is celebrated in India on **26 November** every year to commemorate the adoption of the Constitution of India. On 26 November 1949, the Constituent Assembly of India adopted the Constitution of India, and it came into effect on 26 January 1950.

The Government of India declared 26 November as Constitution Day on 19 November 2015 by a gazette notification. The Prime Minister of India Narendra Modi made the declaration on 11 October 2015 while laying the foundation stone of the B. R. Ambedkar's Statue of Equality memorial in Mumbai. The year of 2015 was the 125th birth anniversary of Ambedkar, who had chaired the drafting committee of the Constituent Assembly and played a pivotal role in the drafting of the constitution. Previously this day was celebrated as Law Day. 26 November was chosen to spread the importance of the constitution and to spread thoughts and ideas of Ambedkar.

Constitution Day is not a public holiday. Various departments of the Government of India celebrated the first Constitution day. As per the Department of Education and Literacy, the preamble of the constitution was read in all schools by all students. In addition, there were quiz and essay competitions both online and offline on the subject of the constitution of India. There was a lecture on salient features of the constitution in each school. The Department of Higher Education requested various universities to arrange mock parliamentary debates in colleges, and the University Grants Commission (UGC) arranged an all-India quiz competition at Ambedkar University, Lucknow, where quiz winners of all states participated.

THE NSS UNIT OF KJ SOMAIYA INSTITUTE OF  
ENGINEERING AND INFORMATION TECHNOLOGY,  
SION-MUMBAI

### NATIONAL CONSTITUTION DAY

Indian Constitution-117,369 words hold the essence and well-being of our country

 @NLS\_KSIEIT

The Ministry of External Affairs directed all overseas Indian schools to celebrate 26 November as Constitution Day and directed embassies to translate the constitution into the local language of that nation and distribute it to various academies, libraries and faculties of Indology. The work of translating the Indian constitution into Arabic has been completed. The Department of Sport arranged a symbolic run named "Run for Equality". There was also a special session of Indian parliament on 26 November 2015 to give tribute to the constitution and Ambedkar. The Parliament House complex was also illuminated on this occasion.

The NSS unit of KJSIEIT wishes everyone a happy Constitution Day of India.

## World AIDS Day

Greetings,

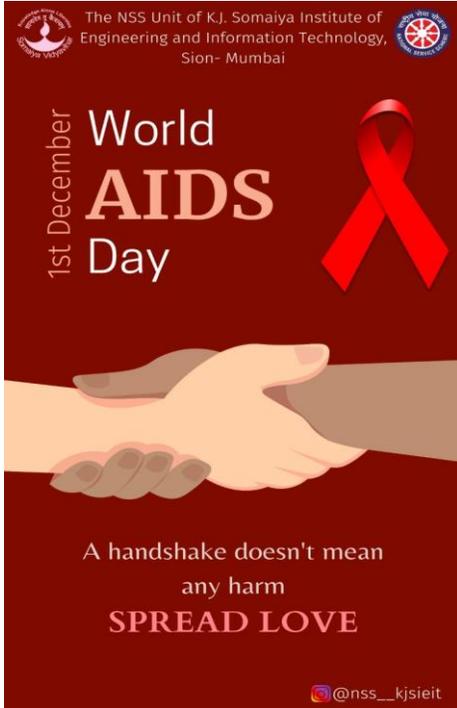

**World AIDS Day** was first observed in 1988. Each year, organizations and individuals across the world bring attention to the HIV epidemic, endeavor to increase HIV awareness and knowledge, speak out against HIV stigma, and call for an increased response to move toward Ending the HIV Epidemic in the U.S. In its first two years, the theme of World AIDS Day focused on children and young people. While the choice of this theme was criticized at the time by some for ignoring the fact that people of all ages may become infected with HIV, the theme helped alleviate some of the stigma surrounding the disease and boost recognition of the problem as a family disease.

Campaign became an independent organization. The Joint United Nations Programme on HIV/AIDS (UNAIDS) became operational in 1996, and it took over the planning and promotion of World AIDS Day. Rather than focus on a single day, UNAIDS created the World AIDS Campaign in 1997 to focus on year-round communications, prevention and education. In 2004, the World AIDS

The theme of World AIDS Day 2021 is “End inequalities. End AIDS”. With a special focus on reaching people left behind, WHO and its partners are highlighting the growing inequalities in access to essential HIV services.

In the US, the White House began marking World AIDS Day with the iconic display of a 28 foot (8.5 m) AIDS Ribbon on the building's North Portico in 2007. White House aide Steven M. Levine, then serving in President George W. Bush's administration, proposed the display to symbolize the United States' commitment to combat the world AIDS epidemic through its landmark PEPFAR program. The White House display, now an annual tradition across four presidential administrations, quickly garnered attention, as it was the banner, sign or symbol to prominently hang from the White House since the Abraham Lincoln administration.

As of 2017, AIDS has killed between 28.9 million and 41.5 million people worldwide, and an estimated 36.7 million people are living with HIV, making it one of the most important global public health issues in recorded history. Thanks to recent improved access to antiretroviral treatment in many regions of the world, the death rate from the AIDS epidemic has decreased since its peak in 2005 (1 million in 2016, compared to 1.9 million in 2005).

The NSS unit of KJSIEIT wishes everyone a safe World Aids Day.

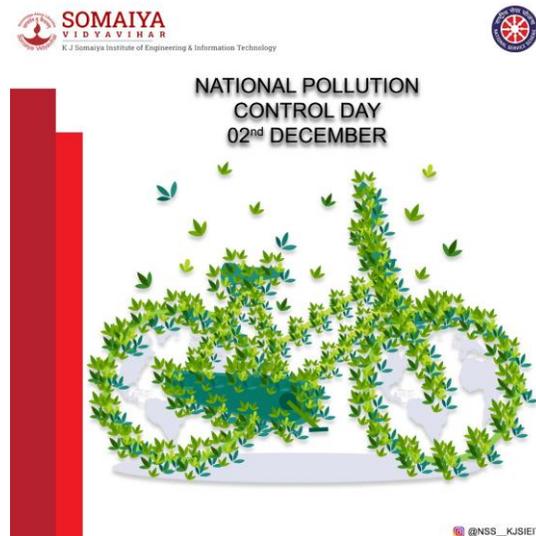

## National Pollution Control Day

Greetings,

**"The earth we abuse and the living things we kill will, in the end, take their revenge; for in exploiting their presence we are diminishing our future." -Marya Mannes**

Environmental pollution, directly and indirectly, affects the quality of life more than one can imagine. All this is mainly caused by human activities which harm the environment in more than one. Nowadays pollution prevention is a major global concern because everyone on the earth is entitled to clean air to breathe, water to drink, and to enjoy public lands.

**December 2** is observed as **National Pollution Control Day** every year. The day is observed in the memory of those who have lost their lives in the Bhopal Gas tragedy on the night of December 2nd and 3rd, 1984. Many people died due to the poisonous gas Methyl Isocyanate also known as MIC. Bhopal Gas Tragedy is considered as one of the biggest industrial pollution disasters.

