# **ROLES AND RESPONSIBILITIES**

- **Leading the development of an International Engineering and Technology community , sharing and advancing knowledge to enhance people's lives.**
- **To ensure that students and faculty members work in coordination to enhance the aspects of growth and vision of KJSIEIT.**
- **To overlook and organize various student driven activities and events in KJSIEIT.**
- **To help provide better services for the students and staff.**
- **Work to ensure better development and utilization of Infrastructure and services for our students.**

# IET STRATEGY

- Given the increasing global importance of India as an engineering hub\* our aim is to make an impact that has relevance both locally and internationally. Our strategy is to make a meaningful impact on the overall competency and skill levels within the Indian engineering community and play an influencing role with industry in relation to technology innovation and solving problems of public importance.
- We want to do this through working in partnership with industry, academia and government, focussing on the application of practical skills within both learning & career life cycles, driving innovation and thought leadership through high impact sectors.