According to the National Health Portal of India, every year around 7 million people globally die due to air pollution, 4 million of whom die from indoor air pollution. The pollution level is so high that nine of ten people globally do not have access to safe air. Notably, the pollutants present in the air are so tiny that it can pass through mucous membranes and other protective barriers to damage the lungs, heart, and brain. However, to mark this day here are some quotes that you can share with your friends and family and inspire them to fight against pollution. You can even share these quotes on social media platforms like Facebook, Instagram, Twitter, WhatsApp status etc.

The theme of National Pollution Control Day 2021 is like any other year - raise awareness about the importance of pollution control and educate people on how to prevent pollution.

**Objectives of the day:**

- To spread awareness on managing and controlling industrial disasters
- To prevent the pollution produced by industrial processes or human negligence
- To make people and industries aware about the importance of pollution control acts

The NSS unit of KJSIEIT wishes everyone a happy National Pollution Control Day.

## Indian Navy Day

Greetings,

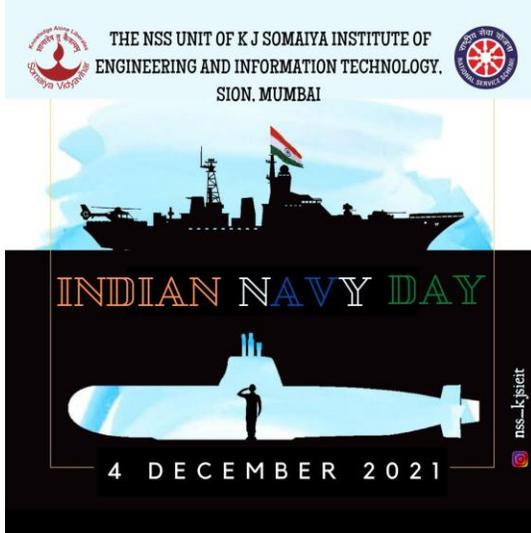

**“Freedom in mind & words, Pride in our hearts, Memories in our souls, Let’s salute the nation on navy day!!”**

**Indian Navy Day** is celebrated on **4 December** every year to recognize the achievements and role of the Indian Navy to the country. 4 December was chosen as on that day in 1971, during Operation Trident, the Indian Navy sank four Pakistani vessels including PNS Khaibar, killing hundreds of Pakistani Navy personnel. On the night of December 4-5, 1971, the Indian Navy planned the attack at night as Pakistan did not have aircraft's that could carry out bombings at night.

The Indian Navy is the naval branch of the Indian Armed Forces and is led by the President of India as Commander-in-Chief. The Maratha Emperor, Chatrapati Shivaji Maharaj is considered as "Father of the Indian Navy". The Indian Navy has an important role in securing the marine borders of the country as well as enhancing the international relations of India through seaport visits, joint exercises, humanitarian calamity relief and so on.

The modern Indian Navy has undergone speedy renovation in order to improve its position in the Indian Ocean region. The strength of the Indian Navy includes over 67,000 personnel and about 150 ships and submarines.

It is celebrated using a particular theme (like "Safe Seas and Secure Coasts for a strong Nation") of the year: Theme for 2021 is, "Indian Navy Combat Ready, Credible & Cohesive".

The Motto of Indian Navy is शं नो वरुणः (Sanskrit) '**May the Lord of Water be auspicious unto us**'.

The NSS unit of KJSIEIT wishes everyone happy Indian Navy Day.

## International Anti-Corruption Day

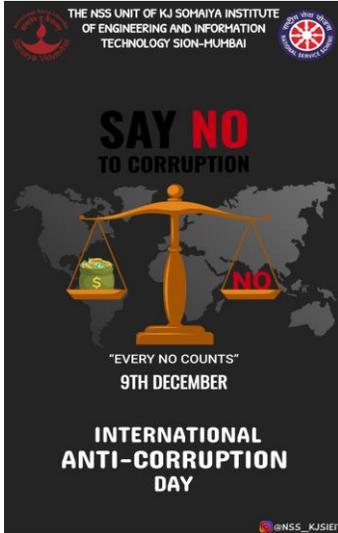

Greetings,

**“Integrity, transparency and the fight against corruption have to be part of the culture. They have to be taught as fundamental values.” — Angel Gurría**

**December 9** has been observed as **International Anti-Corruption Day** since 2003 when the UN passed the Convention Against Corruption is an issue that has toppled governments and started revolutions. There are several policies to keep this malicious act in control to protect the sovereignty of institutions in a country.

It is marked to raise public awareness about the issue of corruption. This year, the concern is that corruption is flourishing more due to the Covid-19 pandemic. Corruption affects all areas of society. Preventing corruption unlocks progress towards the Sustainable Development Goals, helps protect our planet, creates jobs, achieves gender equality, and secures wider access to essential services such as healthcare and education. The 2021 International Anti-Corruption Day seeks to highlight the rights and responsibilities of everyone - including States, Government officials, civil servants, law enforcement officers, media representatives, the private sector, civil society, academia, the public and youth - in tackling corruption.

The importance of more open and transparent public procurement should be emphasized, and there should be enhanced anti-corruption compliance by the private sector. To protect your rights, you need to be aware of the role you play and responsibilities you have in the fight against corruption.

The NSS unit of KJSIEIT wishes everyone a happy International Anti-Corruption Day.

# Human Rights Day

Greetings,

**"To deny people their human rights is to challenge their very humanity" -Nelson Mandela**

**Human Rights Day** is observed every year on **10 December** — the day the United Nations General Assembly adopted, in 1948, the Universal Declaration of Human Rights (UDHR). The UDHR is a milestone document, which proclaims the inalienable rights that everyone is entitled to as a human being - regardless of race, colour, religion, sex, language, political or other opinion, national or social origin, property, birth or other status. Available in more than 500 languages, it is the most translated document in the world. The date was chosen to honor the United Nations General Assembly's adoption and proclamation, on 10 December 1948, of the Universal Declaration of Human Rights (UDHR), the first global enunciation of human rights and one of the first major achievements of the new United Nations.

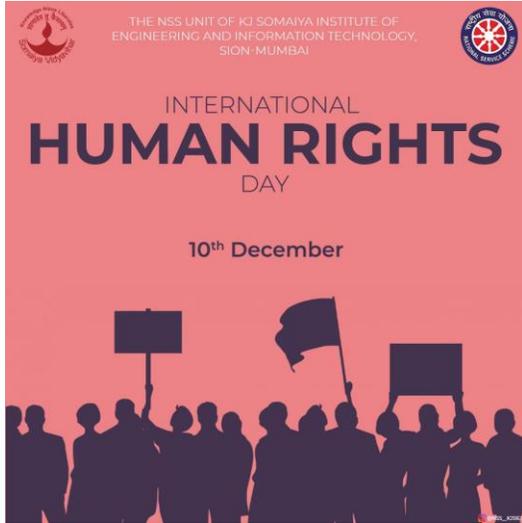

## Theme for Human Rights Day 2021:

According to the UN website, the theme for Human Rights Day 2021 is **“EQUALITY - Reducing inequalities, advancing human rights”**. The principles of equality and non-discrimination are at the heart of human rights. Equality is aligned with the 2030 Agenda and with the UN approach set out in the document Shared Framework on Leaving No One Behind: Equality and Non-Discrimination at the Heart of Sustainable Development. This includes addressing and finding solutions for deep-rooted forms of discrimination that have affected the most vulnerable people in societies, including women and girls, indigenous peoples, people of African descent, LGBTI people, migrants and people with disabilities, among others.

Equality, inclusion and non-discrimination, in other words - a human rights-based approach to development - is the best way to reduce inequalities and resume our path towards realising the 2030 Agenda.

## Significance of Human Rights Day:

Human Rights Day is important as there is a deepening poverty, rising inequalities, structural and entrenched discrimination, and other gaps in human rights protection. It is only possible to close these gaps and advance human rights by ensuring to build a world that is better, more resilient, just, and sustainable.

**Things to be done on Human Rights Day:**

- Hold a candlelight vigil or other commemorative event
- Hand out t-shirts and other gear: If you have the funds, buy t-shirts, sunglasses, or even 90's-style sweatbands featuring a slogan about human rights to give to your classmates.
- Stage a public reading: If the weather's right outside read the Universal Declaration of Human Rights in full to spread awareness.
- Take a pledge to always protect Human Rights

Your involvement and support will help to ensure greater impact for International Human Rights Day, increasing recognition worldwide that violation of Human Rights is also one of the critical issues that the world faces and we all need to stand together in order to protect these rights.

The NSS unit of KJSIEIT wishes everyone a happy Human Rights Day.

## Vijay Diwas

Greetings,

**Vijay Diwas** is observed every year on **December 16** as a mark of victory over Pakistan in the 1971 war that also led to the creation of Bangladesh.

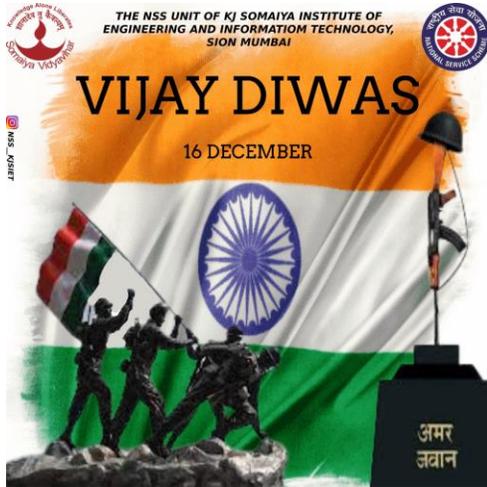

### History of Vijay Diwas

The 1971 Indo-Pak war lasted for almost 13 days and ended on December 16. Pakistan's Army General Amir Abdullah Khan Niazi surrendered before the Indian Army and Mukti-Bahini leading to the creation of a new state in India's east called Bangladesh. Gen. Niazi surrendered along with his 93,000 Pakistani troops. Bangladesh also celebrates its Independence Day (Bijoy Diwas) on December 16 annually. Since then, the day is observed as Vijay Diwas.

### Importance of Vijay Diwas

On this day, the nation pays tribute to brave soldiers of India and Bangladesh who laid down their lives in the line of duty and those who took part in the Liberation War. The 'liberation war' in the then East Pakistan was initiated after Pakistan ill-treated its Bengali speaking population and undermined election results in the region. The then Indian Prime Minister Indira Gandhi had expressed India's full support for the liberation war in Bangladesh.

On 16 December every year, Citizens, senior officials, students & war veterans lay wreaths and remember the sacrifices of the soldiers. On this day 16th December is observed in Bangladesh and India. Every Year on this day people of Bangladesh shower's their respect to Freedom fighters, Martyrs & Birangonas (A term used to refer to Women Freedom Fighters).

A proud moment for the Indian army, this was their first conclusive win after the end of World War 2. It is also quite a big day for Bangladesh, as it earned status as an independent entity. The day is celebrated in Bangladesh as 'Bijoy Dibos.'

The NSS Unit of KJSIEIT wishes everyone a proud Vijay Diwas.

## National Mathematics Day

Greetings,

**"Without mathematics, there's nothing you can do. Everything around you is mathematics. Everything around you is numbers." - Shakuntala Devi**

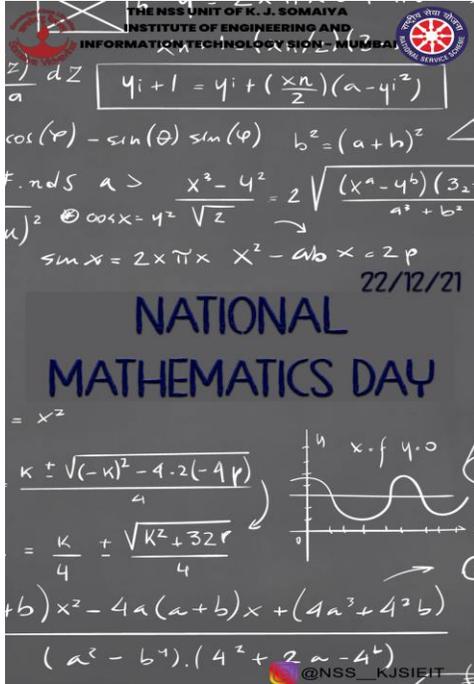

Mathematics seems to have acquired an independent identity as an intellectual discipline early on in human history. This identity became more sharply defined in the second half of the millennium before Christ, thanks to major developments in Greece. In this period, India too made great strides in mathematics, though in ways very different from the Greeks. In the early centuries of the Common Era, India was in fact in the lead in mathematical developments. Aryabhata in the fifth century, followed by Brahmagupta in the next are reckoned to be among the all-time great mathematicians. And we taught the world to think of zero as a number and the modern way of representing all numbers with 10 symbols. Indian mathematics remained in the forefront for almost a thousand years following Aryabhata.

India is the land where many famous mathematicians have been born, and with their significant skills achieved a name in history books. Even after they are no more their works are very much useful in our life as well and make us remember them. On 22 December 2011 Prime Minister Manmohan Singh, during his speech at Madras University, announced that 2012 would be celebrated as the National Mathematics Year.

In 2012, the former Prime Minister of India, Dr. Manmohan Singh, paid tribute to Srinivasa Ramanujan at a function organized on the occasion of the birth anniversary of the great mathematician Srinivasa Iyengar Ramanujan in Chennai. **22 December** was declared as **National Mathematics Day**. Thus, on 22 December 2012, National Mathematics Day was celebrated across the country for the first time.

Over more than the last three decades many of our young men and women with a natural ability in mathematics have not pursued the discipline at advanced levels. This has also resulted in a decline in the quality of our mathematics teachers both at the school and college levels. There is a general perception in our society that the pursuit of mathematics does not lead to attractive career opportunities. This perception must change. This perception may have been valid some years ago but today there are many new career opportunities available to mathematicians, and the teaching profession itself has become much more attractive in recent years.

The mathematical community has a duty to find out ways and means to address the shortage of top quality mathematicians in our country. It must reach out to the public particularly in the modern context where mathematics has tremendous influence on every kind of human behavior.

The NSS unit of KJSIEIT wishes everyone a very happy National Mathematics Day.

## Kisan Divas

Greetings,

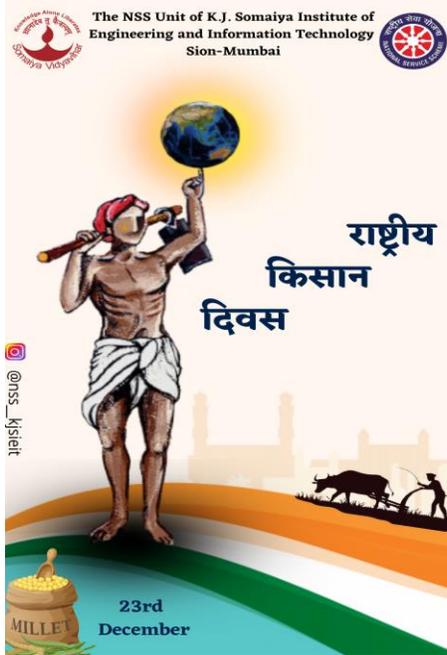

**“If agriculture goes wrong, nothing else will have a chance to go right in the country.”** - M. S. Swaminathan

The **National Farmers Day** in India is also known as **Kisan Divas**, is celebrated across the country on **December 23** to honor India's farmers and mark the birth anniversary of the 5<sup>th</sup> Prime Minister of India, Choudhary Charan Singh, also a farmer's leader, who introduced many policies to improve the lives of the Indian farmers. Farmer's Day is an annual observance to celebrate the national contributions of farmers and agriculture.

Farmers are the backbone of society. They are the ones who work around the clock and the year to ensure that people don't starve and die of hunger but they themselves struggle for 2 square meals a day. Therefore to promote awareness to help and reward farmers for their contributions to society Farmers day is celebrated every year. Especially in those states which are actively engaged in farming such as Uttar Pradesh, Punjab, Haryana, Madhya Pradesh among others.

National Farmers Day is observed as a public holiday in Uttar Pradesh. While, throughout India, seminars and talks are held at various levels to come up with solutions for prominent farming issues. Government officials conduct workshops to create awareness about new farming techniques and the latest financial schemes on the national farmers' day.

The NSS unit of KJSIEIT wishes everyone a proud National Farmers Day.

## Merry Christmas

Greetings,

“Peace on earth will come to stay when we live Christmas every day.”

**Christmas** is celebrated every year on **December 25**. The festival marks the celebration of the birth anniversary of **Jesus Christ**. Jesus Christ is worshiped as the Messiah of God in Christian Mythology. Jesus Christ was born during the life and reign of Herod the Great who ruled Palestine at the end of the 1st Century B.C. on the 25th of December, which is celebrated by Christians every year in remembrance of the day Jesus Christ was born. Jesus was born in the town of Bethlehem in Judea by Virgin Mary in a manger. Joseph was the father of Jesus.

The angel who appeared to the shepherds the night of Jesus's birth said, “I bring you good news that will cause great joy for all the people. Today in the town of David a Savior has been born to you; he is the Messiah, the Lord”. We celebrate Christmas because, as the angel said, the birth of Jesus Christ is “good news.” Good news is meant to be celebrated. In fact, the angel said the news of Jesus’ birth would cause “great joy” and would be “for all the people”—the joyful celebration would be universal. People around the globe would be glad for this occasion.

Christmas is a festival full of culture and tradition. The festival entails a lot of preparations. Preparations for Christmas start early for most people. Preparations for Christmas involve a lot of things including buying decorations, food items, and gifts for family members and friends. People usually wear white or red coloured outfits on the day of Christmas. The celebration begins with decorating a Christmas tree. Christmas tree decoration and lighting are the most important part of Christmas. The Christmas tree is an artificial or real pine tree that people adorn with lights, artificial stars, toys, bells, flowers, gifts, etc. People also hide gifts for their loved ones. Traditionally, gifts are hidden in socks under the tree. It is an old belief that a saint named Santa Claus comes on the night of Christmas eve and hides presents for well-behaved kids. This imaginary figure brings a smile to everyone’s face.

Christmas is a time to be thankful for all the beautiful people in your life and to express your love to them. What's more, research suggests that gratitude may actually be good for your health.

The NSS unit of KJSIEIT wishes everyone a Merry Christmas.

## New Year

Greetings,

**“New year is the glittering light to brighten the dream-lined pathway of the future.”** - Munia Khan

**"New Year's Eve** (also known as **Old Year's Day** or Saint Sylvester's Day (in many countries)), the last day of the year, is on **31st December**.

In many countries, New Year's Eve is celebrated at evening parties, where many people dance, eat, drink, and watch or light fireworks. Some Christians attend a night service. The celebrations generally go on past midnight into New Year's Day, 1st January.

On New Year's Day, when the singing, fireworks, and champagne toasts are over, many of us become more serious about life. We take stock and plan new courses of action to better our lives. This is best seen in one of the most popular customs and the key to the meaning of New Year's: making resolutions.

Another new 365-day journey begins with New Year's Eve being the first day. Though we live the same life with just a set of new resolutions made to break later, we tend to believe that it is a new start. If you ask us why the new year is celebrated, then we answer that the meaning behind celebrating New Year is not just about welcoming a brand new year successfully and making easily breakable resolutions or promises, there is a hidden meaning to it.

The Importance of The New Year Celebration is that New Year celebrations hold a greater significance. Not just in this modern era, but from decades and decades back it holds its significance tight. Whatever tradition or culture we follow on a New Year's day, let that be fireworks, dining, rituals, resolutions, etc, the only intention is that they gain well through that will help them have a prosperous year ahead. The only big belief here is that the things we do and the emotions we go through on the New Year will have a great impact on the days to follow in the year. So, the first day of the year is always celebrated with much pomp by everyone.

The NSS unit of KJSIEIT wishes everyone a Happy New Year!

## National Technology Day

Greetings,

**“You never change things by fighting the existing reality, To change something, build a new model that makes the existing model obsolete” - Buckminster Fuller**

**National Technology Day on January 6th** recognizes the way technology changes the world and looks to the future of technology. From the wheel to smartphones, every year commemorates the achievements of scientists, researchers, engineers, and all others involved in the field of science and technology. It's a day to remind us about the technological advancements made by the country.

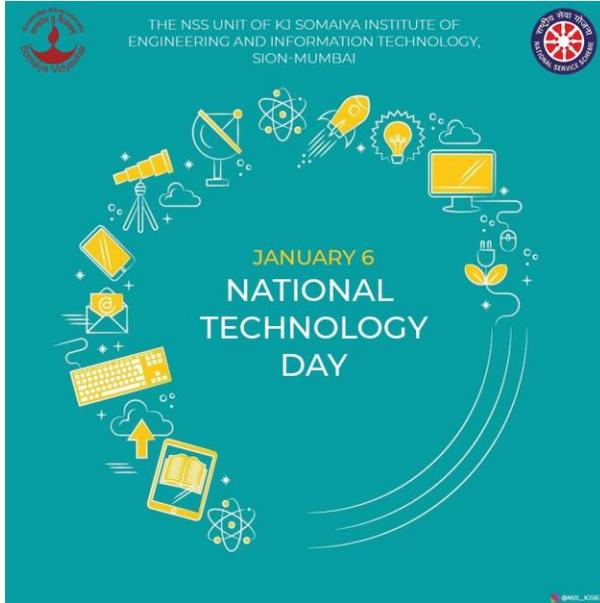

The origin of technology is as old as mankind. It will be irrational to assume that technology is a magic wand that changed the world in a day. The National Technology Day was founded in **2016** by **AXEL**, a leading technology-based company located in Las Vegas to appreciate all that technology has contributed so far.

The key objective of this Day is to promote the development of technology in various fields. Also for this, the Department has been generating technology development projects which include materials, devices, and processes.

Several programs are organized in advanced or emerging areas and in traditional sectors to support technological activities. Under this program, fresh ideas or concepts are also assessed so that they can be used in the product or technology.

With observation and experimentation, man discovered new ways and invented new mechanisms to solve the problems that thronged their community. However, we should not forget the insatiable heart of man either. Although technological inventions are usually made by individuals or groups of individuals, their execution calls for numerous hands and thus numerous jobs for people. It has made various industries thrive and scale their profits.

Modern technology has emerged as the key for saving human lives today through inventing COVID-19 vaccines or instruments for artificial oxygen for patients counting their breadths. Therefore, we can say that this day glorifies the importance of science in day-to-day life and motivates us to adopt science as a field of career.

The NSS unit of KJSIEIT wishes everyone a very Happy National Technology Day.

## National Youth Day

Greetings,

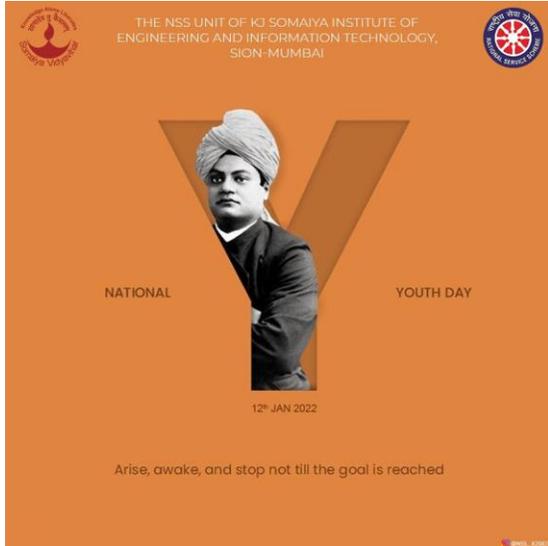

**“Take risks in your life  
If you win; you may lead...  
If you lose; you may guide”**  
- Swami Vivekananda

**National Youth Day** is celebrated on **January 12**, every year in India to honor the birth anniversary of **Swami Vivekananda**, one of India's greatest leaders and believers of youth power. He was an ardent disciple of Sri Ramakrishna Paramhansa and a major force in the revival of Hinduism in India. Celebrated as one of the greatest social leaders of the country. He was a social reformer, philosopher, and thinker. The main objective behind the celebration is to propagate the philosophy and the ideals of Swami Vivekananda for which he lived and worked. No doubt he was a great inspiration for all National Youth of India.

National Youth Day creates awareness and provides knowledge about the rights of people in India. It is a day to educate people to behave properly in the country. The main objective behind the celebration is to make a better future for the country by motivating the youths and spreading the ideas of the Swami Vivekananda. National Youth Day is also famous as Yuva Diwas.

“It's All in the Mind” is the theme of National Youth Day 2022. On National Youth Day, the Government of India selects a new theme each year. The theme is chosen based on the country's current and relevant situation. Yuva Diwas is made more colorful and meaningful by incorporating a theme. It contributes to the unification of the country's Youth. On this day, we commemorate his revolutionary ideas, which are extremely important.

It was a decision of the Government of India taken in 1984 to celebrate the birthday of great Swami Vivekananda, i.e. 12 January, as National Youth Day every year. The Government of India quoted that 'the philosophy of Swami and the ideals for which he lived and worked could be a great source of inspiration for the Indian Youth Day'. With hopes of a developed India, Swami Vivekanand aspired to lead the vision of youth and transform them into reality.

The NSS unit of KJSIEIT wishes everyone Happy National Youth Day.

# Indian Army Day

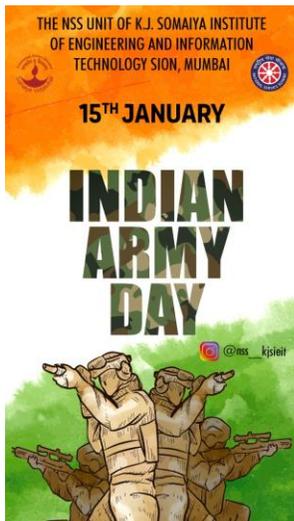

Greetings,

**“It is God’s duty to forgive the enemies, but it’s our duty to convene a meeting between the two.”**  
 - Indian Army

**Army Day** is celebrated on **15th January** every year in India, in recognition of Field Marshal K.M Cariappa’s (then a Lieutenant General) taking over as the first Commander-in-Chief of the Indian Army from General Francis Bucher, the last British Commander-in-Chief of India, on 15 January 1949. The day is celebrated in the form of parades and other military shows in the national capital New Delhi as well as in all headquarters. Army Day marks a day to salute the valiant soldiers who sacrificed their lives to protect the country and its citizens.

The reason why this day is celebrated by every Indian is that India’s military leaders have bravely fought wars along and beyond the borders and have kept the country’s security intact. As responsible citizens, we should honor such leaders by celebrating this day on 15<sup>th</sup> January every year so that we remind ourselves and the coming generations that the cost of freedom was paid in blood by these real-life heroes.

On Indian Army Day, we can learn about the history of wars that our soldiers have fought. For example, very few people know that Indian soldiers took part in World Wars 1 and 2. Another fact is that the Indian army gave birth to a country called Bangladesh and registered a world record for the surrender of 93,000 Pakistani soldiers. So, we can grab this opportunity to learn about the valor displayed by our soldiers in the face of the enemy.

The NSS unit of KJSIEIT wishes everyone a Happy Indian Army Day.

## National Girl Child Day

Greetings,

"GIRL means Gift In Real Life".

**National Girl Child Day** is celebrated every year on **24 January**. The celebration of this day started in **2009**. The Ministry of Women and Child Development celebrated Girl Child Day for the first time in the country on 24 January 2009. There is a special reason to celebrate 24 January every year as Girl Child Day. This reason is related to **Indira Gandhi**. In 1966, Indira Gandhi was sworn in as the first woman Prime Minister of the country. January 24 is an important day in the history of India and the empowerment of women.

Every year the theme of National Girl Child Day is different. The theme of Girl Child Day 2021 was 'Digital Generation, Our Generation'. The theme of Girl's Day in the year 2020 was 'My voice, our common future'.

The reason for celebrating this day is to make the girl child of the country aware of their rights. Along with the daughters of the country, all the people have to be made aware of the discrimination faced by the girl child in the society. On this day every year state governments organize awareness programs in their respective states.

The objective of celebrating the day is to highlight the inequalities faced by girls in the country, promote awareness about the rights of a girl child and generate awareness on the importance of girl education, health, and nutrition.

Various events are organized all across the country to celebrate the day. To mark National Girl Child Day, the government organizes awareness campaigns under Beti Bachao, Beti Padhao (Save the girl child, Educate the girl child) scheme.

The NSS unit of KJSIEIT wishes everyone Happy National Girl Child Day.

## National Voters Day

Greetings,

**“We have the power to make a difference. But we need to VOTE.”**

Every year, **January 25** is celebrated as **National Voters’ Day** by the Government of India. The day is observed to mark the foundation of the Election Commission of India. In order to encourage more young voters to take part in the political process, the Government of India had decided to celebrate January 25 every year as "National Voters' Day".

National Voters' Day is celebrated to encourage, facilitate and maximize enrolment, especially for the new or first-time voters. On this day, voters are being made aware of promoting informed participation in the electoral process. New voters or first-time electorate are handed over their Elector Photo Identity Card in the National Voters' Day function. The theme for this year's NVD is 'Making Our Voters Empowered, Vigilant, Safe and Informed'. Encouraging the active participation of the voters of India during elections and helping them be responsible citizens are key to today's National Voters' Day activities. This year amid the pandemic, it will also focus on the ECI's commitment towards conducting the polls safely.

The slogan 'No Voter to be left behind has been coined to further emphasize the focus on inclusiveness. The National Awards are being conferred for excellence, proficiency, and innovation in election processes and procedures. These awards recognize contribution by-election machinery, government department/ agency/ PSU, CSO, and media said. The greatest joy is seen in the young voters of India. The agenda to celebrate voter's day is to raise awareness of the importance of voting, especially among the newly eligible voters of the country. Voting is a basic process that helps to form a country's government. One can choose their representatives through voting.

The NSS unit of KJSIEIT wishes everyone a very Happy National Voters' Day.

## Republic Day

Greetings,

“Freedom in the mind, strength in words, pureness in our blood, Pride in our souls, zeal in our hearts, let’s salute our nation on Republic Day. “

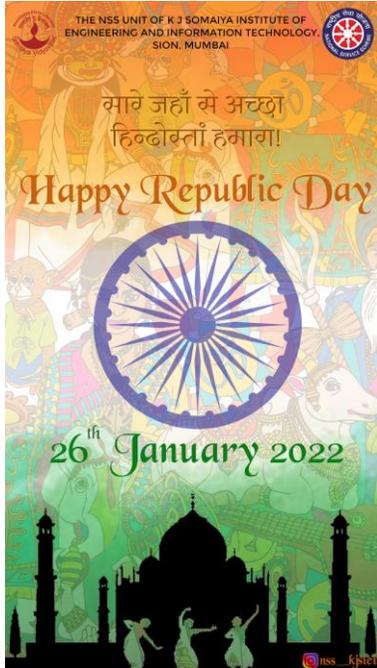

January 26<sup>th</sup>, 2022 marks the 73rd Republic Day of India. The day commemorates the enactment of the Constitution of India which came into effect on January 26<sup>th</sup>, 1950, and India became a sovereign nation free from British rule.

The Indian Constitution was drafted by Dr. BR Ambedkar who is known as the Architect of the Indian Constitution. 26<sup>th</sup> January was chosen as the day to announce India becoming a republic as in 1929 on the same day the Indian National Congress denounced colonial rule and proclaimed Purna Swaraj, “complete freedom from the British”. And while the Constitution came into force in 1950 under a democratic government system, it was adopted by the Indian Constituent Assembly on 26 November 1949. This completed the country’s transition into becoming a sovereign republic.

Republic day marks the celebration of the empowerment of Indian citizens to select their own government, granting all its citizens ‘liberty of thought, expression, belief, faith and worship’ and ‘equality of status and of opportunity. It’s a day when people of all faiths, cultures, communities, and sections of the country come together to celebrate the rich history and culture of our country.

This day is celebrated with much pomp and fervor all over India, and in India’s capital Delhi, parades, tableaux, and spectacular displays by the defense forces are showcased at Rajpath. The Indian flag is also hoisted all over the country. Alongside there are the beautifully decorated tableaux that reflect the uniqueness and beauty of the various states of India.

On this day let us make a promise to strive for justice, freedom, and equal rights for every Indian and for peace and unity among all who are fortunate enough to live in this glorious nation.

The NSS unit of KJSIEIT wishes everyone a Happy Republic Day.

## International Day of Women and Girls

Greetings,

"Science is not a boy's game, it's not a girl's game. It's everyone's game. It's about where we are and where we're going." -Nichelle Nichols

Science and gender equality are both vital for the achievement of the internationally agreed development goals, including the 2030 Agenda for Sustainable Development. Over the past decades, the global community has made a lot of effort in inspiring and engaging women and girls in science. Yet women and girls continue to be excluded from participating fully in science.

 @NSS\_KJSIEIT

Women are typically given smaller research grants than their male colleagues and, while they represent 33.3% of all researchers, only 12% of members of national science academies are women. Female researchers tend to have shorter, less well-paid careers. Their work is underrepresented in high-profile journals and they are often passed over for promotion.

February 11<sup>th</sup> is observed as International Day of Women and Girls in Science every year in order to smash the gender biases and stereotypes that discriminate against women and girls in the STEM fields.

Women have led ground-breaking research into public health, vaccines, treatments, and innovative technology, and been on the front lines of COVID-19 response as scientists, health care workers, and more.

The COVID-19 pandemic is poised to widen the existing gender disparities, especially for women scientists at the early stages of their careers, unless we act deliberately to keep women in the career pipelines in STEM. It's more important than ever to recognize women's contributions in science, smash stereotypes and defeat discrimination against women and girls in science.

The NSS unit of KJSIEIT wishes everyone an International Day of Women and Girls in Science.

## Chatrapati Shivaji Maharaj Jayanti

Greetings,

**“Freedom is a boon, which everyone has the right to receive”** - Chatrapati Shivaji Maharaj

The birth anniversary of the great Maratha King Shivaji is celebrated as **Shivaji Maharaj Jayanti**. The first celebration was held in Pune on **19th February**. Shivaji Jayanti was established in 1870 by Mahatma Jyotirao Phule. Shivaji Maharaj was the first one to introduce guerrilla fighting techniques through his Maratha army. He was instrumental in bringing the Maratha chiefs of the Mayal, Konkan, and Desh areas together. Shivaji Maharaj is considered the greatest Maratha ruler who carved an enclave from the declining Adilshahi sultanate of Bijapur that became the start of the Maratha Empire. At the young age of 16, Shivaji Maharaj seized the Torna fort and by the age of 17 had seized the Raigad and Kondana forts. Shivaji Maharaj as he is popularly known was named Shivaji Bhosale and was a member of the Bhonsle Maratha clan. Shivaji Maharaj promoted the use of Marathi and Sanskrit in court and administration, rather than using Persian which was the norm in those times.

People celebrate the day with great pride and organize several cultural programs, processions to mark the day.

To commemorate Shivaji Jayanti 2022, here are some of Shivaji Maharaj's life lessons that might inspire others with the values and beliefs he stood for throughout his life:

Respect our own Culture - Regional languages were reintroduced as official languages in his court. This highlights the importance of local languages in preserving our culture; they facilitate communication with all segments of society, allowing us to flourish socially and economically.

Respect Women - He was against all forms of violence, harassment, and disrespect directed towards women. He used to punish anyone who mistreated women, and in some cases, the punishment was harsh. Since childhood, Jijamata taught him about goddess bravery and how Sanatan Dharma honors women.

When one is on the path to success, be humble and grounded - He had a feeling of attachment and love for everyone in society. He never discriminated against anyone, whether they were wealthy or impoverished, white or black, or of a certain caste. He treated everyone equally, he used to visit poor families and whatever is offered in food, he used to enjoy with them.

The NSS unit of KJSIEIT wishes everyone a Happy Chatrapati Shivaji Maharaj Jayanti.

## World Day of Social justice

Greetings,

“Life's most persistent and urgent question is: 'What are you doing for others?'” -Martin Luther King Jr.

**Social justice** is a means to create an ideal or a just society. To him, a just society is a casteless society, based on the principles of social justice and a combination of three components: **liberty, equality, and fraternity.**

On 26 November 2007, the General Assembly declared that starting from the sixty-third session of the General Assembly, **20 February** will be celebrated annually as the World Day of Social Justice. The International Labor Organization unanimously adopted the ILO Declaration on Social Justice for a Fair Globalization on 10 June 2008. This is the third major statement of principles and policies adopted by the International Labor Conference since the ILO Constitution of 1919.

The theme of this year i.e. 2022 for the World Day of Social Justice is “Achieving Social Justice through Formal Employment”.

More than 60 percent of the world's employed population, that is 2 billion women, men, and youth, earn their livelihoods in the informal economy. Now, promoting the transition to formal employment is a necessary condition to reduce poverty and inequalities, advance decent work, increase productivity and sustainability of enterprises and expand the government's scope of action, notably in times of crisis.

The NSS unit of KJSIEIT wishes everyone a social justice environment on account of World Day of Social Justice.

## World NGO Day

Greetings,

**“If You Can’t Feed a Hundred People, Feed Just One.”** – Mother Teresa

**World NGO Day** is observed every year on **February 27**. N.G.O. is an acronym for non-governmental organization. World NGO Day is a day set aside to recognize, celebrate and honor the fundamental contributions and profound impact that these independent organizations have had on the world. N.G.O.s are nonprofit organizations and although they’re a modern phenomenon, their history spans back hundreds of years. Their influence continues to grow and make positive changes where needed in today’s world.

 @NSS\_KOSIET

World NGO Day was originally founded in **2009** by **Marcis Liors Skadmanis**, a social entrepreneur. However, it was observed for the first time on February 27, 2014. It’s a day set aside to honor all non-governmental and nonprofit organizations, recognizing their impact on the world.

There is a lack of understanding within society around the world of the important role played by NGOs in sectors such as education, culture, science, or development, the importance of their contributions to society, and how fulfilling it is to be part of an NGO.

World NGO Day provides an opportunity to honor and remember NGO founders, employees, volunteers, members and supporters who give their resources to help make a difference. World NGO Day was marked between 2010-2018 in 89 countries and six continents. NGOs across the world have been working diligently to set a remarkable example in the whole world.

The NSS unit of KJSIEIT wishes everyone World NGO Day.

## National Science Day

Greetings,

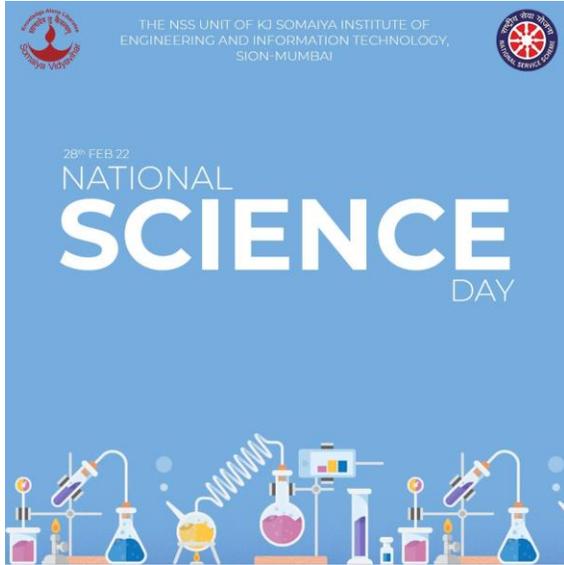

**“Science knows no country, because knowledge belongs to humanity, and is the torch which illuminates the world.”** – Louis Pasteur

National Science Day is celebrated in India on 28 February each year to mark the discovery of the Raman effect by Indian physicist Sir C. V. Raman on 28 February 1928. National Science Day is celebrated to spread a message about the importance of science used in the daily life of the people. To display all the activities, efforts, and achievements in the field of science for human welfare. It is celebrated to discuss all the issues and implement new technologies for development in the field of science. To give an opportunity to the scientific-minded citizens in India. To encourage the people as well as popularize science and technology.

 @NSS\_KSIEIT

National Science Day is celebrated in India every year on 28 February. The celebration also includes public speeches, radio, TV, science movies, science exhibitions based on themes and concepts, debates, quiz competitions, lectures, science model exhibitions, and many more activities. Many institutions organize open houses for their laboratories and appraise students about career opportunities available in a particular research laboratory/institution. The theme of National Science Day 2022 is 'Integrated Approach in Science and Technology for a Sustainable Future'.

Science has pushed us to our limits. Everything around us is a product of science. The National Science Day is for those who believe in science, scientists, the younger ones who work hard to learn about science and technology

The NSS unit of KJSIEIT wishes everyone Happy National Science Day.

## Zero Discrimination Day

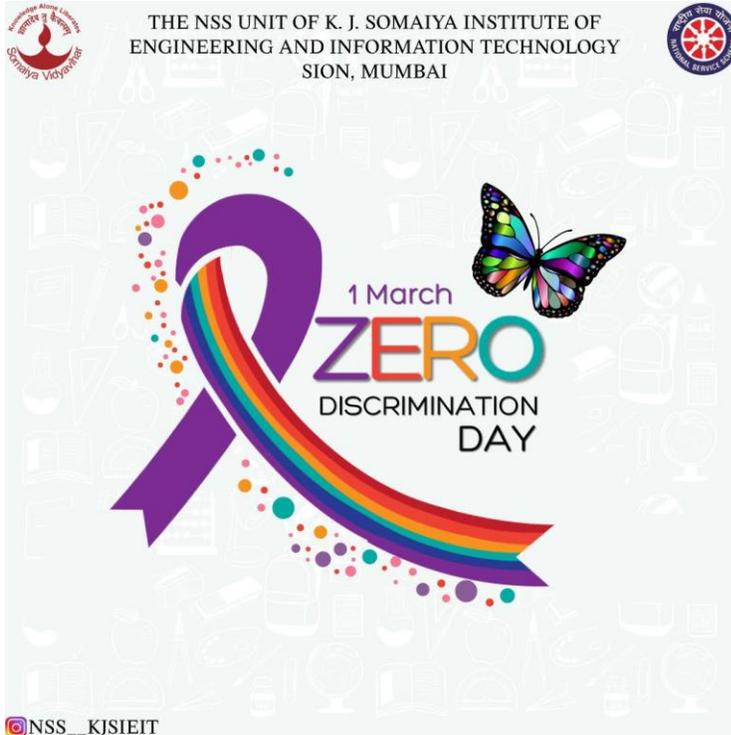

Greetings,

"If you believe that discrimination exists, it will" - Anthony J. D'Angelo

The UN first celebrated **Zero Discrimination Day** on **March 1, 2014**, after UNAIDS, a UN program on human immunodeficiency virus (HIV) and Acquired Immune Deficiency Syndrome (AIDS), launched its Zero Discrimination Campaign on World AIDS Day in December 2013.

On Zero Discrimination Day, 1 March, we celebrate the right of everyone to live a full and productive life—and live it with dignity. Zero Discrimination Day highlights how people can become informed about and promote inclusion, compassion, peace, and, above all, a movement for change. Zero Discrimination Day is helping to create a global movement of solidarity to end all forms of discrimination.

Organizations like the United Nations (UN) actively promote the day with various activities to celebrate everyone's right to live a full life with dignity regardless of age, gender, sexuality, nationality, ethnicity, skin color, height, weight, profession, education, and beliefs. Many countries have laws against discrimination but it's still a problem in all layers of society in every country in the world. Many countries have and still use discrimination as a way of governing.

The symbol for Zero Discrimination Day is the butterfly, widely used by people to share their stories and photos as a way to end discrimination and work towards positive transformation.

The NSS unit of KJSIEIT wishes everyone a Happy World Elder Abuse Awareness Day.

## National Security Day

Greetings,

**“Safety work is today recognized as an economic necessity. It is the study of the right way to do things.” – Robert W. Campbell**

**National Security Day** was observed for the first time on **4 March 1972**, on the foundation day of the National Security Council.

To show gratitude to all the security forces, including policemen, paramilitary forces, commandos, guards, army officers, and other people involved in security, who sacrifice their lives in maintaining the peace and security of the people of the country.

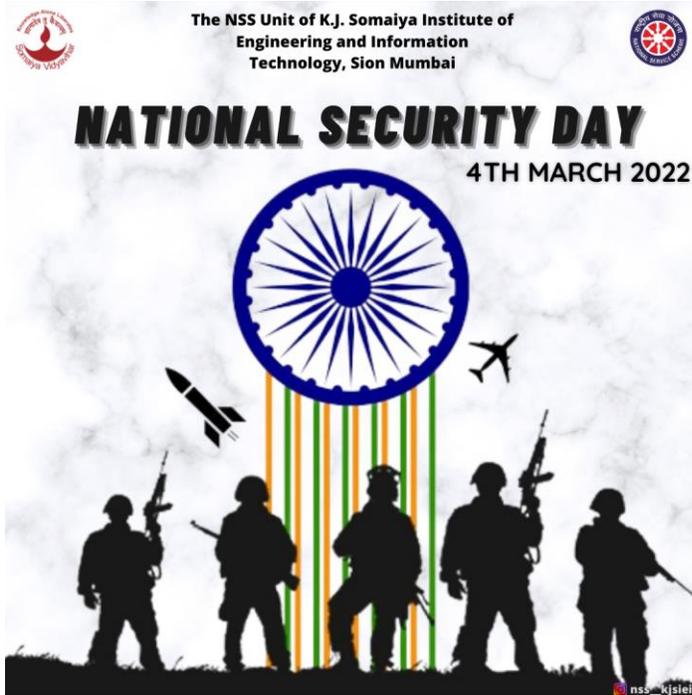

**NATIONAL  
SECURITY DAY**  
**4TH MARCH 2022**

 @NSS\_KJSEIT

The main objective and vision of the National Security Council have remained the same - To protect and serve society and foster a preventive culture and scientific mindset among people.

Now in its 50th year, the day has grown to become a major national campaign that is widely celebrated across industries, departments, NGOs, and regulatory agencies in the country.

The commemoration of National Security Day is based on a theme, every year. Hence, the theme for National Security Day 2022 is “Sadak Suraksha (Road Safety).”

We must appreciate the work of security forces, who confirm that the citizens of India can sleep peacefully, without fretting over the protection of the country.

The NSS unit of KJSIEIT wishes everyone Happy National Security Day.

## International Women's Day

Greetings,

**“Feminism isn’t about making women strong. Women are already strong. It’s about changing the way the world perceives that strength.” -G.D.Anderson**

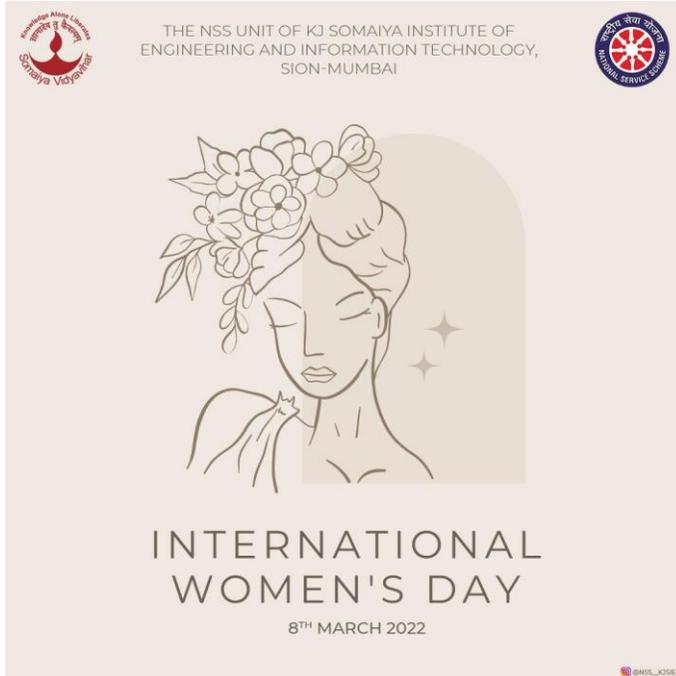

It was during 1908 that there was an ongoing critical debate amongst women regarding their oppression and inequality. The campaign for change started to become more vocal when 15,000 women marched through New York City demanding shorter hours, better pay as well as voting rights. In 1909, the first Women's Day was observed across the United States. In 1910, an international conference of working women was held in Copenhagen. That's where the idea was proposed by Clara Zetkin, a leader of the Women's Office for the Social Democratic Party in Germany. In 1911, International Women's Day was honored for the first time in Austria, Denmark, Germany, and Switzerland on 19 March. Between 1913 and 1914, women in Russia observed their first Women's Day on February 23. Later, it was decided that **March 8** can be the globally accepted day to celebrate IWD. **International Women's Day** was celebrated for the first time by the United Nations in 1975.

 @NSS\_KJSIET

International Women's Day (IWD) is a global holiday celebrated annually on March 8 to commemorate the cultural, political, and socioeconomic achievements of women. It is also a focal point in the women's rights movement, bringing attention to issues such as gender equality, reproductive rights, and violence and abuse against women.

Internationally, purple is taken as a color to symbolize women's day. This year's Women's Day theme will emphasize psychosocial well-being and aims at improving the mental health of women in India. In the year 2022, the theme for the celebration is 'Women of Tomorrow' and "Gender equality today for a sustainable tomorrow".

International Women's Day has become more than just a commemorative event over the years. It highlights the stories and extraordinary achievements of women that have on many occasions been erased. Each year, in celebration of this day, we look back to our mentors through history and work towards furthering the goal that they had set. Conferences, rallies, debates, and discussions are organized and women from around the world participate in order to share their stories and make their voices heard.

Show your support on social media, Attend an IWD virtual conference, fundraise for a female-focused charity or organization, Tell the women in your life you love them these are the few ways to celebrate women's day. Don't forget to focus on yourself, invest in people who invest in you, be honest about who you are, never be ashamed of your scars or your past, support other women always, quit with the comparison game, don't let people talk over you above discussed are few of the learnings that one can learn from the day.

The NSS unit of KJSIEIT wishes everyone Happy International Women's Day.
